

Chromebook 101

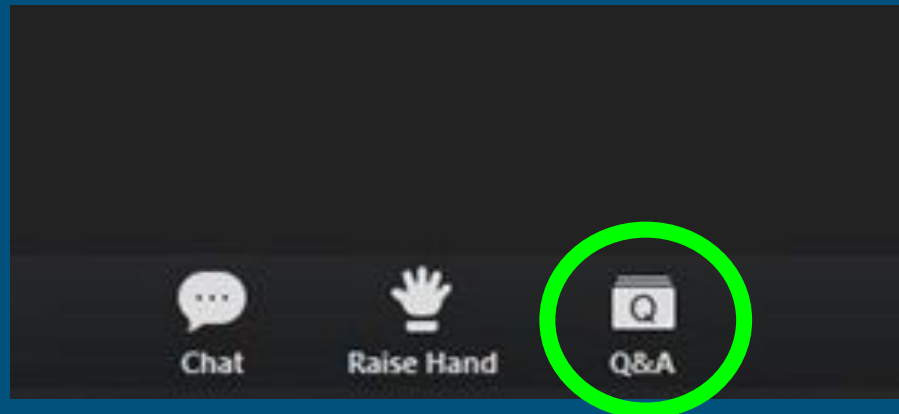

August 26, 2020

Welcome!

- You can use your computer or mobile device to follow along with us today OR just listen and try it out later, we will provide website links and this presentation will be posted to our website: u-46.org/webinars.
- If you need help or have a question during this session, please include your question in the Q&A box.
- The Chatbox will be available for presenters to share main points and links.

Our Topics for Today:

- Device Comparison
- Laptop vs Chromebook vs iPad
- Windows Laptop Overview
- Chromebook Overview
 - Chromebook Tips
- iPad Overview
 - iPad Tips
- Student Password Management

Device Comparison

Device	Used by students during distance learning?	Operating System	Can Install Applications?	Can Access Canvas & Zoom?
Windows Laptop	No	Windows 10	Yes (With approval)	Yes
Chromebook	Yes 1st-12th Grade	Chrome OS	Limited to Approved Chrome Apps	Yes
iPad	Yes Pre-K - Kindergarten	iPadOS	Limited to Approved Catalog Apps	Yes

What is an Operating System?

- An operating system is the essential software a computer needs to run. Without an operating system, your computer is unusable. The operating system is what makes a Chromebook different from a Windows laptop, or an iPhone different from an Android phone.

Laptop vs Chromebook vs iPad

Laptop

Chromebook

iPad

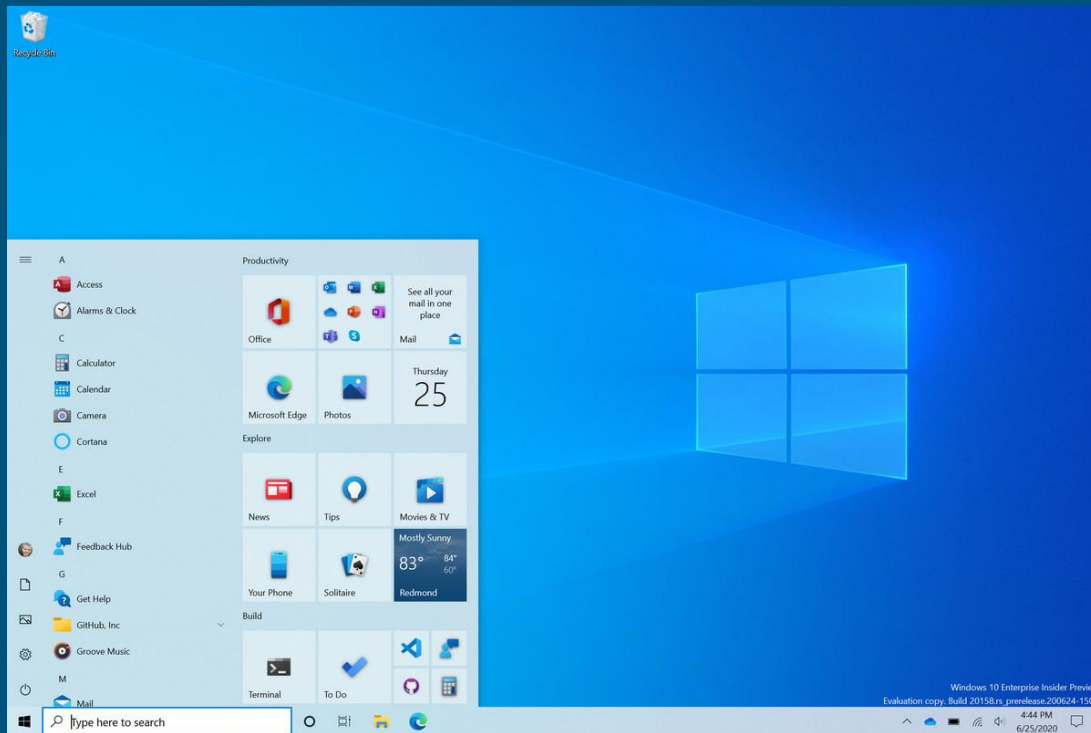

Windows Laptop Overview

- Runs the Windows operating system
- Can install U-46 approved applications
- Is not used by U-46 students during Distance Learning

Windows

Chromebook Overview

- Runs the Chrome OS operating system
- Can install limited applications via the Chrome browser
 - Student Chromebooks can only install U-46 approved applications
- Is used by students in 1st-12th grade during Distance Learning at U-46

What is a browser?

- A browser is an application that allows you to browse the internet. The most popular browser is Google Chrome, followed by Safari, Firefox and Edge.

Chrome

Safari

Firefox

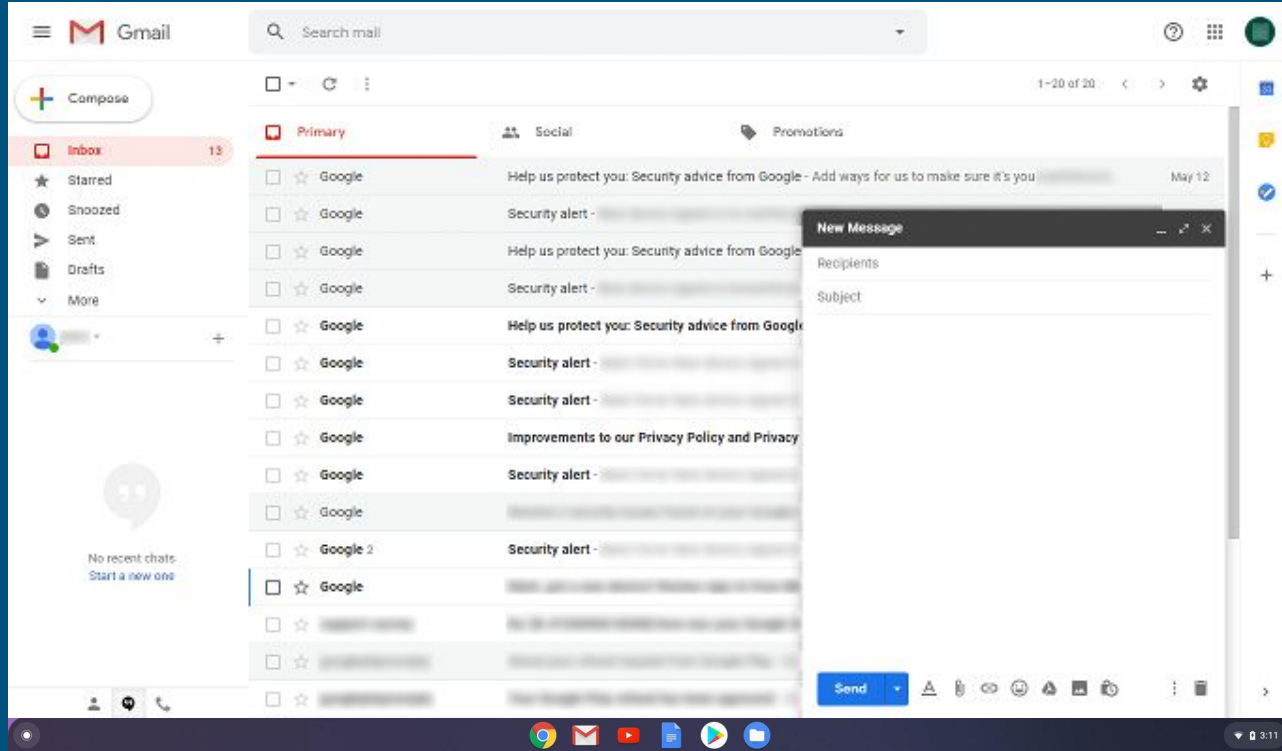

Edge

Chromebook Logo

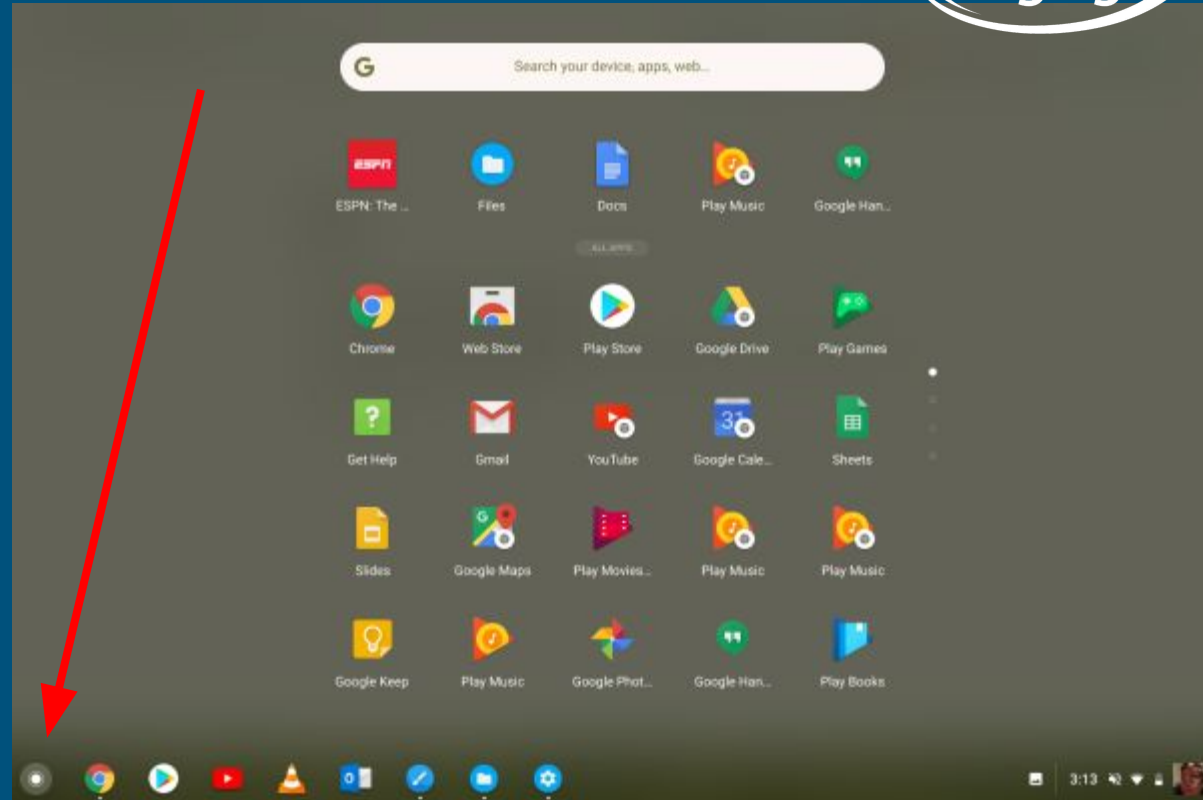

Chrome OS

Chrome OS App Drawer

- Chrome OS uses an App Drawer as the location for all the user's applications, rather than putting them on the desktop

Chromebook Tips

- Chromebook Basics Video

Chromebook Hardware Issues

For any hardware issues, please schedule a [Chromebook swap](https://district.u-46.org/supportform/) (<https://district.u-46.org/supportform/>).

Hardware issues are generally physical problems with the device.

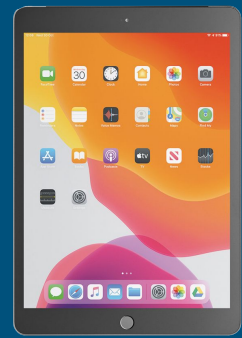

This includes, but is not limited to the following:

- Won't power on
- Broken keyboard or missing keys
- Broken ports or buttons
- Touchpad not working
- Sound issues

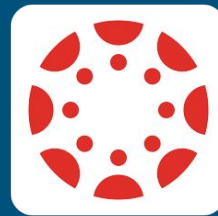

This does **NOT** include:

- Password resets/login issues
- General tech support/questions

iPad Overview

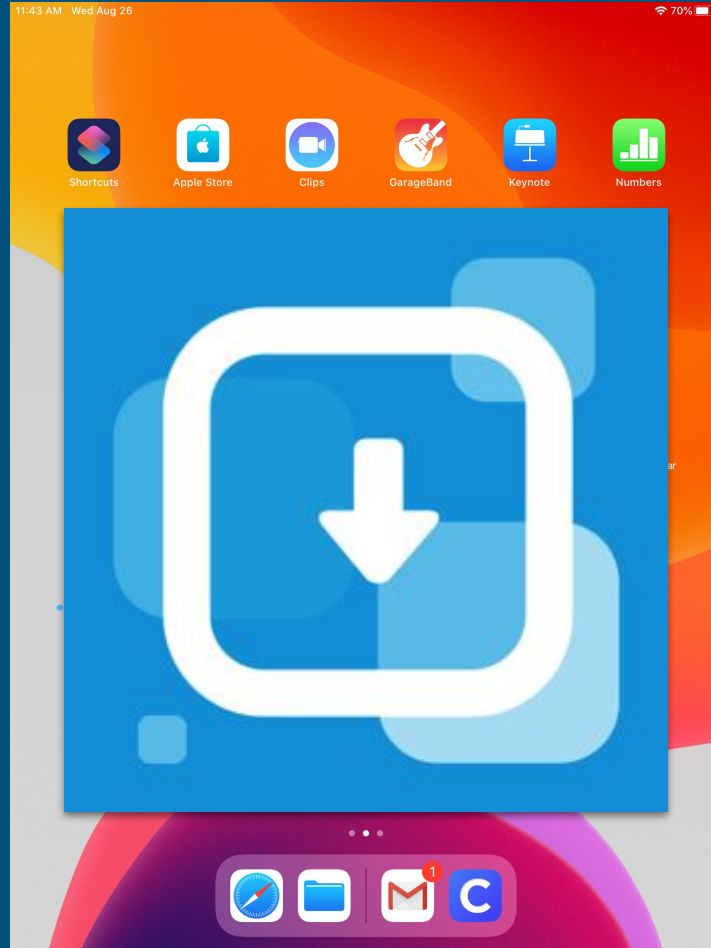

- Runs the iPadOS operating system
- Can install applications via the U-46 Catalog app
- Is used by Pre-K and Kindergarten students during distance learning at U-46
 - Only U-46 approved applications can be downloaded from the Catalog app

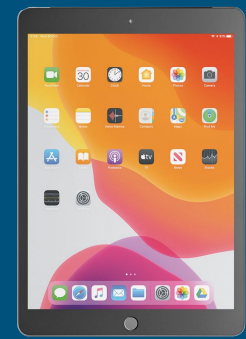

iPadOS

Catalog App

iPad Tips

- Stuck on “Remote Management”?
 - [Enroll Your Student's iPad - English/Spanish](#)
- Join a Zoom Meeting From an iPad
