Mr. Feather's Headquarters

March 5th, 2022

Hawk Hollow's Vision

We will work collaboratively to implement rigorous, standards-based core instruction and practice which shifts learning from teacher-based to student-based and fosters student agency showing improved outcomes for all.

Student Spotlight

In Miss Zolecki's classroom, our sixth grade students had an opportunity to learn about our President's. They were tasked with researching an assigned President, creating a poster, and presenting that information to their fellow classmates. I even received some special presentations from some pretty amazing students!

Also exciting this week were our Egg Drop experiments in Mrs. Fitzsimon's classroom. Students were tasked with creating an apparatus to keep their eggs safe from a 10-foot drop using their knowledge of Newton's Laws of Motion.

In Mrs. Liner's classroom, students were excited to show off their reading skills. I was able to snap a photo of one child as he read like a Pro to me!

Miss Lionello's kiddos were having a great time in math working on composing numbers from 11-20 with their teammates! It was so wonderful to hear the feedback they provided to their peers as they worked to build teen numbers!

Mrs. Reeser's fifth graders (not pictured below) blew me away last week when they engaged in a Socratic Seminar on the book, The Giver. Students came prepared and ready to discuss "What does The Giver make you think about the future of our world? Explain". Your children were able to make connections and share ideas while agreeing, disagreeing, or adding on to what their peers had to say. It was beautiful to watch every child engage in the conversation!
