U-46 Rising: Our Challenge

Our moral imperative to change until all our systems measurably work for all children.

It is our responsibility to ensure all students are engaged in rigorous learning, receive quality core instruction, and can develop the skills they need for better life chances and opportunities.

Our focus must be on rigor, agency and equity (and all systems must support).

We will become a choice district that inspires families to join us.

Importance of Early Learning Experiences

“Kids in high-quality early learning programs are 25% more likely to graduate from high school, 4 times more likely to complete a bachelor’s degree, and earn up to 25% more in wages as an adult.”

-The Lifecycle Benefits of an Influential Early Childhood Program, heckmanequation.org

“Starting early is key, as is being thoughtful about the actual needs of children and families and then really striving to meet them. Learning doesn’t begin in kindergarten, and we serve our children best by unlocking the potential of children early.”

-Unlocking the Potential of Children before Kindergarten Entry, Education for Upward Mobility. Prepared for the Thomas B. Fordham Institute’s Education for Upward Mobility Conference, December 2, 2014

Small Group Work Activities

Task #1: Top Priorities

- Considering the information outlined in tonight's presentation, what does your group believe should be the school district's top three priorities related to middle schools and the top three priorities related to preK?

Task #2: Middle School Experiences

- What do we want our rising 9th graders to have experienced and be able to do as they enter high school?

Task #3: PreK Experiences

- What do we want our rising Kindergarteners to have experienced as they complete our preK program and prepare to enter Kindergarten?
