

Dear greasers,

Could you please take better care of me! I'm getting older and uglier. Could you paint me? I would like to be purple and light blue. You better clean the basement, it's all dusty with all the junk you have down there. Also, you better stop smoking. I may die of lung cancer! Maybe you can fix the chimney and turn it on, I'm very cold at night. I could easily get a cold.

There is another thing I have to talk to you about. Your friends came with dirty shoes and walk on the white carpet. Also, the front door could easily close but your friends close it so hard that my whole body shakes. There is one more thing I have to say, please cut the grass in the backyard, it making me nuts. Please, listen to what I say it would really help you and me.
