Reports can also be made via email to reportbullying@u-46.org.

School District U-46 recognizes that a safe and civil school environment is necessary for students to learn and achieve. To ensure the physical and emotional safety of all our students, District U-46 has a bullying prevention policy (Board Policy 7.193 Prevention and Response to Bullying, Intimidation and Harassment). As part of that policy, we seek to prevent, respond to, and put an end to bullying behavior by students and adults using interventions and supports that reflect a commitment to our positive discipline philosophy. Our focus is on teaching, rather than punishing, emphasizing and engaging in restorative practices to repair relationships and increase self and social awareness. We emphasize age appropriate responses that help educate and rehabilitate the student responsibly, while fully addressing the impact of the bullying on the targeted student.

Statement on Student Behavior

School District U-46 considers it best practice for children to be engaged in an academic setting. Removal from their learning environment is counterproductive to our mission of “Academic Success for All.” School District U-46 takes a preventive, positive approach to discipline rather than focusing exclusively on “punishment.” We respond to misbehavior with interventions and consequences aimed at teaching alternative expected positive behaviors, understanding and addressing the root causes of the misbehavior, resolving conflicts, meeting students’ needs and keeping students in school. We take deliberate steps to create a positive school climate in which every student can learn, fully engage in a rigorous curriculum, and feel safe, nurtured, and welcome. Our District utilizes school discipline as an opportunity for teaching, repairing relationships and fostering growth among the whole school community. Our philosophy is non-punitive, holistic, and inclusive of multiple, diverse perspectives. We use a restorative discipline approach that emphasizes relationships and community above rules and regulations. This is not a “soft” response to misbehavior nor does it fail to hold students accountable. Rather, restorative discipline helps students understand the impact of their behavior both on themselves and on others. Students also learn social and emotional skills including self-awareness, self-management and social awareness, to help them respond differently in the future. Through the use of restorative discipline, we resolve conflicts, encourage our school community members to take responsibility for their behavior, repair any harm done, restore relationships, and reintegrate students into the school community.

We use school-wide discipline policies developed and revised with meaningful input by the school community to create a positive and inclusive school climate for everyone. We are committed to applying school discipline policies and practices in a fair and equitable manner so as not to disproportionately impact students of color, students with disabilities, LGBT students, students with limited English proficiency, or other at-risk students that have been historically marginalized in schools.

Prevention, Intervention and Disciplinary Responses

Discipline Framework

Our District provides proactive, differentiated interventions for students. These interventions are aimed at addressing the root causes of students' behaviors and focus on teaching behaviors, rather than excluding students for punishment. Challenging behaviors must be addressed in the context of a comprehensive, multi-level approach to behavior support that is designed to teach, model and nurture, and encourage positive social behaviors.

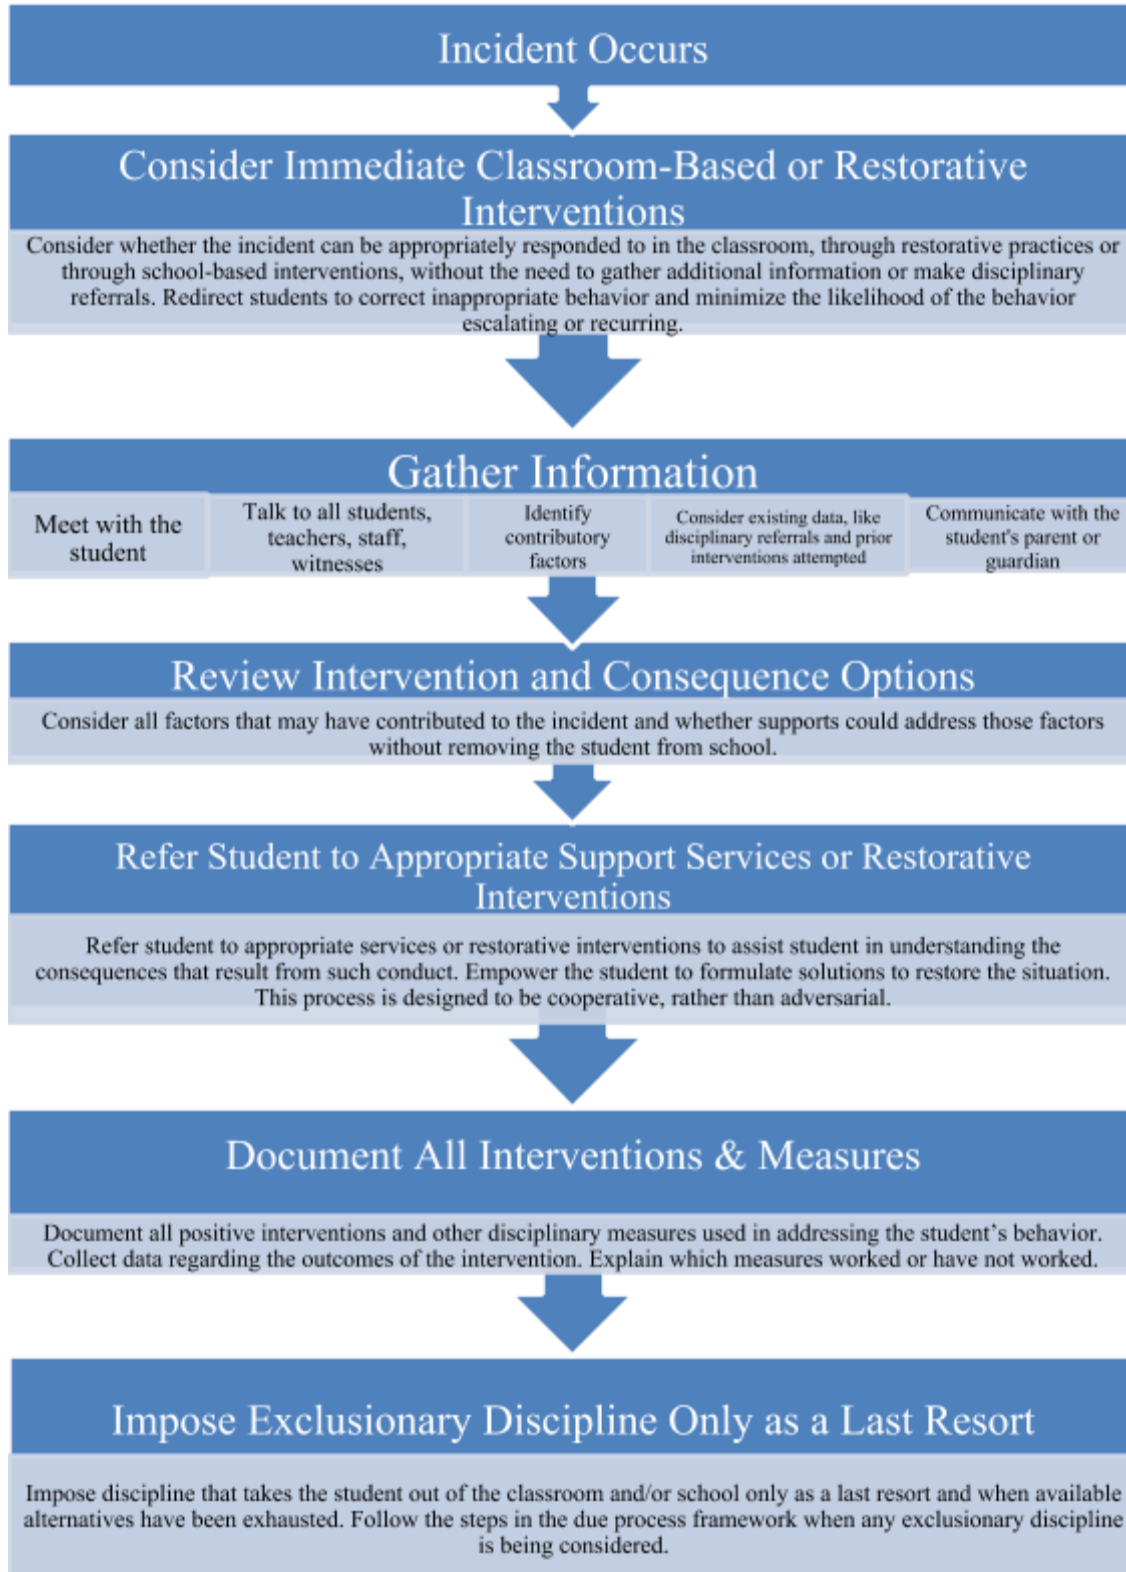

We offer academic, behavioral, mental health, and social-emotional interventions and supports for students who have fallen behind academically and/or are being disciplined. We use school-wide positive behavior support, social-emotional learning, and restorative practices. We employ an "early warning" system to allow us to identify students who are at risk of dropping out or being pushed out of school, using a systematic review of already existing data (e.g. course failures, discipline referrals, and attendance).

We limit the use of out-of-school student discipline to keep students connected to school so that they may graduate high school and are college- and/or career-ready. Every situation will be judged "on the merits" of that situation after gathering and analyzing the facts and surrounding circumstances carefully and objectively. Our schools redirect students to correct inappropriate behavior, teach positive and expected behaviors and minimize the possibility of the behavior escalating or recurring.

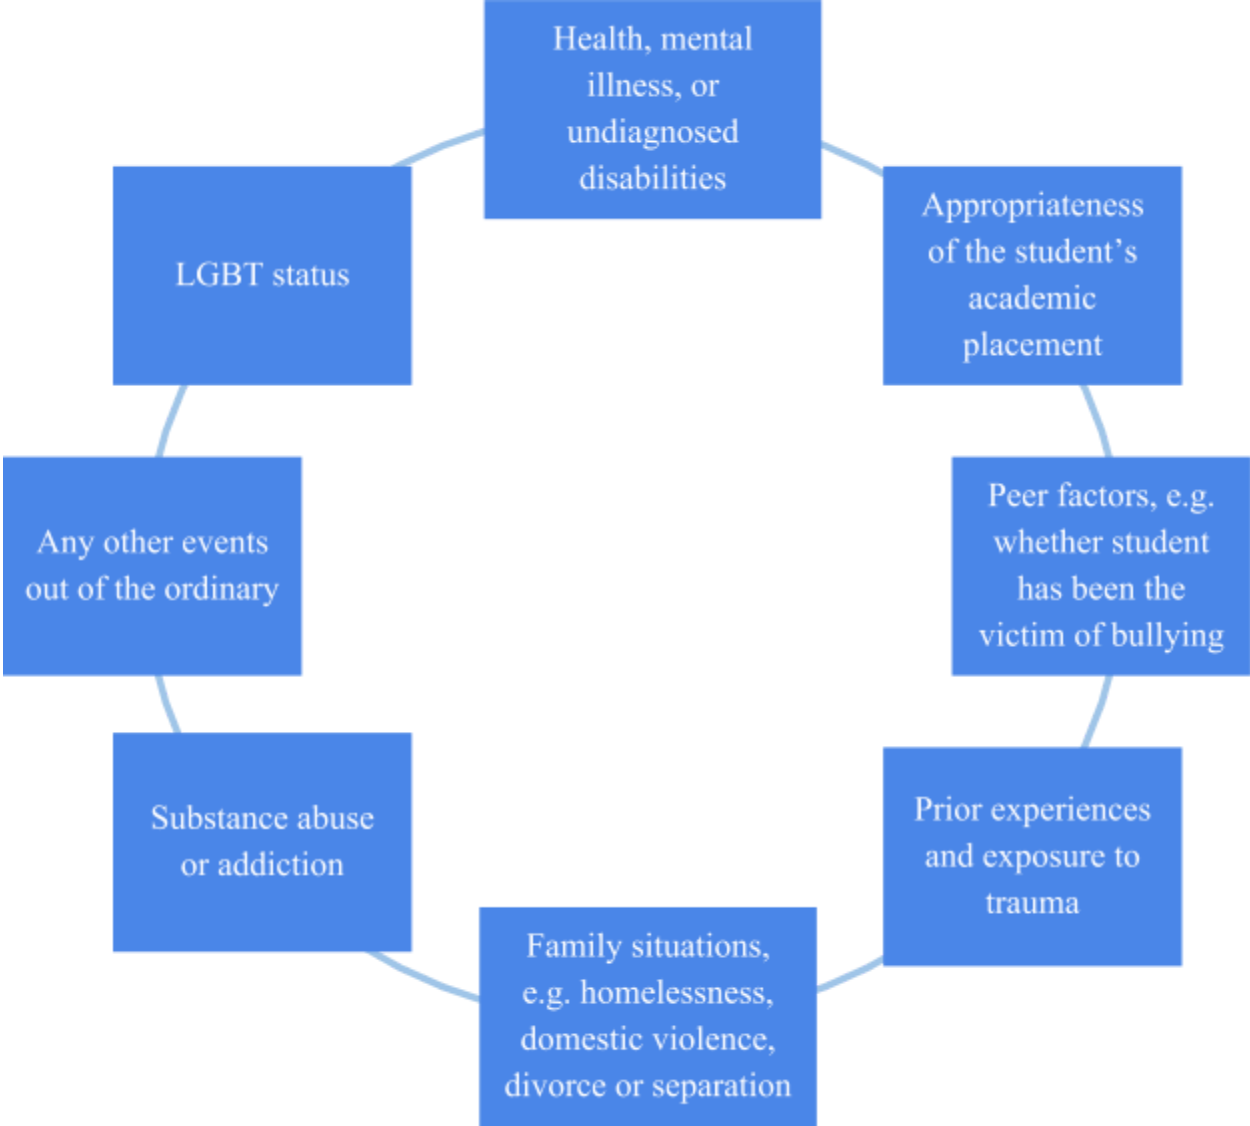

District U-46 Does Not...

- Use zero-tolerance policies that require school staff to suspend or expel students for certain behaviors except if required by law (for example, for certain offenses involving weapons).
- Suspend out-of-school any student Pre-kindergarten through second grade (PreK-2) without the approval of the Chief Executive Officer (CEO) designee.
- Suspend out-of-school any student for more than 3 consecutive days or 10 cumulative days in one school year without the approval of the District Coordinator of Student Discipline.
- Advise or encourage students to drop out voluntarily due to behavioral or academic difficulties or to leave the school voluntarily to avoid formal disciplinary proceedings.
- Issue a monetary fee or fine as a disciplinary consequence. Students may be asked to pay for lost, stolen or damaged property.
- Use corporal punishment (Board Policy 7.190 and 7.197).
- Use restraint or seclusion for punishment or discipline.
- Withhold lunch as a punishment.

Behavior Events. If there is an incident, the school takes the following steps:

After an incident, District U-46 considers the following factors in analyzing the root causes of an incident and whether supports could address these factors without removing the student from school.

Equity Policy (U-46 School Board Policy 2.250)

The Board of Education of Illinois School District U-46 is committed to the success of every student in every school. A primary objective of the District is that by graduation, all students will meet or exceed college and career ready standards and be fully prepared to become contributing members of society. We believe that it is the responsibility of this School District to give each student the opportunity and support to meet his or her highest potential.

We also recognize historic and persistent achievement and/or excellence gaps, disparities in data with respect to graduation rates, and inequities in reported incidents of student misconduct when comparing students of various ethnic and racial backgrounds. Closing these gaps and addressing these disparities, while raising achievement for all students, are top priorities of the Board of Education, the Superintendent, and all District staff, and it will remain the District's responsibility to continue to address these issues. Illinois School District U-46 will continue to modify its practices in order to achieve and maintain equity in education. We seek to foster a barrier-free educational environment where all students, regardless of race, language and zip code, have the opportunity to benefit equally.

To achieve this goal, the District will provide differentiated resources to support the success of all students and be guided by the following mandates. The District shall:

- provide every student with equitable access to high quality and culturally relevant instruction, curriculum, and other educational resources;
- create multiple pathways to success in order to meet the needs of our diverse student body;
- actively encourage, support and expect high academic achievement from all students;
- actively strive to have a teacher and administrative workforce that reflects the diversity of the student body;
- provide professional development to strengthen employee knowledge and skills in eliminating disparities in achievement based on race and/or ethnicity;
- remedy any practices that lead to over-representation of students of color in special education and student discipline;
- remedy any practices that lead to under-representation of students of color in programs such as gifted programs, honors academies, and advanced placement courses;
- welcome, empower and recognize students and families of all racial and ethnic backgrounds as essential partners in their student's education, school planning and District decision making, and;
- include and consider the input of government agencies, non-profit organizations, business and the community in general in ensuring equity of programs to all students.
- All students shall have equal access to all programs for which they qualify.

Title VI of the Civil Rights Act of 1964 Requirements

Title VI prohibits discrimination on the basis of race, color, or national origin in any program or activity that receives Federal funds or other Federal financial assistance. Programs that receive Federal funds cannot distinguish among individuals on the basis of race, color or national origin, either directly or indirectly, in the types, quantity, quality or timeliness of program services, aids or benefits that they provide or the manner in which they provide them. This prohibition applies to intentional discrimination as well as to procedures, criteria or methods of administration that appear neutral but have a discriminatory effect on individuals because of their race, color, or national origin. Policies and practices that have such an effect must be eliminated unless a recipient can show that they were necessary to achieve a legitimate nondiscriminatory objective. Even if there is such a reason, the practice cannot continue if there are alternatives that would achieve the same objectives but that would exclude fewer minorities. Persons with limited English proficiency must be afforded a meaningful opportunity to participate in programs that receive Federal funds. Policies and practices may not deny or have the effect of denying persons with limited English proficiency equal access to Federally-funded programs for which such persons qualify.

Anti-Harassment Policy - Students (U-46 School Board Policy 7.020)

Bully, Intimidation, and Harassment Prohibited

No person, including a District employee or agent, or student, shall harass, intimidate, or bully a student on the basis of actual or perceived: race; color; nationality; sex; sexual orientation; gender identity; gender-related identity or expression; ancestry; age, religion; physical or mental disability; order of protection status; status of being homeless; actual or potential marital or parental status, including pregnancy; association with a person or group with one or more of the aforementioned actual or perceived characteristics; or any other distinguishing characteristic.

The District will not tolerate harassing, intimidating conduct, or bullying whether verbal physical, cyber-bullying or visual, that affects the tangible benefits of education, that unreasonably interferes with a student's educational performance, or that creates an intimidating, hostile, or offensive educational environment.  - b. Creating an intimidating, hostile, or offensive educational environment;
 - c. Depriving a student of educational aid, benefits, services, or treatment; or
 - d. Submitting to or rejection of such conduct the basis for academic decisions affecting a student.

The terms "intimidating," "hostile," and "offensive" include conduct that has the effect of humiliation, embarrassment, or discomfort. Examples of sexual harassment include touching, crude jokes or pictures, discussions of sexual experiences, teasing related to sexual characteristics, and spreading rumors related to a person's alleged sexual activities.

Reporting a Complaint of Harassment

Any student who feels that he or she has been the victim of harassment or who has witnessed harassment should notify a school employee or the Principal or Nondiscrimination Coordinator or Complaint Manager. The Non Discrimination Coordinator is the District's Chief Legal Officer and the Assistant Superintendent of Human Resources/designee, both of whom can be reached at 355 East Chicago Street, Elgin, Illinois, 847-888-5000x5307.

The Chief Executive Officer/designee shall use reasonable measures to inform staff members and students that the District will not tolerate harassment such as by including this policy in the appropriate handbook. Any District employee who is determined, after an investigation, to have engaged in harassment will be subject to disciplinary action up to and including discharge. Any District student who is determined, after an investigation, to have engaged in harassment will be subject to disciplinary action, including but not limited to, suspension and expulsion consistent with the discipline policy.

Any person making a knowingly false accusation regarding harassment will likewise be subject to disciplinary action up to and including discharge, with regards to employees, or suspension and expulsion, with regards to students.

Isolated Time-Out and Restraints

Use of Isolated Time-Out and Physical Restraint shall only be used as a means of maintaining a safe and orderly environment for learning, and only to the extent that they are necessary to preserve the safety of students and others. Isolated time out and physical restraint shall not be used as a form of punishment. The purpose of this Policy is to govern the use of isolated time out and physical restraint in accordance with the requirements of the Illinois School Code (U-46 Board Policy 7.252). In addition, physical restraint shall not be used unless the student (1) poses a physical risk to him/herself or others, (2) there is no medical contraindication to its use, and (3) the staff applying the restraint had been trained in its safe application.

1. Isolated Time-Out

Isolated time-out means the confinement of a student in an enclosure, whether within or outside the classroom, from which the student's egress is restricted.

2. Physical Restraint

Physical restraint means holding a student or otherwise restricting his or her movements through the use of specific, planned techniques.

3. Momentary Physical Intervention

Physical restraint does not include momentary person-to-person contact, without the use of material or mechanical devices, accomplished with limited force, to (1) prevent a student from completing an act that could result in potential harm to him/herself or others, or damage to property, or (2) remove a disruptive student who is unwilling to leave the area.

4. Mechanical and Chemical Restraint

Mechanical or chemical restraints will not be used under any circumstances, and medically prescribed restraint procedures will not be used for purposes of maintaining discipline.

5. Parent or legal guardian notification.

If one of the above occurred with any student, parent or legal guardian is notified immediately and must be provided notification of the incident in writing within 24 hours. A person to person meeting is preferred; phone call discussion will meet this requirement.

Consequences and Interventions

School District U-46 takes a positive approach to behavior which includes proactive strategies for defining, supporting and teaching appropriate behaviors to create positive learning environments. Attention is focused on sustaining a three-tiered or multi-levelled system of support to enhance student academic and social-emotional learning. Students often need explicit instruction, modeling and practice, encouragement and feedback, and recognition to assist them in learning new skills to improve their behavior. School staff recognizes that maintaining and changing student behaviors involves a continuum of teaching, prompting, reinforcing and delivering positive acknowledgement, offering ongoing supports and the delivery of tiered interventions as well as communicating with stakeholders.

Nothing in this Student Code of Conduct shall be interpreted in a manner that conflicts with Section 7: Students of the U-46 School Board Policies (see the U-46 Website on School Board Policy) or violates a student's rights as provided for in the Individuals with Disabilities in Education Act.

There are Three Tiers of Intervention

Tier 1 -- All Students

Includes:

- General curriculum enhanced by acknowledgements of positive behaviors and clearly stated expectations that are applied to all students in all settings in a preventative, proactive approach to social-emotional learning and behavior management.

Tier 2 -- Selected Interventions

Focus on:

- Specific interventions for students who do not respond to universal efforts based on data
- Targeted small groups of students who require more support
- Interventions that are part of a continuum of behavioral supports needed in schools and are characterized by high efficiency and a rapid response to data

Tier 3 -- Individualized Interventions

Focus on:

- The needs of individual students who exhibit a pattern of problem behaviors that have not responded to increasing Tier 2 interventions
- Diminishing problem behaviors identified via assessments and/or ongoing data collection while and increasing the student's social skills, self-regulation and/or functioning
- Interventions involving functional behavioral assessments and behavioral intervention plans

The process of intervention involves a continuum of numerous intervention possibilities in an effort to address the behavior in a manner that promotes change that supports a safe nurturing school environment.

The Three Tiers of Intervention

Positive Behavioral Interventions and Supports (PBIS) provides a school-wide framework through which school staff teach behavioral expectations and provide added support to ensure student social-emotional and academic success through a multi-tiered system of support. The PBIS tiered system of support is grounded in evidence-based practices and data-based decision making to identify and address the behavioral and social-emotional needs of students.

Interventions may include (but are not limited to) the examples below:

Tier 3 – Tertiary Prevention:

This tier includes individualized behavior supports for specific students. These are the most intensive interventions provided to the fewest students (1-5%) with the most significant needs.

- Specialized,
- Individualized
- Systems for students with high-risk

Tier 2 – Secondary Prevention

This tier includes services for groups of students (5-15%) who need targeted behavior support. Students who are not successful with Tier 2 interventions and supports are referred for Tier 3.

- Specialized groups
- Systems for students with at-risk behavior

Tier 1 – Primary Prevention

This tier includes all students and is often called “universal” supports, which meet the needs of 80-90% of the student population. Students who require additional supports are referred for Tier 2.

- School wide systems for all students, staff and settings
- Classroom systems for all students, staff and settings

Rights and Responsibilities

Students have the right and responsibility to:

- be respected as an individual and treated courteously, fairly and respectfully by other students and school staff;
- treat teachers, staff, other students, themselves and property with respect;
- take part in all school activities on an equal basis regardless of race, religion, religious practices, sex, sexual orientation, gender, gender identity, national origin, ethnic group, political affiliation, age, marital status, or disability; and
- Attend school daily, be prepared for class and complete assignments to the best of their ability.

Parents/legal guardians have the right and responsibility to:

- be informed of their child's attendance, performance and behavior concerns;
- receive information and prompt notification of inappropriate or disruptive behaviors by their child and any disciplinary actions taken by principals or school staff and have a voice in how to address them in a proactive manner;
- assure their child brings to school only those things that are appropriate in a school setting;
- inform school personnel of any issues that may impact the educational experiences of their child; and
- Participate in decision-making processes affecting school policies and procedures and the educational success of their child.

Teachers, principals, and school staff have the right and responsibility to:

- establish a sense of community in the classroom, including opportunities for members of the school community to learn about and be respectful of each other's cultures;
- be knowledgeable about federal and state laws and regulations about the disciplinary process for students with disabilities and for all students;
- enforce the policies, rules, and regulations of the district, school, classroom, and code of conduct, including preventive and positive disciplinary policies in cooperation with students, parents/guardians, and administrators;
- communicate policies, expectations, and concerns to students and parents/ guardians, and respond to complaints or concerns from students and parents/ guardians in a timely manner and in a language they understand;
- engage parents when their child is subject to disciplinary action; and

- Seek and receive support in preventing and responding to student behaviors in a supportive manner, including classroom and behavioral management strategies.

District administrators have the responsibility to:

- provide support and professional development training to principals and school staff to help them support all students, including students with disabilities and other special needs, particularly in areas of classroom/behavior management and instructional supports;
- ensure discipline policies are in compliance with civil rights laws, state and federal legislation and best practices in school discipline; and
- monitor discipline data to identify, investigate and address any disparities between students on the basis of disability, race, gender, or other student characteristics and to address unnecessary rates of school exclusion for all students.

Community-based/local organizations and agencies should:

- share ideas and strategies for improving school climate and discipline practices;
- make reasonable efforts to confer, consult, and collaborate with school staff and/or parents/guardians on student misconduct and potential responses; and
- Integrate proposed supports and strategies with existing school-based practices to create a cohesive school discipline framework.

Feedback and Evaluation

District U-46 provides structured opportunities for all stakeholders in our educational community to obtain information, help make decisions, and participate in the educational process. These stakeholders include all students, parents, guardians, district and school staff members (including bus drivers, cafeteria workers, security officers and school resource officers), teachers, school-based mental health professionals, administrators, members of the school board or governing body of a charter school, and community members. We recognize that involvement of these various stakeholders in our educational community is essential to the success of our school or district, and we actively foster engagement with parents, families and community members.

Where to find a copy:

- At the beginning of each school year the Student Registration systems require parents or legal guardians to acknowledge the Student Code of Conduct.
- The Student Code of Conduct is posted on the [U-46 website](#).
- Paper copies are provided upon request at your school front office.
- If you wish to send feedback or be included in the evaluation committee, contact John Heiderscheidt, Director of Safety and Culture, by using our [Let's Talk](#) communication tool or call 847-888-5000 extension 5778.

Levels of Consequences and Interventions

The Code of Student Conduct shall apply to all students at all times on all School District U-46 property, including:

- In school buildings and on school grounds
- In all school vehicles
- At all school, school-related, or district-sponsored activities, including but not limited to:
 - School field trips
 - School sporting events (whether such activities are held on school property or at locations off school property, including private business or commercial establishments)
 - Bus stops, walking to/from school
 - Before school and evening events
 - SAFE before or after school program
- Any act that occurs off school property that substantially disrupts the educational setting.

Levels of Consequences and Interventions for Violations of the Code of Student Conduct

As with any incident of student behavior, school administrators must exercise informed judgment as to whether a student's action constitutes a violation of the Board policy and/or the Code of Student Conduct. The levels (shown on the following page) guide administrators to use *progressive interventions* to help a student become more successful. The administrator always has the option to employ a consequence from a lower level as long as one from the prescribed level is also employed. The intensity of interventions being delivered is increased as students' progress from lower to higher levels, continuing the use of lower level interventions while layering more additional supports. Moreover, if a behavior is deemed a criminal offense by local authorities and such offense are not identified in the *Code of Student Conduct*, the consequence may be suspension or expulsion from School District U-46. Restitution for loss or damage may be required in addition to any other prescribed consequences.

Levels of consequences and options for progressive intervention which follow **repeated, chronic or cumulative offenses may require higher levels of interventions / consequences**. For serious violations, interventions/consequences may begin at a higher level.

Out-of-School Suspension

In cases of gross disobedience or misconduct a student may be suspended from school. An out-of-school suspension will be for one school day at the minimum and no longer than ten school days. Out-of-School suspensions may only be used if other appropriate and available behavioral and disciplinary interventions have been exhausted and the student's continued presence in school would either:

1. Pose a threat to the safety of other students, staff, or members of the school community,
2. Substantially disrupt, impede or interfere with the operation of the school. Whether a student's continuing presence in school would pose a threat to school safety or a significant disruption to other students' learning opportunities shall be determined on a case-by-case basis by the school board or its designee. The school board or its designee shall determine what constitutes a threat to school safety or a disruption to other students' learning opportunities on a case-by-case basis. 105 ILCS 5/10-22.6 (b-15).

Due Process Procedures

Our District implements fair, equitable and transparent due process procedures designed to give the student a full and meaningful opportunity to be heard. Suspensions and expulsions have serious, long-lasting effects on students. When these practices are being considered, schools must follow certain procedures to be sure that the student's rights are protected. These due process procedures are different depending on whether the student is being suspended or expelled. The chart below lays out the required procedures:

Investigation

1. School staff must investigate a situation and gather evidence to determine what happened before making any disciplinary decisions or disciplinary referrals. School staff should consider whether the incident in question can be appropriately addressed directly with the student or students involved without making a disciplinary referral.

Student Meeting

2. School staff must give the student involved the opportunity to speak on his or her own behalf before deciding what violations have been committed and what form of discipline to use. Students shall have the right to remain silent or to speak with their parents, guardians, or an attorney before deciding whether to make a statement. School staff must also make reasonable efforts to speak with the student's parent or legal guardian before making any determination regarding school discipline.

Disciplinary Alternatives

3. School staff must consider and document whether a restorative practice or another intervention or support are available to address the conduct in question before considering exclusionary discipline.

Notice to Student

4. School staff must tell the student specifically the part of the code he or she is accused of violating, the disciplinary measures the school will take, and the school's future expectations for the student. The student must be given a reasonable opportunity to respond to the school's charges.

Notice to parent/guardian

5. School staff must provide the parent or legal guardian with written and oral notice of the charge, discipline, and parents' and guardians' rights to hearing and/or appeal. No student shall be sent home before the end of the school day unless the school has established contact with the student's parent or legal guardian or guardian and provided at least oral notice of the suspension.

All notices must:

- Be sent by either certified or first-class mail, as well as by e-mail if there is an e-mail address on file.
- Be provided in the parent's or legal guardian's primary language or in a manner they understand.
- Explain the charges the student is facing, including the excerpt from the school code relevant to the charge.
- Include contact information at the school for requesting that a meeting or hearing be rescheduled and answering questions.
- Include information regarding the parent's rights to a hearing and appeal and a list of free or low-cost attorneys who provide services in school hearings.
- Include a statement for the parents and student to acknowledge receipt and understanding of the information in the notice, but must NOT include any statement admitting the student's fault or waiving rights, including appeal or hearing.

For a suspension, the notice must:

- Any suspension shall be reported immediately to the parents or legal guardian of a pupil along with a full statement of the reasons for such suspension and a notice of the right to a review (105 ILCS 5/10-22.6 (b) 2016).
- Include an invitation to the parent or legal guardian or legal guardian or guardian to attend a suspension conference to discuss the proposed suspension at the parent or legal guardian or guardian's earliest possible availability.
- Provide a full statement of the reasons for the suspension, not just listing an offense; provide information about the non-exclusionary interventions that were attempted; and describe the alternatives to suspension that were considered and why they were rejected.

- Explain the terms of the suspension, including number of days, start date, and end date, and provide a justification for the duration of the suspension.
- Document the support services available during the suspension and the means by which the student will be re-engaged upon return to the school community.
- Provide notice of the parent or legal guardian or guardian's right to review.

For an expulsion, the notice must:

- Be sent at least 10 days in advance of the hearing date.
- Include any supporting evidence that will be introduced at the hearing, including copies of witness statements, investigative reports and video or photographic surveillance or detail how documentation can be readily obtained.
- Provide an explanation of the structure and format of the hearing.
- A list of all people who will be present at the hearing must be provided to the parent or legal guardian at least two days in advance of the hearing.

Suspension
Conference

6. Suspension conferences with the parent or legal guardian or guardian must be held as soon as is practicable and convenient for the parent or legal guardian or guardian. The purpose of the conference is to discuss the explanation of the evidence and version of the facts that the school is relying on, the student's version of the facts and/or explanations for the alleged behavior, the availability of disciplinary alternatives, and whether or not the school's recommendation is consistent with the requirements of this Code.
 - For suspensions of four days or more consecutively or cumulatively, school staff must undertake a formal review of attempted interventions and initiation of interventions not yet attempted and share the results of the review with the parent or legal guardian or guardian.
 - After the suspension conference and any required review, the principal or a designee can choose to uphold the suspension or remove any part of the suspension already served from the student's record and permit the student to return to school.

While
suspended

7. During the out-of-school suspension
 - Homework will be provided during a suspension. A suspended student shall be given assignments during the period of suspension as soon as possible and be allowed the same amount of time to submit the work as time missed.
 - Student presence at school during suspension is prohibited.
 - The parent or legal guardian is responsible for picking up assignment materials from the school as the student is barred from being on school property.

- o During an out-of-school suspension, a student may not attend or participate in any school activities.

8. Returning to school after suspension - Student reinstatement conference

- The parent or legal guardian, student and administrator should arrange a mutually satisfactory time for a conference. If the parent or legal guardian finds it difficult because of working hours, family responsibilities, or distance from school to come to the school for a conference, the school administrator will work to find some alternative means for the conference. During the conference, the student's achievements, as well as difficulties, will be reviewed to determine additional steps to be taken by the school, student and parent or legal guardian to ensure future success and safety when reinstated. All suspended and expelled students shall be given a re-engagement plan to facilitate their return to school. Such plan shall be discussed during this conference and revisited with the student upon return. (Board Policy 7.190)
 - o If the conference cannot be scheduled prior to the conclusion of the suspension, the student cannot be excluded.

Re-Entry
Conference

9. Appeal process - A parent or legal guardian may request a review of a student suspension:

- If either the complainant or the party charged is not satisfied with the decision rendered by the Coordinator (or designee), the decision may be appealed within fifteen (15) calendar days to the Chief Executive Officer (or designee) by submitting a written appeal to the Chief Executive Officer (or designee), addressed to the Office of the Chief Executive Officer.
- The appeal must be received by the Chief Executive Officer within fifteen (15) calendar days after the dis-satisfied party receives the written decision from the Coordinator (or designee).
- Copies of the grievance, all evidence and the Coordinator's (or designee) decision shall be forwarded by the Coordinator (or designee) to the Chief Executive Officer (or designee).
- The Chief Executive Officer (or designee) shall review all of the aforementioned documents and shall render a written decision within fifteen (15) calendar days of the receipt of the appeal and send copies to the grievant and charged party.
- The District will ensure that the appeal decision is impartial. The Chief Executive Officer will appoint impartial persons to make the appeal decision. Parties and witnesses may not be decision makers in the appeal process.

Appeal
Process

10. In the case of an expulsion, the hearing must take place before the student is expelled from the school. The school bears the burden of proving, by clear and convincing

evidence, that the student committed the charged infraction and that expulsion is the only acceptable option. At a hearing, the student and the student's parent or legal guardian or guardian has the opportunity to present evidence that the student did not violate the code of conduct and/or that there are mitigating factors that mean the student should not be expelled.

- An expulsion hearing is held before an impartial hearing officer appointed by the board.
- The student has the right to bring an attorney or advocate.

School staff must provide sufficient advance notice and flexibility to enable the student's parent or legal guardian or guardian as well as any attorney or advocate retained by the family to attend the expulsion hearing. School staff should grant at least one opportunity to reschedule a hearing date.

The following procedures apply to expulsion hearings:

- All witnesses shall be required to appear and testify in person unless the witness is a student and the district and school present evidence that testifying would endanger the student's safety. Submissions of written or recorded testimony or testimony by phone may be permitted if both parties consent.
- The student must be given an opportunity to present witnesses or evidence and to cross-examine witnesses.

The final decision on an expulsion must be made by the board of education based on a review of the evidence and relevant mitigating factors.

The student and the parent or legal guardian or guardians have a right to notice of the decision as soon as is practicable. The expulsion decision must:

- Provide a written explanation detailing the reasons for the decision.
- Detail the specific reasons why removing the student from the learning environment is in the best interest of the school, and the alternatives to expulsion that were considered and why they were rejected.
- Include a specific rationale as to the duration of the expulsion.
- Document the support services available during the duration of the expulsion and the means by which the student will be re-engaged upon return to the school community.

Searches

In order to maintain order and security in the schools, school authorities are authorized to conduct reasonable searches of school property and equipment, as well as of students and their personal effects. School authorities may inspect and search school property and equipment owned or controlled by the school (such as, lockers, desks, and parking lots), as well as personal effects left there by a student, without notice to or the consent of the student. Students have no reasonable expectation of privacy in these places or areas or in their personal effects left there. The Chief Executive Officer may request the assistance of law enforcement officials to conduct inspections and searches of lockers, desks, parking lots, and other school property and equipment for illegal drugs, weapons, or other illegal or dangerous substances or materials, including searches conducted through the use of specially trained dogs.

School authorities may search a student and/or the student's personal effects in the student's possession (such as, purses, wallets, knapsacks, backpacks, lunch boxes, etc.) when there is a reasonable ground for suspecting that the search will produce evidence the particular student has violated or is violating either the law or the District's student conduct rules. The search itself must be conducted in a manner that is reasonably related to its objective and not excessively intrusive in light of the student's age and sex, and the nature of the infraction.

"Reasonable Suspicion" means knowledge that is sufficiently trustworthy to lead a District employee or School Official to believe he/she has a moderate chance of finding that a student or visitor possesses evidence of wrongdoing. Reasonable Suspicion may be based upon direct observation of the student or visitor or on information an authorized District employee receives from a reliable third party. Reasonable Suspicion may arise, for example, from seeing a weapon-shaped bulge in clothing, smelling marijuana, Metal-Detector Activation, viewing a suspicious object via an x-ray monitor, or information from a reliable student or adult that a student currently has a weapon or contraband in his/her possession. Neither a mere hunch nor a generalized suspicion is a sufficient basis for conducting a Weapons Pat Down, Belongings Search, Contraband Search, or individual locker or desk search (Board Policy 7.199)

Random Searches

Respecting all students' individual rights to privacy, while protecting the school environment as a safe and nurturing place to learn is the purpose of this procedure. Random administrative searches in school must be minimally intrusive and fairly implemented. Searches of students, visitors, places and things will be done in a manner that provides protection of Constitutional rights, minimizes personal intrusion, preserves evidence, and provides for the safety of all while maintaining a positive learning environment. School administrators may use hand-held metal detectors or police K-9.

When conducting random searches the place of the search will be public and privacy concerns are limited. The goal of this program is to prevent and deter students from bringing weapons, drugs and contraband to school. When random searches are used, the principal or the principal's designee will oversee the random selection process.

Seizure of Property

If a search produces evidence that the student has violated or is violating the law or the District's policies or rules, such evidence may be seized and impounded by school authorities, and disciplinary action may be taken. When appropriate, such evidence may be transferred to law enforcement authorities.

Levels: Consequences & Recommended Behavioral Supports and Interventions

Examples of Levels of Intervention / Consequences

We will coordinate our efforts to provide a nurturing and safe learning experience and a flexible approach in meeting the academic, social and emotional needs of each student. The six levels provide guidance on the typical types of interventions for students based on the nature of the behavior event. Each student and situation is different. This guidance is not all inclusive and depending on the evaluation of the behavior event, teachers or administrators may increase or decrease the level of response accordingly.

Minor Behavior – Behavior events that disrupt the learning environment that are not serious enough to warrant administrative management of the behavior event.

- Minor behavior events handled by the teacher.
- Level 1 and 2 offenses are minors.

Major Behavior – Behavior events that disrupt the learning environment and are serious enough to warrant administrative management of the behavior event. Behavior events either referred by the teacher to the administrator or behavior events that are handled by the administrator due to the nature of the behavior event.

- Major behavior events handled by an administrator.
- Level 3 – 6 offenses are majors.

A BIP can include prevention strategies, which stop the behavior before it begins, as well as replacement behaviors, which achieve the same function as the disruptive behavior without causing disruption. The environment is considered, and the FBA/BIP team may determine that a change in a student’s schedule or in the arrangement of his or her classroom is called for. In addition, the BIP provides a plan for promoting the new behavior while responding to the old behavior that is being replaced.
