Letter grades will be used in the secondary schools. In addition, marks and terms appropriate to the elementary programs will be used to indicate student progress in grades K-6.

Grading will be on a quarterly basis in secondary schools and a trimester basis in elementary schools. The final grade assigned by the teacher cannot be changed by a District administrator without notifying the teacher. Reasons for changing a student’s final grade include:

- a technical error in assigning a particular grade or score;
- teacher agreement to allow the student to do extra work that impacts the grade;
- an inappropriate grading system was used to determine the grade; or

Should a grade change be made, the administrator making the change must assume responsibility for determining the grade or evaluation, and shall initial such change.

Grading is not to be influenced by pressure from parents and it is not to be used by staff for disciplinary purposes.

REPORTING OF STUDENT PROGRESS

The philosophy of the Board of Education concerning academic achievement, as well as student social growth and development, is based on the premise that students have diverse capabilities and individual patterns of growth and learning.

Therefore, it is important that teachers have accurate knowledge of each student in order to assess student needs and to develop instructional plans for the student. A sharing of information among parent/guardian, teacher, and student is essential. Staff is encouraged to continue to seek better ways to measure and report student progress.

The Board requires that:

1. Parents/guardians are to be informed regularly about the progress their children are making in school through Progress Reports as well as Report Cards. When grades are given, the school staff will take particular care to explain the meaning of marks to parents/guardians.

2. Parents/guardians will be alerted and conferred with as soon as possible when a student's performance or attitude becomes unsatisfactory or shows marked or sudden deterioration. Insofar as possible, distinctions will be made between a student's attitude and his/her academic performance.

3. At comparable levels, the school district will strive for consistency in grading and reporting except when it is inappropriate for certain classes or certain students.

4. Parents will receive trimester report cards at the elementary level and quarterly report cards at the secondary level.

The Board of Education is dedicated to the maximum development of each student. The professional staff is expected to place students at the grade level most appropriate for them.

Students will normally progress annually from grade to grade. Exceptions may be made when, in the judgment of the professional staff, such exceptions are in the best educational interest of the students involved. Parental involvement will be part of this process. Exceptions will be made after prior notification and explanation has been given to each student’s parents/guardian, but the final decision will rest with the school authorities.
