6:15 School Accountability

According to the Illinois General Assembly, the primary purpose of schooling is the transmission of knowledge and culture through which students learn in areas necessary to their continuing development and entry into the world of work. To fulfill that purpose, the Ill. State Board of Education (ISBE) prepared State Goals for Learning with accompanying Illinois Learning Standards.

The Board of Education gives priority in the allocation of resources, including funds, time, personnel, and facilities, to fulfilling this purpose.

Quality Assurance

The Board continuously monitors student achievement and the quality of the District's work. The Chief Executive Officer/Superintendent shall supervise the following quality assurance components, in accordance with State law and ISBE rules, and continuously keep the Board informed:

- 1. Prepare each school's annual recognition application and quality assurance appraisal, whether internal or external, to assess each school's continuous school improvement.
- 2. Continuously assess the District's and each school's overall performance in terms of both academic success and equity. This includes, without limitation, a thorough analysis of ISBE's balanced accountability measure and each school's Multiple Measure Index and corresponding Annual Measurable Objective provided by ISBE.
- 3. If applicable, develop District and School Continuous Improvement Plans, present them for Board approval, and supervise their implementation.
- 4. Prepare a school report card, present it at a regular Board meeting, and disseminate it as provided in State law.
- 5. In accordance with 105 ILCS 5/2-3.153, annually administer a climate survey on the instructional environment within the school to, at minimum, students in grades 4 through 12 and teachers.

The Chief Executive Officer/Superintendent will ensure:

- 1. Each school building complies with this policy;
- 2. The policy is available to the community on an annual basis through copies of or online access to the Board Policy Manual; and
- 3. The community is informed about the progress of this policy's implementation.

Goals for Nutrition Education and Nutrition Promotion

The goals for addressing nutrition education and nutrition promotion include the following:

- Schools will support and promote sound nutrition for students.
- Schools will foster the positive relationship between sound nutrition, physical activity, and the capacity of students to develop and learn.
- Nutrition education will be part of the District's comprehensive health education curriculum. See Board policy 6:60, *Curriculum Content*.

Goals for Physical Activity

The goals for addressing physical activity include the following:

- Schools will support and promote an active lifestyle for students.
- Physical education will be taught in all grades and shall include a developmentally planned and sequential curriculum that fosters the development of movement skills, enhances health-related fitness, increases students' knowledge, offers direct opportunities to learn how to work cooperatively in a group setting, and encourages healthy habits and attitudes for a healthy lifestyle. See policies 6:60, Curriculum Content and 7:260, Exemption from Physical Education.
- During the school day, all students will be required to engage in the minimum required physical education courses, unless otherwise exempted. See policies 6:60, *Curriculum Content* and 7:260, *Exemption from Physical Education*.

- 2. Comply with all ISBE rules; and
- 3. Prohibit marketing during the school day of foods and beverages that do not meet the standards

listed in Board policy 4:120, *Food Services*, i.e., in-school marketing of food and beverage items must meet *competitive foods* standards.

Competitive foods standards do not apply to foods and beverages available, but not sold in school during the school day; e.g., brown bag lunches, foods for classroom parties, school celebrations, and reward incentives.

Exempted Fundraising Day (EFD) Requests

All food and beverages sold to students on the school campuses of participating schools during the school day must comply with the "general nutrition standards for competitive foods" specified in federal law.

ISBE rules prohibit EFDs for grades 8 and below in participating schools.

The Chief Executive Officer/Superintendent or designee in a participating school may grant an EFD for grades 9 through 12 in participating schools. To request an EFD and learn more about the District's related procedure(s), contact the Chief Executive Officer/Superintendent or designee. The District's procedures are subject to change. The number of EFDs for grades 9 through 12 in participating schools is set by ISBE rule.

Guidelines for Reimbursable School Meals

Reimbursable school meals served shall meet, at a minimum, the nutrition requirements and regulations for the National School Lunch Program and/or School Breakfast Program.

Unused Food Sharing Plan

In collaboration with the District's local health department, the Chief Executive Officer/Superintendent or designee will:

- Ensure the Plan complies with the Richard B. Russell National School Lunch Act, as well as accompanying guidance from the U.S. Department of Agriculture on the Food Donation Program.
- 4. Ensure that any leftover food items are properly donated to combat potential food insecurity in the District's community. *Properly* means in accordance with all federal regulations and State and local health and sanitation codes.

Monitoring

At least every three years, the Chief Executive Officer/Superintendent shall provide implementation data and/or reports to the Board concerning this policy's implementation sufficient to allow the Board to monitor and adjust the policy (a triennial report). This triennial report must include without limitation each of the following:

- An assessment of the District's implementation of the policy
- The extent to which schools in the District are in compliance with the policy
- The extent to which the policy compares to model local school wellness policies
- A description of the progress made in attaining the goals of the policy
- How the District will make the results of the assessment available to the public
- Where the District will retain records of the assessment

The Board will monitor and adjust the policy pursuant to policy 2:240, Board Policy Development.

Community Involvement

The Board and Chief Executive Officer/Superintendent will actively invite suggestions and comments concerning the development, implementation, periodic reviews, and updates of the school wellness policy from parents, students, representatives of the school food authority, teachers of physical education, school health professionals, the Board of Education, school administrators, and the community. Community involvement methods shall align their suggestions and comments to policy 2:140, *Communications To and From the Board* and/or the **Community Engagement** subhead in policy 8:10, *Connection with the Community*.

6:280 Grading and Promotion

The Chief Executive Officer/Superintendent or designee shall establish a system of grading and reporting academic achievement to students and their parents/guardians. The system shall also determine when promotion and graduation requirements are met. The decision to promote a student to the next grade level shall be based on successful completion of the curriculum, attendance, and performance on the standardized tests required by the III. State Board of Education (ISBE) and/or other assessments. A student shall not be promoted based upon age or any other social reason not related to academic performance. The administration shall determine remedial assistance for a student who is not promoted.

Letter grades will be used in the secondary schools. In addition, marks and terms appropriate to the elementary programs will be used to indicate student progress in grades K-6.

Grading will be on a quarterly basis in secondary schools and a trimester basis in elementary schools. Grading is not to be influenced by pressure from parents and it is not to be used by staff for disciplinary purposes.

Every teacher shall maintain an evaluation record for each student in the teacher's classroom. A District administrator cannot change the final grade assigned by the teacher without notifying the teacher. Reasons for changing a student's final grade include:

- A miscalculation of test scores,
- A technical error in assigning a particular grade or score,
- The teacher agrees to allow the student to do extra work that may impact the grade,
- An inappropriate grading system used to determine the grade, or
- An inappropriate grade based on an appropriate grading system.

Should a grade change be made, the administrator making the change must sign the changed record.

If the student is not at least 18 years of age or legally emancipated, the student's parent/guardian must file one of these documents on the student's behalf.

A student is exempt from this requirement if: (1) the student is unable to file a financial aid application or an ISBE waiver due to extenuating circumstances, (2) the Building Principal attests the District made a good faith effort to assist the student or the student's parent/guardian with filing a financial aid application or an ISBE waiver form, and (3) the student has met all other graduation requirements.

The Chief Executive Officer/Superintendent or designee is responsible for:

- 1. Maintaining a description of all course offerings that comply with the above graduation requirements.
- 2. Notifying students and their parents/guardians of graduation requirements.
- 3. Developing the criteria for #4 above.

This includes making reasonable adjustments to ensure graduation if possible, or efforts to ensure that the original (transferor) school district issues the student a diploma.
- 5. Taking all other actions needed or necessary to implement this policy.

Early Graduation

A four year senior high program is desirable for most students; however, the Board of Education does allow for graduation upon completion of credit requirements prior to the eighth semester of high school.

Certificate of Completion

A student with a disability who has an Individualized Education Program prescribing special education, transition planning, transition services, or related services beyond the student's four years of high school, qualifies for a certificate of completion after the student has completed four years of high school. The student is encouraged to participate in the graduation ceremony of his or her high school graduation class. The Chief Executive Officer/Superintendent or designee shall provide timely written notice of this requirement to children with disabilities and their parents/guardians.

Service Member Diploma

The District will award a diploma to a service member who was killed in action while performing active military duty with the U.S. Armed Forces or an honorably discharged veteran of World War II, the Korean Conflict, or the Vietnam Conflict, provided that he or she (1) resided within an area currently

within the District at the time he or she left high school, (2) left high school before graduating in order to serve in the U.S. Armed Forces, and (3) has not received a high school diploma.

The student must seek approval from the Chief Executive Officer/Superintendent or designee to receive graduation credit for any non-District course or experience. The Chief Executive Officer/Superintendent or designee shall determine the amount of credit and whether a proficiency examination is required before the credit is awarded. As approval is not guaranteed, students should seek conditional approval of the experience before participating in a non-District course or experience. The student assumes responsibility for any fee, tuition, supply, or other expense. The student seeking credit is responsible for (1) providing documents or transcripts that demonstrate successful completion of the experience, and (2) taking a proficiency examination, if requested. The Chief Executive Officer/Superintendent or designee shall determine which, if any, non-District courses or experiences, will count toward a student's grade point average, class rank, and eligibility for athletic and extracurricular activities. This section does not govern the transfer of credits for students transferring into the District.

Substitutions for Required Courses

Vocational or technical education. A student in grades 9-12 may satisfy one or more high school courses (including physical education) or graduation requirements by successfully completing related vocational or technical education courses if:

- The Building Principal approves the substitution(s) and the vocational or technical education course is completely described in curriculum material along with its relationship to the required course; and
- 2. The student's parent/guardian requests and approves the substitution(s) in writing on forms provided by the District.

Advanced placement computer science. The advanced placement computer science course is equivalent to a high school mathematics course. A student in grades 9-12 may substitute the advanced placement computer science course for one year of mathematics, in accordance with Section 27-22 of the School Code. The transcript of a student who completes the advanced placement computer science course will state that it qualifies as a mathematics-based, quantitative course.

Substitutions for physical education. A student in grades 9-12, unless otherwise stated, may submit a written request to the Building Principal to be excused from physical education courses for the reasons stated below. The Chief Executive Officer/Superintendent or designee shall maintain records showing that the criteria set forth in this policy were applied to the student's individual circumstances, as appropriate.

- 1. Ongoing participation in a marching band program for credit;
- 2. Enrollment in Reserve Officer's Training Corps (ROTC) program sponsored by the District;
- 3. Ongoing participation in an interscholastic or extracurricular athletic program;
- 4. Enrollment in academic classes that are required for admission to an institution of higher learning (student must be in the 11th or 12th grade); or
- 5. Enrollment in academic classes that are required for graduation from high school, provided that failure to take such classes will result in the student being unable to graduate (student must be in the 11th or 12th grade).

A student who is eligible for special education may be excused from physical education courses pursuant to 7:260, *Exemption from Physical Education*.

Re-Entering Students

Individuals younger than 21 years of age may re-enter high school to acquire a high school diploma or an equivalency certificate, subject to the limitations in Board policy 7:50, *School Admissions and Student Transfers To and From Non-District Schools*. Re-entering students may obtain credit through the successful completion of the following (not all of these may be available at any one time):

- 1. District courses
- 2. Non-District experiences described in this policy
- 3. Classes in a program established under Section 10-22.20 of the School Code, in accordance with the standards established by the Illinois Community College Board
- 4. Proficiency testing, correspondence courses, life experiences, and other nonformal educational endeavors
- 5. Military service, provided the individual making the request has a recommendation from the American Council on Education

The provisions in the section **Credit for Non-District Experiences**, above, apply to the receipt of credit for any non-District course.

6:315 High School Credit for Students in Grade 7 or 8

The Chief Executive Officer/Superintendent or designee may investigate, coordinate, and implement a program for students in grades 7 and 8 to enroll in a course required for a high school diploma.

If a program is available, students in grades 7 and 8 may enroll in a course required for a high school diploma when the course is offered by the high school that the elementary student would attend and either of the following is satisfied: (1) the student participates in the course at the high school and the elementary student's enrollment in the course would not prevent a high school student from being able to enroll, or (2) the student participates in the course where the student attends school as long as the course is taught by a teacher who holds a professional educator license with an endorsement for the grade level and content area of the course.

A student who successfully completes a course required for a high school diploma while in grades 7 and 8 shall receive academic credit for the course. That academic credit shall satisfy the requirements of Section 27-22 of the School Code for purposes of receiving a high school diploma, unless evidence about the course's rigor and content show that the course did not address the relevant Illinois learning standard at the level appropriate for the high school grade during which the course is usually taken. The student's grade in the course shall also be included in the student's grade point average.

Proficiency Credits

Subject to the limitations in this policy and State law, the Chief Executive Officer/Superintendent or designee is authorized to establish and approve a program for granting credit for proficiency with the goal of allowing a student who would not benefit from a course because the student is proficient in the subject area to receive credit without having to take the course. A student who demonstrates competency under this program will receive course credit for the applicable course and be excused from any requirement to take the course as a graduation prerequisite. No letter grade will be given for purposes of the student's cumulative grade point average. The Chief Executive Officer/Superintendent or designee shall notify students of the availability of and requirements for receiving proficiency credit.
