EQUAL EDUCATIONAL OPPORTUNITIES

The Board of Education will pursue equal educational and extracurricular opportunities for all students without regard to race, color, nationality, ancestry, sex, sexual orientation, religious beliefs, disability, status as homeless, order of protection status, actual or perceived marital or parental status, gender identity, pregnancy, and any other legally protectable category. Provisions for these opportunities will be commensurate with student needs, abilities, interests, and diverse cultural backgrounds.

Further, the District will not knowingly enter into agreements with an entity or any individual that discriminates against students on the basis of sex or any other protected status, except that the District remains viewpoint neutral when granting access to school facilities under Board policy 4.035.

Any student may file a discrimination grievance by using the Uniform Grievance procedure.

NONDISCRIMINATION ON THE BASIS OF DISABILITY

Section 504 of the Rehabilitation Act of 1973 and its accompanying regulations apply to all school districts receiving federal funds. Under this body of law a school district:

1. May not discriminate against qualified persons with disabilities in any aspect of school district employment solely on the basis of the disability conditions.
2. Must make facilities, programs, and activities accessible, usable, and open to qualified persons with disabilities.
3. Must provide free appropriate education at elementary and secondary levels, including nonacademic and extracurricular services and activities, to qualified persons with disabilities.
4. May not exclude any qualified person with disabilities solely on the basis of disability from participation in any preschool education or day care program or activity or any adult education or vocational program or activity.
5. Must provide each qualified person with disabilities with the same health, welfare, and other social services as are provided other persons.

School District U-46 receives federal financial assistance and must comply with the above requirements. Additionally, the Board of Education is of the general view that:

1. Discrimination against a qualified person with disabilities, solely on the basis of disability, is illegal; and that
2. To the extent reasonably possible, qualified persons with disabilities should be in the mainstream of life in a school community.

Accordingly, employees of School District U-46 will comply with the above requirements of law and regulations.

EQUAL EDUCATIONAL OPPORTUNITIES**

Title IX prohibits any person, on the basis of gender, from being excluded from the participation in, being denied the benefit of, or being subjected to discrimination under any education program or activity receiving, federal financial assistance, except as limited by law.

The State Gender Equity provisions are applicable to all public school districts. They prohibit any person, on the basis of gender; from being excluded from the participation in, being denied the benefit of, or being subjected to discrimination under any education program or activity.

Consistent with Title IX and the State Gender Equity provisions, it is the policy of District U-46 to prohibit any person from being excluded from the participation in, being denied the benefit of, or being subjected to discrimination under any education program or activity on the basis of gender. No student shall, based on gender, be denied equal access to programs, activities, services or benefits or be limited in the exercise of any right, privilege, advantage, or denied equal access to educational and extracurricular programs and activities.

Any student may file a sex equity complaint by using the Uniform Grievance Procedure. A student may appeal the School Board's resolution of the complaint to the Regional Superintendent of Schools and, thereafter, to the State Superintendent of Education.

ASSIGNMENT OF STUDENTS TO SCHOOLS

The District will establish and maintain school attendance areas and boundaries that offer optimal educational opportunities through student assignments which effect maximum facility utilization. The Board recognizes the importance of assignment of students without consideration to race, color, creed, gender, or nationality. Married students living independent of their parents/guardians will attend school in the attendance area in which they reside. A student will attend school in the attendance center area in which he/she resides with the exceptions as noted below which may be granted at the discretion of the Chief Executive Officer/Superintendent/designee:

1. A student who has attained sixth, eighth, or twelfth grade status, whose parent or guardian moves within the school district, may complete the year in the school in which he/she was enrolled.
2. A parent/guardian may request that his/her student be permitted to transfer to another school:
 - a. When the student or parent presents exceptional physical or mental needs.
 - b. When a majority of the student's curricular needs cannot be met in his/her attendance center.
3. All requests for attendance area exceptions noted above will be presented in writing by the parent/guardian with appropriate supportive documentation. The Chief Executive Officer/Superintendent/designee will establish efficient administrative procedures to consider such requests. Final decisions regarding such requests will be the responsibility of the Chief Executive Officer/Superintendent/designee. When exceptions are granted, transportation is the responsibility of the parent and/or student.

Students may not transfer to schools that do not have attendance capacity or schools that have academic admission criteria if the transferring student does not meet those criteria (unless such a school is the only school to which the student could transfer). The Chief Executive Officer/Superintendent/designee may establish additional criteria for the identification of receiving schools, which may include, but not be limited to, attendance areas or geographic zones within which transfers may be authorized; services necessary to meet students' special education, bilingual or other programmatic educational needs; and/or minimum academic achievement levels for receiving schools.

The Chief Executive Officer/designee shall develop the criteria for selection of students who may be eligible to transfer and the criteria for the identification of receiving schools pursuant to this policy and shall establish efficient administrative procedures to consider all permissible transfer requests. The transfer criteria and administrative procedures shall be reviewed and approved by the Board of Education. Thereafter the transfer criteria and administrative procedures shall be reviewed annually by the Chief Executive Officer/designee and any changes reported to the Board of Education.

RESIDENCY

Resident Students

Only students who are residents of the District may attend a District school without tuition charge, except as otherwise provided below or in State law. A student's residence is the same as the person who has legal custody of the student. The administration may require proof of residence and legal custody. "Legal custody" means:

1. Custody exercised by a natural or adoptive parent with whom a pupil resides;
2. Custody granted by order of a court to a person with whom the pupil resides for reasons other than to have access to the District's educational programs;
3. Custody exercised under a statutory short-term guardianship, provided that within 60 days of the student's enrollment, a court order is entered establishing a permanent guardianship and granting custody to a person with whom the pupil resides for a reason other than to have access to the District's educational programs;
4. Custody exercised by an adult caretaker relative who is receiving aid under the Illinois Public Aid Code for the pupil who resides with that adult caretaker relative for purposes other than to have access to the educational programs of the district; or
5. Custody exercised by an adult who demonstrates that, in fact, he or she has assumed and exercises legal responsibility for the pupil and provides the pupil with a regular fixed night-time abode for purposes other than to have access to the educational programs of the district.

The criteria for determining the residency of special education students are set forth in the School Code and must be applied in place of the criteria and procedures generally applicable to students, when appropriate.

A student whose family moves out of the District during the school term will be permitted to attend school for the remainder of the school year without payment of tuition. Transportation will be the responsibility of the parent/student. However, the attendance and tuition obligations of a special education student who becomes a non-resident during the school year shall be determined in accordance with the provisions of Article 14 of the Illinois School Code.

If a student's family plans to move into the District within 31 calendar days after the beginning of school, the student may be allowed to attend school at the beginning of the school term without payment of tuition. Tuition fees will be determined on a per capita cost by the District's Chief Financial Officer.

Military Status of Custodian

When a student's change of residence is due to the military service obligation of the student's legal custodian, the student's residence is deemed to be unchanged for the duration of the custodian's military service obligation if the student's custodian made a written request. The District, however, is not responsible for the student's transportation to or from school.

If, at the time of enrollment, a dependent child of military personnel is housed in temporary housing located outside of the District, but will be living within the District within 60 days after the time of initial enrollment, the child is allowed to enroll, subject to the requirements of State law, and will not be charged tuition.

Non-Resident Students

Non-resident students may attend District schools upon the Chief Executive Officer/Superintendent/designee recommendation, approval of the Board of Education, and subject to the following:

1. The student will attend on a year-to-year basis. Approval for any one year is not authorization to attend a following year.
2. The student will be accepted only if there is sufficient room.
3. The student's parent(s)/guardian(s) will be charged the maximum amount of tuition as allowed by State law.
4. Transportation to and from school shall be the responsibility of the parent(s)/guardian(s).

Non-resident students may also attend District schools whenever any State or federal law, interagency agreement, or a court order mandates the acceptance of a non-resident student.

The Chief Executive Officer/Superintendent/designee is authorized to enter into written agreements with cultural exchange organizations and eleemosynary institutions to provide for the tuition-free attendance by foreign exchange students and non-resident pupils of eleemosynary institutions.

Determining a Student's Residence Status

The Chief Executive Officer/Superintendent/designee may investigate and determine the residency of any student before or after enrollment in accordance with the applicable provisions of Illinois law and may require the involved persons to provide additional information to be considered by the District in determining residency. Such information may include, but is not limited to, real estate contracts, leases, financial documents, voter registration, tax documents, bills, and vehicle registrations and licenses. The investigation may include, but is not limited to, interviews, completion of questionnaires, observations and home visits. Whenever the Chief Executive Officer/Superintendent/designee receives information believed to be reliable questioning the residency of the student, the Chief Executive Officer/Superintendent/designee shall conduct an investigation to determine whether the student is a resident of the District.

If a student has not begun attendance in school when residency is questioned, the Chief Executive Officer/Superintendent/designee shall generally deny attendance pending determination of the student's residency, however, students who qualify as homeless under the Education for Homeless Children Act, 105 ILCS 45/1-1 et seq, shall be enrolled immediately. At the conclusion of the investigation and after providing the student and the student's parents or other appropriate person an opportunity to discuss the matter, the Chief Executive Officer/Superintendent/designee shall make a decision as to the student's residency. If the Chief Executive Officer/Superintendent/designee determines that the student is not a resident, the Chief Executive Officer/Superintendent/designee will take appropriate action, which may include refusing to enroll the student.

If the Chief Executive Officer/Superintendent/designee determines that a student already enrolled is not a resident of the School District, he or she, on behalf of the School Board, shall notify the person who enrolled the student of the tuition amount that is due. The notice shall be given by certified mail, return receipt requested. The person who enrolled the student may challenge the determination and request a hearing pursuant to the Illinois School Code 105 ILCS 5/10-20.12b (2012).

Homeless Children

Any homeless child shall be immediately admitted, even if the child or child's parent/guardian is unable to produce records normally required to establish residency. Board policy 6:171, Education of Homeless Children, and its implementing administrative procedures, govern the enrollment of homeless children.

Criminal Punishment for Misrepresentation of Residency

Illinois law has made it a crime, punishable by imprisonment and fine, to knowingly or willfully present any false information regarding the residency of a student for purposes of enabling that student to attend on a tuition-free basis or to knowingly enroll or attempt to enroll a student on a tuition-free basis when the student is known to be a non-resident of the District. The Chief Executive Officer/Superintendent is authorized to seek prosecution to the full extent of the law of any person who the Chief Executive Officer believes has committed any residency-related crime with approval of the Board. Civil proceedings may also be initiated with the approval of the Board.

SCHOOL ADMISSION

Admission of school-aged children to the schools of District U-46 will be consistent with the Illinois School Code and other legal or appropriate directives which bear upon the Board of Education. A student that has been suspended or expelled from another school district seeking to transfer into the District will have his or her suspension or expulsion examined under the District's student discipline policies and procedures to determine admission. Where the duration of the transferring student's suspension or expulsion is not indicated, the Chief Executive Officer/Superintendent/designee will recommend, and the Board of Education will determine, the duration of the suspension or expulsion. Expulsions shall not exceed two calendar years from the date of the expulsion. The Chief Executive Officer/Superintendent/designee may make exceptions for all expelled students seeking admission to the District on a case-by-case basis. ACCELERATED PLACEMENT PROGRAM

The District provides an Accelerated Placement Program (APP). The APP advances the District's goal of providing educational programs with opportunities for each student to develop to his or her maximum potential. The APP provides an educational setting with curriculum options usually reserved for students who are older or in higher grades than the student participating in the APP. APP options include, but may not be limited to: (a) accelerating a student in a single subject; (b) other grade-level acceleration; and (c) early entrance to kindergarten or first grade. Participation in the APP is open to all students who demonstrate high ability and who may benefit from accelerated placement. It is not limited to students who have been identified as gifted and talented. Eligibility to participate in the District's APP shall not be conditioned upon the protected classifications identified in School Board's policies, or any factor other than the student's identification as an accelerated learner.

The Chief Executive Officer/Superintendent/designee shall implement an APP that includes:

1. Decision-making processes that are fair, equitable, and involve multiple individuals, e.g. District administrators, teachers, and school support personnel, and a student's parent(s)/guardian(s);
2. Notification processes that notify a student's parent(s)/guardian(s) of a decision affecting a student's participation in the APP; and
3. Assessment processes that include multiple valid, reliable indicators.

The Chief Executive Officer/Superintendent/designee shall annually notify the community, parent(s)/guardian(s), students, and school personnel about the APP, the process for referring a student for possible evaluation for accelerated placement, and the methods used to determine whether a student is eligible for accelerated placement. Notification may: (a) include varied communication methods, such as student handbooks and District or school websites; and (b) be provided in multiple languages, as appropriate.

STUDENT WITHDRAWAL FROM SCHOOL AND RE-ENROLLMENT

Re-enrollment shall be denied to any individual above the age of 19 years who has dropped out of school and who could not because of age and lack of credits, attend classes during the normal school year and graduate before his or her 21st birthday. A person denied re-enrollment, after being provided some due process, will be provided counseling and be directed to alternative educational programs, including adult education programs that lead to graduation or receipt of a GED diploma. For purposes of this policy, due process shall include written notice of the reasons for being denied re-enrollment and an opportunity for the student to respond to the administration and be heard.

No child will be denied re-enrollment in violation of the Individuals with Disabilities Education Act or the Americans with Disabilities Act.

PHYSICAL AND HEALTH EXAMINATIONS OF STUDENTS

Pursuant to the Illinois School Code and directives from other appropriate state agencies or departments, required written evidence of a completed physical and health examination one year prior to entering the kindergarten, sixth and ninth grades will be presented by all students. If students are initially enrolling in the District and prior compliance has not been met, a two-week grace period will be authorized before such evidence will be required. Students who have not provided such evidence within the two week grace period will be excluded from school and may be considered as truant until such evidence is presented. Students will be notified in June of the physical examination requirement and unless the student is homeless, if the examination is not completed by the opening of school, exclusion will take place immediately. New students who register after October 15 shall have 30 days following registration to comply with the health examination and immunization regulation.

As required by State law:

1. Health examinations must be performed by a physician licensed to practice medicine in all of its branches, an advanced practice nurse who has a written collaborative agreement with a collaborating physician authorizing the advanced practice nurse to perform health examinations, or a physician assistant who has been delegated the performance of health examinations by a supervising physician.
2. A diabetes screening must be included as a required part of each health examination; diabetes testing is not required.
3. An age-appropriate developmental screening and an age-appropriate social and emotional screening are required parts of each health examination. A student will not be excluded from school due to his or her parent/guardian's failure to obtain a developmental screening or a social and emotional screening.

5. The Department of Public Health will provide all female students entering sixth grade and their parents/guardians information about the link between human papilloma virus (HPV) and cervical cancer and the availability of the HPV vaccine.
6. The District will provide informational materials regarding influenza, influenza vaccinations, meningococcal disease, and meningococcal vaccinations developed, provided, or approved by the IDPH when it provides information on immunizations, infectious diseases, medications, or other school health issues to students' parent(s)/guardian(s).

Any child who qualifies as homeless shall be immediately admitted, even if the child or child's parent/guardian is unable to produce health records normally required for enrollment.

Parent/guardians of students entering kindergarten or an Illinois school for the first time shall present proof before October 15 of the current school year that the student received an eye examination within

one year prior to entry of kindergarten or the school. A physician licensed to practice medicine in all of its branches or a licensed optometrist must perform the required eye examination.

The Chief Executive Officer/designee shall ensure that parents/guardians are notified of this eye examination requirement in compliance with the rules of the Department of Public Health. Schools shall not exclude a student from attending school due to failure to obtain an eye examination.

All children in kindergarten and the second and sixth grades must present proof of having been examined by a licensed dentist before May 15 of the current school year in accordance with rules adopted by the Illinois Department of Public Health. The Chief Executive Officer/Superintendent/designee shall ensure that parents/guardians are notified of this dental examination requirement at least 60 days before May 15 of each school year. If a child in the second or sixth grade fails to present proof by May 15, the school may hold the child's report card until they present proof of 1) completed dental examination or 2) that a dental examination will take place within 60 days after May 15.

Exemptions

In accordance with rules adopted by the Illinois Department of Public Health, a student will be exempted from this policy's requirements for:

4. Dental examination requirement if the student's parents/guardians show an undue burden or a lack of access to a dentist.

In the event that any legislative or other legal updates occur that contradict the language of this policy, District administration is direct to follow the language of the law and propose necessary amendments to this policy to the Board of Education as soon as practicable.

District students will be notified in June of the immunization requirement.

If medical reasons prevent a student from receiving a required immunization within the time limits set, the student must present within this time limit, an immunization schedule and a statement of the medical reasons causing the delay. The schedule and statement of medical reasons must be signed by the physician, advanced practice nurse, physician assistant or local health department responsible for administering the immunization.

STUDENT ACADEMIC FREEDOM

The Board of Education seeks to educate young people in the democratic tradition, to foster recognition of individual freedom and social responsibility, and to inspire meaningful awareness of and respect for the Constitution of the United States and the Bill of Rights.

Freedom of individual conscience, association, and expression will be encouraged. Procedures will be observed both to safeguard the legitimate interests of the schools and to exhibit, by appropriate examples, the basic objectives of the democratic society as set forth in the Constitutions of the United States and the State of Illinois.

STUDENT RIGHTS AND RESPONSIBILITIES

All students are entitled to enjoy the rights protected by the U.S. and Illinois Constitutions and laws for persons of their age and maturity in a school setting.

The rights include the right to voluntarily engage in individually initiated, non-disruptive prayer that, consistent with the Free Exercise and Establishment Clauses of the U.S. and Illinois Constitutions, is not sponsored, promoted or endorsed in any manner by the school or any school employee.

A student's right to an education will be protected and respected so long as it does not result in behavior which denies to others the same right. Students who violate the rights of others or violate District policies or rules will be subject to disciplinary measures. Each school has the responsibility to protect the educational rights of all of its students. The protection and promotion of this right by the school requires the active participation and cooperation of students, staff, and parents.

The basic civil rights afforded individuals of a democratic society will be supported by District U-46 personnel in their interactions with all students.

STUDENT INVOLVEMENT IN DECISION MAKING

The Board of Education recognizes the value of student participation in decision making for the school district as a means of furthering and improving the educational process and programs. Student participation will be afforded and encouraged as deemed appropriate and necessary, with consideration to students' various stages of development and maturity.

STUDENT DUE PROCESS RIGHTS

School District U-46 will observe due process rights in practices and procedures affecting students in the District, to the extent provided by law.

STUDENT GOVERNMENT

Student participation in local school issues and concerns should be encouraged and properly developed and may be appropriately conducted through an elected and representative student government.

It is the responsibility of student governments to ensure that all students are afforded an opportunity to vote, and to ensure that potential offices are open to all who are eligible.

Questions or concerns raised by student governments with respect to District policy or regulations will be directed to the building Principal who will refer such matters to the Chief Executive Officer/Superintendent/designee.

STUDENT COMPLAINTS AND GRIEVANCES

Administrators will provide for the reasonable hearing of complaints and the redress of student grievances with respect to school and/or District operations and programs. Issues should be heard initially and dealt with by the most immediate administrator. Any further consideration should be pursued through other appropriate channels.

STUDENT POLICIES/GOALS

Through its policies that affect the lives of students, the Board of Education seeks to advance these goals:

- enhance equal educational opportunities for all students;
- promote faithful attendance;

- develop in students a deep sense of personal responsibility for their education and actions;
- attend vigorously to matters of student safety, health, and welfare;
- deal justly and constructively with all students in matters of discipline;
- help all students feel that they are valued as individuals in the school environment, and;
- promote diversity and encourage tolerance among all students.

STUDENT VOLUNTEERS FOR SCHOOL AND PUBLIC SERVICE

Within the educational program of the district and its schools, opportunities for students to directly contribute to program development and to student enrichment and depth will be encouraged. However, students who participate in volunteer programs will not be adversely affected.

Direct student volunteer efforts on behalf of the local school program will provide for clearly defined educational purposes for the student and for the school. Student service will not be limited solely to any person's particular self interest, but any such efforts will benefit and accrue to the best interests of District U-46, as well as the particular school. Parental/guardian consent to such volunteer participation will be a prerequisite when the participation requires extended involvement or involvement off of school grounds. The need for parental consent shall be determined by the Principal/designee.

Any participation by student volunteers on behalf of the District for public or community service must be authorized by the Chief Executive Officer/Superintendent/designee. Such approved service will demonstrate that student efforts will be directed toward the attainment of the District student goals and will clearly benefit the District, as well as serve the public interest.

EMPLOYMENT OF STUDENTS

Students' school responsibilities are to take precedence over non-school-related jobs. However, students who need or desire to work part time while attending school will be encouraged to do so, provided their work commitments do not interfere with their achievement in school.

In compliance with the law, the high school administration may process requests for, and issue work permits which enable age-appropriate students to work part-time while attending school. Such employment must meet legal requirements pertaining to jobs suitable for minors and child labor laws.

Part-time and summer jobs may be offered to students in keeping with their abilities and the needs of the school and District for student help. The Board also authorizes the District to serve as an employer for cooperative work experience programs.

 8. Using or possessing a laser pointer unless under a staff member’s supervision and in the context of instruction.
 9. Disobeying directives from staff members or school officials and/or rules and regulations governing student conduct.
 10. Using any form or type of aggressive behavior that does physical or psychological harm to someone else and/or urging other students to engage in such conduct. Prohibited aggressive behavior includes, without limitation, the use of violence, force, noise, coercion, threats, intimidation, fear, bullying, cyber-bullying or other comparable conduct. For more information on bullying and cyber-bullying see Board Policy #7.193.
 11. Causing or attempting to cause damage to, or stealing or attempting to steal, school property or another person’s personal property.
 12. Involvement in gangs or gang-related activities, including the display of gang symbols or paraphernalia. A “gang” means any ongoing organization, association, or group of three or more persons, whether formal or informal, having as one of its primary activities the commission of one or more criminal acts or acts in violation of school rules, which has an identifiable name or identifying sign or symbol, and whose members individually or collectively engage in, or have engaged in, a pattern of criminal gang activity or activity relating to the violation of school rules.

Gang activity includes, but is not limited to, any act in furtherance of the gang and possession or use of gang symbols, such as drawings, hand signs or attire.

13. Engaging in any activity that constitutes an interference with school purposes or an educational function or any disruptive activity.
14. Engaging in academic dishonesty, including cheating, intentionally plagiarizing, violation of copyright law, wrongfully giving or receiving help during an academic examination, and wrongfully obtaining test copies or scores.
15. Being involved with any public school fraternity, sorority or secret society, by
 - Being a member,
 - Promising to join,
 - Pledging to become a member, or
 - Soliciting any other person to join, promise to join, or be pledged to become a member.
16. Engaging in hazing or any kind of bullying or aggressive behavior that does physical or psychological harm to a staff person or another student, or urging other students to engage in such conduct. Prohibited conduct specifically includes, without limitation, any use of violence, intimidation, force, noise, coercion, threats, stalking, harassment, sexual harassment, public humiliation, theft or destruction of property, retaliation, hazing, bullying, bullying using a school computer or a school computer network, or other comparable conduct.
17. Abuse of Internet Privileges. See Acceptable Use of Technology Policy.
18. Violating any criminal law, including but not limited to assault, battery, arson, theft, gambling, eavesdropping, vandalism and hazing.
19. Operating an unmanned aircraft system (UAS) or drone for any purpose on school grounds or at any school event unless granted permission by the Chief Executive Officer/Superintendent/designee.

For purposes of this policy, the term “possession” means having any knowledge of, and any control over, an item. Control includes, but is not limited to, having access to an item in a school locker, personal effects, a vehicle, or other place where the item is located. It is not necessary that a student intend to control the item. A student may acquire knowledge of an item visually, by being told about the item, or through other sensory perception. A student’s knowledge will be determined based on the surrounding circumstances, not just the student’s statements. For example, “forgetting” that a prohibited item is in one’s locker or personal effects does not constitute a lack of knowledge. Also, for example, coming onto school grounds or to a school-sponsored event in a vehicle which the student knows contains a prohibited item constitutes possession of that item, even if the vehicle or the item does not belong to the student. This provision on possession applies to any policy or rule which regulates or prohibits possession of any item, such as weapons or drug paraphernalia, and such substances as tobacco, alcohol, drugs and look-alikes of such items or substances.

A “look-alike” is any substance or item which is not, but reasonably appears to be, or is represented to be, the real substance or item. Examples include:

- a. a toy gun which is very difficult to distinguish, except upon close examination, from an actual gun,

- b. a leafy plant material which is not, but is claimed, believed or intended to appear to be, marijuana,
- c. a powdered substance which is not, but is claimed, believed or intended to appear to be a toxic chemical or biological agent.

Application of Grounds for Disciplinary Action

No disciplinary action shall be taken against any student that is based totally or in part on the refusal of the student's parent/guardian to administer or consent to the administration of psychotropic or psychostimulant medication to the student.

The grounds for disciplinary action, including those described more thoroughly later in this policy, apply whenever the student's conduct is reasonably related to school or school activities, including, but not limited to:

1. On school grounds before, during, or after school hours or at any other time when the school is being used by a school group;
2. Off school grounds at a school-sponsored activity, or event, or any activity or event which bears a reasonable relationship to school;
3. Traveling to or from school or a school activity, function or event; or
4. Anywhere, if the conduct interferes with, disrupts, or adversely affects the school environment, school operations, or an educational function, including, but not limited to, conduct that may reasonably be considered to: (a) be a threat or an attempted intimidation of a staff member; or (b) endanger the health or safety of students, staff, or school property. This can include activity that occurs off-campus and during non-school hours on social media or digital communication platforms.

School officials shall limit the number and duration of expulsions and out-of-school suspensions to the greatest extent practicable and, where practicable and reasonable, shall consider forms of non-exclusionary discipline before using out-of-school suspensions or expulsions. School personnel shall not advise or encourage students to drop out voluntarily due to behavioral or academic difficulties. Potential disciplinary measures may include:

1. Disciplinary conference.
2. Withholding of privileges.
3. Seizure of contraband. Contraband is defined as any item that is prohibited from being on school grounds. Some examples include, but are not limited to: illegal drugs, guns and tobacco products.
4. Suspension from school and all school activities for up to 10 school days, provided that appropriate procedures are followed. A suspended student is prohibited from being on any District school grounds. Furthermore, out-of-school suspensions are limited to 10 school days per year, per student. After a student has accumulated 10 days of out-of-school suspension, any additional suspension days must be approved the Chief Executive Officer/Superintendent/designee.
5. Suspension of bus riding privileges, provided that appropriate procedures are followed.
6. Expulsion from school and all school-sponsored activities and events for a definite time period not to exceed 2 calendar years, provided that the appropriate procedures are followed. An expelled student is prohibited from being on school grounds.
7. Notification of juvenile authorities whenever the conduct involves illegal drugs (controlled substances), look-alikes, alcohol, or weapons.
8. Notification of parent(s)/guardian(s).
9. Removal from classroom.

10. Detention or Saturday School provided the student's parent(s)/guardian(s) have been notified. If transportation arrangements cannot be agreed upon, an alternative disciplinary measure must be used. The student must be supervised by the detaining teacher or the Principal/designee.

In lieu of discipline, School Officials will consider, to the maximum extent possible, the following non-exclusionary measures:

1. Restorative –practices. The Chief Executive Officer/Superintendent/designee shall promulgate practices and procedures to administer this section.
2. Community service with local public and nonprofit agencies that enhances community efforts to meet human, educational, environmental or public safety need. The District will not provide transportation. School administration shall use this option only as an alternative to another disciplinary measure, giving the student and/or parent/guardian the choice.
3. Transfer to an alternative program if the student is expelled or otherwise qualifies for the transfer under State law. The transfer shall be in the manner provided in Article 13A or 13B of the Illinois School Code.
4. Any other restorative practice or non-exclusionary measure to improve student conduct.

The above list of disciplinary measures is a range of options that will not always be applicable in every case. In some circumstances, it may not be possible to avoid suspending or expelling a student because behavioral interventions, other than a suspension or expulsion, will not be appropriate and available, and the only reasonable and practical way to resolve the threat and/or address a disruption is a suspension or expulsion. In all cases, the District's Handbook on Student Discipline shall be followed when administering student discipline in a manner consistent with this policy.

Corporal Punishment Ban

Corporal punishment shall not be used. Corporal punishment is defined as slapping, paddling, or prolonged maintenance of students in physically painful positions, or intentional infliction of bodily harm. Corporal punishment does not include reasonable force as needed to maintain safety for students, staff, or other persons, or for the purpose of self-defense or defense of property.

Required Notices

A school staff member shall immediately notify the Principal in the event that he or she: (1) observes any person in possession of a firearm on or around school grounds; however, such action may be delayed if immediate notice would endanger students under his or her supervision, (2) observes or has reason to suspect that any person on school grounds is or was involved in a drug-related incident, or (3) observes a battery committed against any staff member. Upon receiving such a report, the Principal/designee shall immediately notify the local law enforcement agency, State Police, and the student's parent(s)/guardian(s).

Early Intervention and Progressive Discipline

Efforts, including the use of early intervention and progressive discipline, shall be made to deter students, while at school or a school-related event, from engaging in aggressive behavior that may reasonably produce physical or physiological harm to someone else. The Chief Executive Officer/Superintendent/designee shall ensure that the parent(s)/guardian(s) of a student who engages in aggressive behavior are notified of the incident. The failure to provide such notification does not limit the Board's authority to impose discipline, including suspension or expulsion, for such behavior.

Delegation of Authority

Each teacher, and any other school personnel when students are under his or her charge, is authorized to impose any disciplinary measure, other than suspension, expulsion, corporal punishment or in-school suspension, which is appropriate and in accordance with this policy and the Student Code of Conduct. Teachers, other certificated educational employees and other persons providing a related service for or with respect to a student, may use reasonable force as needed to maintain safety for other student, school personnel, or other persons, or for the purpose of self-defense or defense of property. Teachers shall promptly notify the Principal/designee when temporarily removing students from a classroom for disruptive behavior.

Re-Engagement of Returning Students

The Chief Executive Officer/Superintendent/designee shall maintain a process to facilitate the re-engagement of student who is returning from an out of school suspension, expulsion, or an alternative school setting. The goal of re-engagement shall be to support the student's ability to be successful in school following a period of exclusionary discipline and shall include the opportunity for students who have been suspended to complete or make up work for equivalent academic credit.

Student Handbook

The Chief Executive Officer/Superintendent/designee, with input from the parent-teacher advisory committee, shall prepare disciplinary rules implementing the District's disciplinary policies. These disciplinary rules shall be presented annually to the Board for its review and approval.

TEEN DATING VIOLENCE PROHIBITION

Engaging in teen dating violence that takes place at school, on school property, at school-sponsored activities, or in vehicles used for school-provided transportation is prohibited and unacceptable. Every student has the right to a safe learning environment. For purposes of this policy, the term teen dating violence occurs whenever a student who is 13 to 19 years of age uses or threatens to use physical, mental, or emotional abuse to control an individual in the dating relationship; or uses or threatens to use sexual violence in the dating relationship.

The Chief Executive Officer /Superintendent/designee shall develop and maintain a program to respond to incidents of teen dating violence that:

1. Fully implements and enforces the Board's policies on Anti-Harassment (#7.020), Student Discipline (#7.190), and Prevention and Response to Bullying, Intimidation, and Harassment (#7.193).
2. Encourages anyone with information about incidents of teen dating violence to report them to any of the following individuals:
 - a. Any school staff member. School staff shall respond to incidents of teen dating violence by following the District's established procedures for the prevention, identification, investigation, and response to bullying and school violence.
 - b. The Coordinator of Student Discipline, Principal, Assistant Principal, Dean of Students, or a Complaint Manager identified in policy 7.020, Anti-Harassment Policy—Students.
3. Incorporates age-appropriate instruction in grades 7 through 12, in accordance with the District's health education program. This includes incorporating student social and emotional development into the District's educational program as required by State law.
4. Incorporates education for school staff, as recommended by the Coordinator of Student Discipline, Principal, Assistant Principal, Dean of Students, or a Complaint Manager.
5. Notifies students and parents/guardians of this policy.

PREVENTION AND RESPONSE TO BULLYING, INTIMIDATION AND HARASSMENT

Bullying, intimidation, and harassment diminish a student's ability to learn and a school's ability to educate. Preventing students from engaging in these disruptive behaviors and providing all students equal access to a safe, non-hostile learning environment are important District goals.

Bullying on the basis of actual or perceived race, color, national origin, military status, unfavorable discharge status from the military service, sex, sexual orientation, gender identity, gender-related identity or expression, ancestry, age, religion, physical or mental disability, order of protection status, status of being homeless, or actual or potential marital or parental status, including pregnancy, association with a person or group with one or more of the aforementioned actual or perceived characteristics, or any other distinguishing characteristic is prohibited in each of the following situations:

1. During any school-sponsored education program or activity.
2. While in school, on school property, on school buses or other school vehicles, at designated school bus stops waiting for the school bus, or at school-sponsored or school-sanctioned events or activities.
3. Through the transmission of information from a school computer, a school computer network, or other similar electronic school equipment.
4. Through the transmission of information from a computer that is accessed at a nonschool-related location, activity, function, or program or from the use of technology or an electronic device that is not owned, leased, or used by the School District or school if the bullying causes a substantial disruption to the educational process or orderly operation of a school. This paragraph (item #4) applies only when a school administrator or teacher receives a report that bullying through this means has occurred; it does not require staff members to monitor any nonschool-related activity, function, or program.

DEFINITIONS

Bullying

Bullying includes cyber-bullying and means any severe or pervasive physical or verbal act or conduct, including communications made in writing or electronically, directed toward a student or students that has or can be reasonably predicted to have the effect of one or more of the following:

1. Placing the student or students in reasonable fear of harm to the student's or students' person or property;
2. Causing a substantially detrimental effect on the student's or students' physical or mental health;
3. Substantially interfering with the student's or students' academic performance; or
4. Substantially interfering with the student's or students' ability to participate in or benefit from the services, activities, or privileges provided by a school.

Cyber-bullying

Cyber-bullying means bullying through the use of technology or any electronic communication, including without limitation any transfer of signs, signals, writing, images, sounds, data, or intelligence of any nature transmitted in whole or in part by a wire, radio, electromagnetic system, photo-electronic system, or photo-optical system, including without limitation electronic mail, Internet communications, instant messages, or facsimile communications. Cyber-bullying includes the creation of a webpage or weblog in which the creator assumes the identity of another person or the knowing impersonation of another person as the author of posted content or messages if the creation or impersonation creates any of the effects enumerated in the definition of bullying. Cyber-bullying also includes the distribution by electronic means of a communication to more than one person or the posting of material on an electronic medium that may be accessed by one or more persons if the distribution or posting creates any of the effects enumerated in the definition of bullying.

Restorative Measures

Restorative measures means a continuum of school-based alternatives to exclusionary discipline, such as suspensions and expulsions, that: (i) are adapted to the particular needs of the school and community, (ii) contribute to maintaining school safety, (iii) protect the integrity of a positive and productive learning climate, (iv) teach students the personal and interpersonal skills they will need to be successful in school and society, (v) serve to build and restore relationships among students, families, schools, and communities, and (vi) reduce the likelihood of future disruption by balancing accountability with an understanding of students' behavioral health needs in order to keep students in school.

School Personnel

School personnel means persons employed by, on contract with, or who volunteer in a school district, including without limitation school and school district administrators, teachers, school guidance counselors, school social workers, school counselors, school psychologists, school nurses, cafeteria workers, custodians, bus drivers, school resource officers, and security guards.

Bullying Prevention and Response Plan

The Chief Executive Officer /Superintendent/designee shall develop and maintain a bullying prevention and response plan that advances the District's goal of providing all students with a safe learning environment free of bullying and harassment. This plan shall be consistent with the requirements listed below.

1. The District uses the definition of bullying as provided in this policy.
2. Bullying is contrary to State law and the policy of this District. However, nothing in the District's bullying prevention and response plan is intended to infringe upon any right to exercise free expression or the free exercise of religion or religiously based views protected under the First Amendment to the U.S. Constitution or under Section 3 of Article I of the Illinois Constitution.
3. Students are encouraged to immediately report bullying. A report may be made orally or in writing to the Coordinator of Student Discipline or any staff member with whom the student is comfortable speaking. Anyone, including staff members and parents/guardians, who has information about actual or threatened bullying is encouraged to report it to the Coordinator of Student Discipline or any staff member. Anonymous reports are also accepted at the District's website (u-46.org).

4. Consistent with federal and State laws and rules governing student privacy rights, Chief Executive Officer /Superintendent/designee shall promptly inform the parent(s)/guardian(s) of every student involved in an alleged incident of bullying and discuss, as appropriate, the availability of social work services, counseling, school psychological services, other interventions, and restorative measures.
5. The Chief Executive Officer /Superintendent/designee shall promptly investigate and address reports of bullying, by, among other things:
 - a. Making all reasonable efforts to complete the investigation within 10 school days after the date the report of a bullying incident was received and taking into consideration additional relevant information received during the course of the investigation about the reported bullying incident.
 - b. Involving appropriate school support personnel and other staff persons with knowledge, experience, and training on bullying prevention, as deemed appropriate, in the investigation process.
 - c. Notifying the Principal or school administrator or designee of the reported incident of bullying as soon as possible after the report is received.
 - d. Consistent with federal and State laws and rules governing student privacy rights, providing parents/guardians of the students who are parties to the investigation information about the investigation and an opportunity to meet with the Principal or school administrator or his or her designee to discuss the investigation, the findings of the investigation, and the actions taken to address the reported incident of bullying.

The Chief Executive Officer /Superintendent/designee shall investigate whether a reported incident of bullying is within the permissible scope of the District's jurisdiction and shall require that the District provide the victim with information regarding services that are available within the District and community, such as counseling, support services, and other programs.

6. The Chief Executive Officer /Superintendent/designee shall use interventions to address bullying, that may include, but are not limited to, school social work services, restorative measures, social-emotional skill building, counseling, school psychological services, and community-based services.
7. A reprisal or retaliation against any person who reports an act of bullying is prohibited. A student's act of reprisal or retaliation will be treated as bullying for purposes of determining any consequences or other appropriate remedial actions.
8. A student will not be punished for reporting bullying or supplying information, even if the District's investigation concludes that no bullying occurred. However, knowingly making a false accusation or providing knowingly false information will be treated as bullying for purposes of determining any consequences or other appropriate remedial actions.
9. The District's bullying prevention and response plan must be based on the engagement of a range of school stakeholders, including students and parents/guardians.
10. The Chief Executive Officer /Superintendent/designee shall post this policy on the District's Internet website and include it in the student handbook, and, where applicable, post it where other policies, rules, and standards of conduct are currently posted. The policy must also be distributed annually to parents/guardians, students, and school personnel, including new employees when hired.

11. The Chief Executive Officer /Superintendent/designee shall assist the Board with its evaluation and assessment of this policy's outcomes and effectiveness. This process shall include, without limitation:
 - a. The frequency of victimization;
 - b. Student, staff, and family observations of safety at a school;
 - c. Identification of areas of a school where bullying occurs;
 - d. The types of bullying utilized; and
 - e. Bystander intervention or participation.

The evaluation process may use relevant data and information that the District already collects for other purposes. The Chief Executive Officer /Superintendent/designee must post the information developed as a result of the policy evaluation on the District's website, or if a website is not available, the information must be provided to school administrators, Board members, school personnel, parents/guardians, and students.

12. The District's Bullying Prevention Plan shall be consistent with the District's Board Policies.

STUDENT DEMONSTRATIONS

Peaceful and free expression of student ideas and opinions will be allowed as long as such expression does not disrupt the continuity of the instructional program. School personnel may reasonably regulate peaceful assembly and the time and place of petition circulation in order to avoid interference with the normal school operation. Student disruptions to the continuity of the instructional program on school district premises, or at school-related activities, will be viewed by the Board of Education, in consultation with administration, as a serious matter and may be grounds for suspension and/or expulsion.

CORPORAL PUNISHMENT AND PHYSICAL RESTRAINT

The Board of Education recognizes that certificated educational employees and any other person, whether or not a certificated employee providing a related service for or with respect to a student hold the relationship with students in the same manner that parents/guardians would when they are present with their children. Under these provisions of the Illinois School Code, such employees will exercise reasonable and prudent action in dealing with individual student conduct which may be extreme and/or serious in character, and which fails to provide for cohesiveness in the instructional program. Such employees shall maintain discipline in the schools and on school grounds.

Corporal punishment at school is prohibited by Board policy and law.

Reasonable measures and physical restraint may be used to provide for the safety and welfare of students and staff and other persons, or for the purpose of self-defense or defense of property.

STUDENT INTERVIEWS

To ensure that student interviews are conducted in a manner, which is least disruptive to the educational and administrative process, the following procedures must be implemented when representatives from outside public agencies need to interview students during the school day.

Scope and Procedures

This policy applies to requests for interviews and/or classroom observations with students during the school day by outside public agencies, court-appointed evaluators or their authorized representatives, as part of their official duties. The entities most likely to be affected by this policy include but are not limited to:

- Department of Children and Family Services (DCFS) also including private agencies with whom it contracts;
- The Office of the Public Guardian or Guardian ad Litem appointed by a court of competent jurisdiction to represent a student;
- Probation Officers and Educational Advocates of the Juvenile Court;
- The Public Defender's Office, when appointed to represent a student charged with delinquency;
- Mental health professional conducting classroom observations of a student by court order.
- Police officers requesting access to students for non-school related matters (witness, victim or suspect interviews)

Exception

The requirements of the Policy do not apply to District employees who stand in loco parentis to students or to School Resource Officers.

Designated Liaison

Each school shall designate an individual to act as School Liaison to the interviewer.

Non-Emergency Interviews

A. REQUEST:

For non-emergency interviews, schools must receive three school days advance notice by email/writing/phone/fax from the individual requesting to interview a student.

The School Liaison shall provide the **Student Interview Request Form** (Attachment A) to the interviewer and ask the interviewer to complete the form prior to the visit. The Interview Request Form shall serve as notice and facilitate scheduling of the interview.

B. PARENTAL NOTIFICATION:

Parental notification does not apply to students 18 years of age or older who do not have an adult guardian. However, such students must provide consent.

Upon receipt of a request to interview a student, the School Liaison shall notify the parent or legal guardian by telephone or by sending written notice to the parent (e.g., email or send a letter home with the student), except in the following circumstances:

1. The parent/guardian has previously given prior written consent to the interview; or
2. The interviewer is a caseworker from DCFS or a private agency with a DCFS contract and DCFS is the student's guardian or temporary custodian; or

C. ARRANGING THE INTERVIEW

1. **PROOF OF AUTHORITY:** Upon receipt of a request to conduct a student interview the School Liaison shall advise the individual requesting the interview of the need to provide credentials prior to or at the time of the interview. Appropriate credentials:

2. **Scheduling the interview:** Student interviews should be conducted at a date and time which is least disruptive to the student's educational day, preferably before the start of school day or immediately after the student's last class;

Classroom observations and non-emergency interviews shall be limited to two class periods, prior approval is given by the principal.

D. ON THE DAY OF THE INTERVIEW

1. **CONFIRMATION:** The School Liaison shall confirm the student's attendance on the day of the interview. If the student is absent, the School Liaison must notify the interviewer as soon as possible and arrange another time, date and location for the interview.
2. **ASSISTANCE:** If the student has any limitation that may affect his/her ability to participate in the interview, such as disability or language barrier, the School Liaison will advise the interviewer of the limitation and to the extent practicable offer assistance in the interview.

3. **CHECK-IN:** The interviewer must check in at the main office and produce his/her credentials (identification and proof of authority) for verification. A photocopy of the interviewer's proof of authority shall be placed in the student's temporary student record along with a photocopy of the interviewer's identification card, unless that ID includes the interviewer's Social Security number. If the ID includes a Social Security number, the school shall not photocopy it, but instead shall verify that s/he reviewed the ID by noting this on the Student Interview Request Form.
 - a. **Identification:** In any instance where there is a question concerning the authenticity of the interviewer's credentials, the School Liaison will request the name and telephone number of the interviewer's supervisor and immediately contact that individual to verify the interviewer's identity.
 - b. **Proof of Authority:** If the individual requesting to conduct the student interview did not previously submit proof of authority, the School Liaison will obtain such documentation on the day of the interview.
4. **STAFF PRESENCE:** School personnel are free to request that the interviewer permit him/her to sit in the interview in order for the student to feel comfortable. If the interviewer rejects the offer, school personnel may not sit in the interview, and should in no way interfere with the interview.
5. **ENDING THE INTERVIEW:** Upon completion of the interview, the interviewer, or designated school personnel present in the interview, shall return the student to the main office.

Emergency Interviews

A. REQUEST

DCFS employee, an employee of the Public Guardian's Office, or Guardian ad Litem representing a student, may request an emergency interview with a student to investigate reports of child endangerment, including calls to the DCFS Child Abuse Hotline. Emergency interviews will be granted in accordance with the requirements noted in this section.

B. PARENTAL NOTIFICATION:

Student/Victim: School staff shall not notify the parent/guardian of the alleged student/victim or any student who lives in the alleged victim's home of the request for an emergency interview. Parental consent for the interview is not required or permitted.

C. ON THE DAY OF THE INTERVIEW:

Interview protocols set out above are the same as for non-emergency interviews with the following exceptions:

1. **Courtesy Call:** Whenever possible, the interviewer should contact the school prior to his/her arrival to inform the school of the need to interview the student on an emergency basis, to ascertain whether the student is in attendance, and to state the estimated time of arrival.

2. Documentation of Interview: The School Liaison shall document the emergency interview request by completing the confirmation on the Student Interview Request Form (Attachment A). The completed form shall be placed in the student's temporary student record.
3. Protective Custody Taken: If the Police or DCFS takes protective custody of a child, the interviewer shall notify the principal/designee before leaving the building and provide the school with a contact name and number for follow-up as necessary. Documentation of Interview in Student Record

If not completed by the interviewer, the Student Interview Request Form shall be completed in its entirety by the School Liaison and maintained in the student's temporary student record along with copies of the credentials of the interviewer.

STUDENT SEARCHES AND SEIZURE OF PROPERTY

In order to maintain order and security in the schools, school authorities are authorized to conduct reasonable searches of school property and equipment, as well as of students and their personal effects. "School authorities" includes school liaison police officers.

School Property and Equipment as well as Personal Effects Left There by Students

School authorities may inspect and search school property and equipment owned or controlled by the school (such as, lockers, desks, and parking lots), as well as personal effects left there by a student, without notice to or the consent of the student. Students have no reasonable expectation of privacy in these places or areas or in their personal effects left there.

The Chief Executive Officer/Superintendent/designee may request the assistance of law enforcement officials to conduct inspections and searches of lockers, desks, parking lots, and other school property and equipment for illegal drugs, weapons, or other illegal or dangerous substances or materials, including searches conducted through the use of specially trained dogs.

Students

When law enforcement officials find it necessary to question students during the school day or periods of extracurricular activities, the school Principal/designee will be present. Immediate effort will be made to contact the parent/guardian of the student to notify them of the situation. If custody and/or arrest is involved, the Principal will request that all procedural safeguards, as prescribed by law, will be observed by the law enforcement officials.

School authorities may search a student and/or the student's personal effects in the student's possession (such as, purses, wallets, knapsacks, book bags, lunch boxes, etc.) when there is a reasonable ground for suspecting that the search will produce evidence the particular student has violated or is violating either the law or the District's student conduct rules. The search itself must be conducted in a manner that is reasonably related to its objective and not excessively intrusive in light of the student's age and sex, and the nature of the infraction.

"Reasonable Suspicion" means knowledge that is sufficiently trustworthy to lead a District employee or School Official to believe s/he has a moderate chance of finding that a student or visitor possesses evidence of wrongdoing. Reasonable Suspicion may be based upon direct observation of the student or visitor or on information an authorized District employee receives from a reliable third party. Reasonable Suspicion may arise, for example, from seeing a weapon-shaped bulge in clothing, smelling marijuana, Metal-Detector Activation, viewing a suspicious object via an x-ray monitor, or information from a reliable student or adult that a student currently has a weapon or contraband in his/her possession. Neither a mere hunch nor a generalized suspicion is a sufficient basis for conducting a Weapons Pat Down, Belongings Search, Contraband Search, or individual locker or desk search.

When feasible, the search should be conducted as follows:

1. Outside the view of others, including students,
2. In the presence of a school administrator or adult witness, and
3. By a certificated employee or liaison police officer of the same sex as the student.

Immediately following a search, a written report shall be made by the school authority who conducted the search, and given to the Chief Executive Officer.

Seizure of Property

If a search produces evidence that the student has violated or is violating either the law or the District's policies or rules, such evidence may be seized and impounded by school authorities, and disciplinary action may be taken. When appropriate, such evidence may be transferred to law enforcement authorities.

STUDENT SUSPENSION

The Board authorizes the Chief Executive Officer/Superintendent/designee or building administrator of any school to suspend students guilty of gross disobedience or misconduct while on school premises, while in attendance at school-sponsored or conducted activities, while riding the school bus, and at any place where the misconduct has a reasonable relationship to the school, for a reasonable period not to exceed ten school days, per school year, per student. Requests for additional suspension days must be approved by the Chief Executive Officer/Superintendent/designee. A suspended student is sent home with parent knowledge and is not allowed to attend classes, school functions, or be on school grounds or at school-sponsored events for the duration of the suspension.

Parents/guardians have the right to appeal and request a hearing before the appointed hearing officer of the Board of Education. At such review, the parents/guardians may appear and discuss the suspension with the hearing officer. If a hearing officer is appointed by the Board he/she shall report to the Board a written summary of the evidence heard at the meeting. After the hearing or upon receipt of the written report of the hearing, the Board will review the report and take such action as deemed appropriate. All proceedings will be conducted pursuant to the rights of the students as set forth in the 1200 Illinois School Code, the guidelines established by the Illinois State Board of Education, and the rules and regulations of District U-46.

All students who receive an out-of-school suspension must have a reinstatement conference prior to re-entering the school. The parent/guardian, student and building Principal/designee shall attend the reinstatement conference. However, failure to have a reinstatement conference shall not be grounds for excluding the student from school for a time period exceeding the suspension term.

STUDENT EXPULSION

Pursuant to the provisions of the Illinois School Code, the Board of Education may expel a student found guilty of gross disobedience or misconduct for a period of time not to exceed two calendar years. Expulsion of a student will occur only after the parents/guardians have been requested to appear at a hearing before a hearing officer appointed by the Board. Such request shall be made by registered or certified mail, return receipt requested; and shall state the time, place and purpose of the meeting. The hearing officer shall state the reasons for the dismissal and the date on which the expulsion is to become effective, at the hearing. The hearing officer will hear the evidence presented at such meeting. A written, documented summary of school efforts that have been taken will be submitted to the Chief Executive Officer/Superintendent/designee prior to a recommendation for expulsion to the Board of Education. The hearing officer will provide the Board with a written summary of the evidence heard at the meeting. Upon considering all facets of the case, the Board of Education will take final action and may take whatever action it will find appropriate in accord with its policies and rules, administrative rules and regulations, and the guidelines set forth by the Illinois State Board of Education.

Expulsion will be exercised only after remedial efforts have failed or when a student's disturbance becomes a serious impediment to the student's welfare or to school operations.

An expelled student will not be allowed to attend classes or school functions at any U-46 facility for the duration of the expulsion. An expelled student may be placed in an alternative education program for the duration of their expulsion with the recommendation of the Chief Executive Officer/Superintendent/designee.

DISCIPLINE, SUSPENSION AND EXPULSION OF SPECIAL EDUCATION STUDENTS

Discipline

At the Individualized Education Plan (IEP) team conference which results in the individual education plan for a student with disabilities, the extent to which regular school rules and consequences apply to the student must be specifically discussed, including suspension from school, and any exceptions or alternative rules or consequences. The student may then be disciplined in accordance with the IEP without the necessity of an IEP conference before applying the rules and consequences.

Suspension

Students with a disability who are guilty of gross disobedience or misconduct may be suspended from school in accordance with the regulations promulgated under the Individuals with Disabilities Education Act.

A student with an IEP who carries a weapon, knowingly possesses or uses illegal drugs, or solicits the sale of a controlled substance while at school or a school function may be placed in an appropriate interim alternative educational setting for up to 45 days. This placement shall be made in accordance with the regulations promulgated under the Individuals with Disabilities Education Act.

Expulsion

A student with a disability shall not be expelled from school for conduct which is a result of the student's disability. Before expulsion of a student with a disability, an IEP team must conduct a manifestation determination review to address whether the student's misconduct was a result of the student's disability, whether the student's current placement is appropriate and any other matters required by law.

If the results of the manifestation determination show that the conduct in question was not a manifestation of the student's disability, the authorized administrator may continue with his/her recommendation that the child be considered for expulsion by the Board of Education, in accordance with the regulations promulgated under the Individuals with Disabilities Education Act.

If a student with disabilities is expelled from school in accordance with the procedures set forth above, the District shall convene an IEP meeting to develop an educational program to deliver educational services during such period of expulsion.

If it is determined at the manifestation determination review that the behavior of the child was a manifestation of his/her disability, the authorized administrator shall not continue with his recommendation for expulsion but may request a review of the appropriateness of the students' placement in accordance with federal and state law.

STUDENT CONDUCT ON SCHOOL BUSES

Orderly behavior on the school bus is as important as orderly behavior in the classroom. Bus drivers will have a responsibility to maintain orderly behavior of students on school buses and will report misconduct to the director of transportation who will notify the student's Principal.

The school Principal will have the authority to suspend the riding privileges of students who are disciplinary problems on the bus and who engage in gross disobedience or misconduct. Parents of students whose behavior and misconduct on school buses endangers the health, safety, and welfare of other riders will be notified that their student may face the loss of school bus riding privileges in accordance with the student discipline code.

Electronic visual and audio recording may be used on school buses to monitor conduct and to promote and maintain a safe environment for students and employees when transportation is provided for any school related activity. Notice of electronic recordings shall be displayed on the exterior of the vehicle's entrance and front interior bulkhead in compliance with State law.

STUDENT ACCEPTABLE USE OF TECHNOLOGY

The Board of Education recognizes that technology is a tool for instruction which should facilitate and enhance the curricular goals of the District. Internet access is one of the technology tools that can provide positive learning experiences for students.

Because of the unique nature of technology, the staff will provide guidance and instruction to students in the appropriate use of that resource. Those responsible for student technology access will monitor its use so that maximum instructional benefit will result. The District's electronic network is part of the curriculum and is not a public forum for general use. Users should not expect that email or files stored on District servers will be private. The District reserves the right to log technology use, to monitor fileserver space utilization by users, and to examine users' files and materials as needed, and at its discretion. Users must recognize that there is no assurance of confidentiality with respect to access to transmissions and files by persons outside, or from persons inside the District.

Students are responsible for good behavior on District and school computer networks just as they are in a classroom or a school hallway. General school rules for behavior and communications apply.

Permission to use the District and school's technology, including Internet, email, and other collaborative online tools is dependent upon a student and his/her parent or guardian signing the Student Acceptable Use of Technology Agreement. Signing this form shows that the student understands and will follow the District and school's technology/computer rules.

Any student email account is a form of communication is transitory in nature and will not be construed as a Student record. The District also does not backup or archive the cloud-based application and data storage services that may be available to students, so any data that is permanently deleted from those services cannot be restored.

The Opportunities and Risks of Technology Use

With access to computers and people all over the world comes the potential availability of material that may not be considered to be of educational value in the context of the school setting, or that may be harmful or disruptive. Because information on networks is transitory and diverse, the District cannot completely predict or control what users may or may not locate. The Board of Education believes that the educational value of limited access to the information, interaction, and research capabilities that technology offers outweighs the possibility that users may obtain or encounter material that is not consistent with the educational goals of the District.

In accordance with the Children's Internet Protection Act, the District installs and operates filtering software to limit users' internet access to materials that are obscene, pornographic, harmful to children, or otherwise inappropriate, notwithstanding that such software may in certain cases block access to other materials as well. At the same time, the District cannot guarantee that filtering software will in all instances successfully block access to materials deemed harmful, indecent, offensive, pornographic, or otherwise inappropriate. The use of filtering software does not negate or otherwise affect the obligations of users to abide by the terms of this Policy and to refrain from accessing such inappropriate materials.

No technology is guaranteed to be error-free or totally dependable, nor is it safe when used irresponsibly. Among other matters, the District is not liable or responsible for:

1. any information that may be lost, damaged, or unavailable due to technical or other difficulties;
2. the accuracy or suitability of any information that is retrieved through technology;
3. breaches of confidentiality;
4. defamatory material; or
5. the consequences that may come from failure to follow the District's policy and procedures governing the use of technology.

Student Users of Technology Will:

- Use or access District technology only for educational purposes.
- Comply with copyright laws and software licensing agreements.
- Understand that email and network files are not private. Network administrators may review files and communications to maintain system integrity and monitor responsible student use.
- Respect the privacy rights of others.
- Be responsible at all times for the proper use of technology, including proper use of access privileges, complying with all required system security identification codes, and not sharing any codes or passwords.
- Maintain the integrity of technological resources from potentially damaging messages, physical abuse, or viruses.
- Abide by the policies and procedures of networks and systems linked by technology.

Student Users of Technology Will Not:

- Access, download, create, send or display offensive messages or pictures.
- Use harassing, offensive, obscene or defamatory language.
- Harass or attack others.
- Vandalize or damage computer equipment, systems, networks, hardware, software, data or programs.
- Spread computer viruses.
- Violate copyright laws or software licensing agreements.
- Use others' passwords or accounts.
- Misrepresent themselves or others.
- Trespass in others' folders, work, or files, or gain unauthorized access to resources or entities.
- Reveal their personal address or phone number, or those of other users.
- Use District technology for non-school purposes or personal financial gain.
- Use technology for any illegal purpose or activity.

Disciplinary Actions

Violations of this Policy, or any administrative regulations and guidelines governing the use of technology may result in disciplinary action which could include loss of network access, loss of technology use, suspension or expulsion, or other appropriate disciplinary action. Violations of local, state or federal law may subject students to prosecution by appropriate law enforcement authorities.

Additional Rules/Actions

The Chief Executive Officer/Superintendent/designee may establish regulations and guidelines and shall take appropriate action to implement this Policy.

ISOLATED TIME OUT AND PHYSICAL RESTRAINT

The purpose of this Policy is to govern the use of isolated time out and physical restraint in accordance with the requirements of the Illinois School Code, 105 ILCS 5/2-3.130 and 10-20.33, and Illinois Administrative Code, 23 Ill. Admin. Code §§ 1.280 and 1.285.

Isolated time out means the confinement of a student in an enclosure, whether within or outside the classroom, from which the student's egress is restricted.

Physical restraint means holding a student or otherwise restricting his or her movements through the use of specific, planned techniques. Physical restraint does not include momentary person-to-person contact, without the use of material or mechanical devices, accomplished with limited force, to (1) prevent a student from completing an act that could result in potential harm to him/herself or others, or damage to property, or (2) remove a disruptive student who is unwilling to leave the area.

Use of Isolated Time Out and Physical Restraint

Isolated time out and physical restraint shall only be used as a means of maintaining a safe and orderly environment for learning, and only to the extent that they are necessary to preserve the safety of students and others. Isolated time out and physical restraint shall not be used as a form of punishment. In addition, physical restraint shall not be used unless the student (1) poses a physical risk to him/herself or others, (2) there is no medical contraindication to its use, and (3) the staff applying the restraint have been trained in its safe application. A verbal threat is not considered a physical risk unless the student also demonstrates a means of or intent to carry out the threat. Mechanical or chemical restraints will not be used under any circumstances, and medically prescribed restraint procedures will not be used for purposes of maintaining discipline.

Written procedures governing the use of isolated time out and physical restraint shall be developed by the Chief Executive Officer /Superintendent/designee, with input from the parent-teacher advisory committee on student discipline and individuals with knowledge or expertise in the development and implementation of behavioral interventions.

School staff must follow these written procedures whenever isolated time out or physical restraint is used.

Maintenance of Documentation

Whenever isolated time out or physical restraint is used, the student's case manager or the Principal shall be notified as soon as possible, and shall document the incident as set forth in the procedures governing isolated time out and physical restraint.

Evaluation of Incidents Resulting In Injury

Any incident that results in a serious injury to the student (as determined by the student, responsible parent or guardian, staff or other individual) shall be reported to the Chief Executive Officer /Superintendent/designee. The Chief Executive Officer /Superintendent/designee shall investigate and evaluate the incident.

Alternative Behavioral Strategies

Positive, non-aversive behavioral interventions designed to develop and strengthen desirable student behaviors should be used when they are likely to be effective. More restrictive behavior interventions, such as isolated time out or physical restraint, shall be used sparingly and approached with caution.

Annual Review of Isolated Time Out and Physical Restraint

At least annually, the Chief Executive Officer /Superintendent/designee shall review the use of isolated time out and physical restraint, including:

1. The number of incidents involving isolated time out and/or physical restraint;
2. The location and duration of each incident;
3. The staff members involved;
4. Any injuries or property damage that occurred; and
5. The timeliness of parental notification and administrative review.

Distribution of Policy to Parents / Guardians

Parents or guardians will receive a copy of this Policy within 15 days after the beginning of each school year, or within 15 days after starting classes for a student who transfers to the District during the school year.

ADMINISTERING MEDICINES TO STUDENTS

As a normal and regular practice, school personnel will not administer student medicine. Student medicines should be administered at home under parental direction.

If necessary for student attendance, legally prescribed medications in properly labeled containers which are provided by a parent/guardian may be administered to a student during the school day. Medications will be stored safely in a locked cabinet and a record will be made of its administration. No medication will be administered without a written request from a parent accompanied by a statement by the prescribing physician. Additionally, a student may possess and self-administer epinephrine auto injectors, provided the student's parent/guardian has completed and signed the District's authorization form, and has provided a written statement from the student's physician, physician assistant, or advanced practice registered nurse regarding the name and purpose of the epinephrine auto injectors, the prescribed dosage, and the time(s) of administration.

The School District shall incur no liability, except for willful and wanton conduct, as a result of any injury arising from a student's self-administration of medication or the medication's storage by school personnel. Parent(s)/guardian(s) must indemnify and hold harmless the School District and its employees and agents, against any claims, except a claim based on willful and wanton conduct, arising out of a student's self-administration of medication or the storage of medication by school personnel.

Nothing in this Policy shall prohibit any school employee from providing emergency assistance to students. The District's administration shall continue to monitor legal updates on the administration of medication and prescription drugs and adopt guidelines and practices that will allow the District to comply with such requirements. STUDENT CONCUSSIONS AND HEAD INJURIES

The General Assembly recognizes all of the following:

1. Concussions are one of the most commonly reported injuries in children and adolescents who participate in sports and recreational activities. The Centers for Disease Control and Prevention estimates that as many as 3,900,000 sports-related and recreation-related concussions occur in the United States each year. A concussion is caused by a blow or motion to the head or body that causes the brain to move rapidly inside the skull. The risk of catastrophic injuries or death are significant when a concussion or head injury is not properly evaluated and managed.
2. Concussions are a type of brain injury that can range from mild to severe and can disrupt the way the brain normally works. Concussions can occur in any organized or unorganized sport or recreational activity and can result from a fall or from players colliding with each other, the ground, or with obstacles. Concussions occur with or without loss of consciousness, but the vast majority of concussions occur without loss of consciousness.
3. Continuing to play with a concussion or symptoms of a head injury leaves a young athlete especially vulnerable to greater injury and even death. The General Assembly recognizes that, despite having generally recognized return-to-play standards for concussions and head injuries, some affected youth athletes are prematurely returned to play, resulting in actual or potential physical injury or death to youth athletes in this State.
4. Student athletes who have sustained a concussion may need informal accommodations, modifications of curriculum, and monitoring by medical or academic staff until the student is fully recovered. To that end, all schools are encouraged to establish a return-to-learn protocol that is based on peer-reviewed scientific evidence consistent with Centers for Disease Control and Prevention guidelines and conduct baseline testing for student athletes.

The Chief Executive Officer /Superintendent/designee shall develop and implement a program to manage concussions and head injuries suffered by students. The program shall:

1. Prepare for the full implementation of the Youth Sports Concussion Safety Act, that provides, without limitation, each of the following:
 - a. The Chief Executive Officer /Superintendent/designee shall select the members of the District's Concussion Oversight Team. The Board must then approve the members. To the extent practicable, the Concussion oversight team shall include:
 - i. An athletic trainer and/or nurse, and;
 - ii. At least one individual responsible for implementing and complying with the return-to-play and return-to-learn protocols adopted by the team.
 - b. The Concussion Oversight Team shall establish each of the following based on peer-reviewed scientific evidence consistent with guidelines from the Centers for Disease Control and Prevention:

- i. A return-to-play protocol governing a student's return to interscholastic athletics practice or competition following a force of impact believed to have caused a concussion. The Chief Executive Officer/Superintendent/designee shall supervise an athletic trainer or other person responsible for compliance with the return-to-play protocol.
 - ii. A return-to-learn protocol governing a student's return to the classroom following a force of impact believed to have caused a concussion, whether or not a concussion actually occurred. The Chief Executive Officer/Superintendent/designee shall supervise the person responsible for compliance with the return-to-learn protocol.
 - c. Each student and the student's parent/guardian shall be required to sign a concussion information receipt form each school year before participating in an interscholastic athletic activity.
 - d. A student shall be removed from an interscholastic athletic practice or competition immediately if any of the following individuals believes that the student sustained a concussion during the practice and/or competition: a coach, a physician, a game official, an athletic trainer, the student's parent/guardian, the student, or any other person deemed appropriate under the return-to-play protocol.
 - e. A student who was removed from interscholastic athletic practice or competition shall be allowed to return only after all statutory prerequisites are completed, including without limitation, the return-to-play and return-to-learn protocols developed by the Concussion Oversight Team. An athletic team coach or assistant coach may not authorize a student's return-to-play or return-to-learn.
 - f. The following individuals must complete concussion training as specified in the Youth Sports Concussion Safety Act: all coaches or assistant coaches (whether volunteer or a district employee) of interscholastic athletic activities; nurses who serve on the Concussion Oversight Team; athletic trainers; game officials of interscholastic athletic activities; and physicians who serve on the Concussion Oversight Team.
 - g. The Board shall approve school-specific emergency action plans for interscholastic athletic activities to address the serious injuries and acute medical conditions in which a student's condition may deteriorate rapidly.
2. Comply with the concussion protocols, policies, and by-laws of the Illinois High School Association, including its Protocol for the National Federation of State High School Associations (NFHS) Concussion Playing Rules and its Return to Play Policy. These specifically require that:
 - a. A student athlete who exhibits signs, symptoms, or behaviors consistent with a concussion in a practice or game shall be removed from participation or competition at that time.
 - b. A student athlete who has been removed from an interscholastic contest for a possible concussion or head injury may not return to that contest unless cleared to do so by a physician licensed to practice medicine in all its branches in Illinois or a certified athletic

trainer.

- c. If not cleared to return to that contest, a student athlete may not return to play or practice until the student athlete has provided his or her school with written clearance from a physician licensed to practice medicine in all its branches in Illinois or a certified athletic trainer working in conjunction with a physician licensed to practice medicine in all its branches in Illinois.
3. Require that all high school coaching personnel, including the head and assistant coaches, and athletic directors obtain online concussion certification by completing online concussion awareness training in accordance with 105 ILCS 25/1.15.13
4. Require all student athletes to view the Illinois High School Association's video about concussions.
5. Inform student athletes and their parents/guardians about this policy in the Agreement to Participate or other written instrument that a student athlete and his or her parent/guardian must sign before the student is allowed to participate in a practice or interscholastic competition.
6. Provide coaches and student athletes and their parents/guardians with educational materials from the Illinois High School Association regarding the nature and risk of concussions and head injuries, including the risks inherent in continuing to play after a concussion or head injury.
7. Include a requirement for staff members to notify the parent/guardian of a student who exhibits symptoms consistent with that of a concussion.

This policy shall be effective on the first school day of the 2016-2017 School Year.

Student participation in school-sponsored extracurricular activities is contingent upon the student meeting the academic criteria set forth in Board Policy on school-sponsored extracurricular activities.

The parent/guardian must provide written permission for the student's participation, giving the District full waiver of responsibility of the risks involved.

LEGAL REF.: 105 ILCS 5/10-20.30.

INTERSCHOLASTIC ATHLETICS

Eligibility for participation in interscholastic activities will be governed by Illinois High School Association (IHSA) regulations as well as District Policy. Violation of the provisions noted below will result in a student becoming ineligible for participation in interscholastic activities for the remainder of the semester and until the infraction is corrected. Violation will also result in the school organization involved forfeiting all intra-district competitions occurring while the student was a member of the activity.

1. A student is eligible to participate in interscholastic activities only in the school where he/she is enrolled or scheduled to be enrolled.
2. A student who attends a school out of his/her attendance area and whose parent or guardian resides in School District U-46 is ineligible to participate in interscholastic activities unless he/she has met the school assignment requirements described in Board Policy #7.031.

School District U-46 will cooperate with individuals, community organizations, and agencies desiring to sponsor activities in the schools provided such activities are consistent with the purposes and educational aims of the school. Such activities must be integrated into the school program without disruption or loss of instructional time for the student and without imposing an unreasonable added workload on the staff of the school.

Contests or other activities sponsored by non-school district organizations which include awards to students must request approval from the Chief Executive Officer/Superintendent/designee. Requirements for approved contests will include an overall educational value for participating students and freedom from the kind of interests, pressure, or restriction which inhibits the free and full development of students, teachers, and other participants. Contests whose primary purpose is commercial in nature will not be authorized.

STUDENT PUBLICATIONS

School-Sponsored Publications, Productions and Websites

The Board of Education recognizes the value of official school publications in teaching journalism, English, writing, and other related courses. It is the intent of the Board to support and encourage such publications. An official school publication means materials produced by students in the journalism, newspaper, yearbook, or writing classes and distributed to the student body either free or for a fee. School-sponsored publications, productions and web sites are part of the curriculum and are not a public forum for general student use.

This Policy affirms the importance of official school publications as a forum for student expression, including topics about which there may be dissent and controversy. The observance of these rights must be balanced against the duty of educating students in an orderly manner to protect the rights of all.

It will be the responsibility of the local school administrators to establish reasonable and specific regulations setting forth the time, manner, and place in which distribution of student publications may occur so as to maintain an orderly and proper school process.

School authorities may edit or delete material that is inconsistent with the District's educational mission.

All school-sponsored communications shall comply with the ethics and rules of responsible journalism. Text that is libelous, obscene, vulgar, lewd, invades the privacy of others, conflicts with the basic educational mission of the school, is socially inappropriate, is inappropriate due to the maturity of the students, or is materially disruptive to the educational process will not be tolerated.

Non-School Sponsored Publications, Productions and Websites

Students seeking to distribute, present or post any non-school-sponsored publication, production or web site at school must comply with Administrative Procedures, including notification to the building Principal/designee at least 24 hours before the distribution, presentation or posting of 10 or more copies of such materials. Students are prohibited from distributing, presenting or posting any publication, production or web site:

1. That will cause substantial disruption of the proper and orderly operation and discipline of the school or school activities;
2. That violates the rights of others, including but not limited to material that is libelous, invades the privacy of others, or infringes on a copyright;
3. That is socially inappropriate or inappropriate due to maturity level of the students, including but not limited to material that is obscene, pornographic, or pervasively lewd and vulgar, or contains indecent and vulgar language;
4. That is primarily intended for the immediate solicitation of funds; or
5. That when more than 10 copies will be distributed or accessed is primarily prepared by non-students, unless it is being used for school purposes. Nothing herein shall be interpreted to prevent the inclusion of material from outside sources or the citation to such outside source as long as the material to be distributed or accessed is primarily prepared by students.

The distribution of non-school-sponsored written material shall occur at a time and place and in a manner designated by the building Principal/designee so that it will not cause disruption, be coercive, or result in the perception that the distribution or the material is endorsed by the School District.

STUDENT AWARDS AND SCHOLARSHIPS

Acceptance by the Board of Education of any award or scholarship offered to District U-46 will be made upon recommendation by the Chief Executive Officer/Superintendent/designee. Any award or scholarship will serve the best interests of the educational program of the District and will be supportive of and consistent with sound educational practice.

ACADEMIC ELIGIBILITY STANDARDS

In order to be eligible to participate in any school-sponsored or school-supported athletic or extra-curricular activity in grades 9 through 12, a student must maintain a passing grade in no less than five courses as determined on a weekly basis. Students failing to meet this standard on a weekly basis are prohibited from participating for a minimum of five school days. If a student does not maintain a passing grade in at least five courses for a given semester, he/she will be prohibited from participating in any athletic or extracurricular activities for the following semester.

The term “non-curriculum related student group” means any student group not related to the body of courses offered by the school. Student groups directly related to the subject matter of courses offered by the school do not fall within the non-curriculum related category and are considered curriculum related.

The terms “meeting,” “sponsorship” and “instructional time” as used in this policy have the same meaning as contained in the Federal Equal Access Act. The term “meeting” further includes the following activities, provided disclaimers of school sponsorship, in the form prescribed by the Principal, accompany the activities:

Any notice, advertisement or poster that does not comply with these requirements or which is posted outside of a designated area, may be removed. Student organizations may request permission to post additional information and/or to place postings outside of a designated area.

The Chief Executive Officer/Superintendent/designee shall develop administrative procedures to implement this policy.

STUDENT RECORDS

Information about students which is considered essential in accomplishing the educational objectives of our schools and in promoting the welfare of students will be collected and maintained under the supervision of certified staff in accordance with federal and state law. A school student record is any writing or other recorded information concerning a student and by which a student may be identified individually that is maintained by a school or at its direction or by a school employee, regardless of how or where the information is stored, except for certain records kept in a staff member's sole possession; records maintained by law enforcement officers working in the school; video and other electronic recordings that are created in part for law enforcement, security, or safety reasons or purposes; and electronic recordings made on school buses.

State and federal law grants students and parents/guardians certain rights, including the right to inspect, copy, and challenge school student records. The information contained in school student records shall be kept current, accurate, clear, and relevant. All information maintained concerning a student receiving special education services shall be directly related to the provision of services to that child. The District may release directory information as permitted by law, but a parent/guardian shall have the right to object to the release of information regarding his or her child. However, the District will comply with an ex parte court order requiring it to permit the U.S. Attorney General or designee to have access to a student's school records without notice to, or the consent of, the student's parent/guardian.

A current and accurate cumulative record will be maintained for each student enrolled in the schools of District U-46. Moreover, current and suitable entries in common with the cumulative record will be made on District health records of students as required or deemed necessary. All student records are confidential and information from them shall not be released other than as provided by law. In accordance with the directives and guidelines of the State Board of Education and the laws of the state and federal governments, such records may only be released to, reviewed by, or shared with properly authorized persons. All information maintained concerning a student receiving special education services shall be directly related to the provision of services to that child. The Chief Executive Officer/Superintendent/designee will formulate and disseminate proper custodial procedures which will govern the collection, handling, release, storage, maintenance, accessibility and retention of such records and student information, and will be designed to carry out the primary task of the school while protecting individual rights and preserving the confidential nature of various records pursuant to state and federal law.

The Chief Executive Officer/Superintendent/designee shall also designate a records custodian who shall maintain student records. The Chief Executive Officer/Superintendent/designee shall inform staff members, students and parent(s)/guardian(s) of this Policy, as well as their rights regarding student school records.

Parents/guardians are responsible for providing current information.

STUDENT PHOTOGRAPHS

Recognizing that most students and parents want to retain some permanent impression or keepsake as a reminder of their school experiences from year to year, the Board of Education sanctions the practice of negotiations and contractual obligations between commercial photographers and the Principals of the schools as a service to the students, and as part of the total school program.

No student will be required to have a picture taken or will be pressured for the purchase of photographs.
