

Ms. Pasternak,

I am the President of the Girls Basketball Booster Club at Bartlett High School and I am requesting current financial statements from the Main Booster Club. We have been attempting to obtain our clubs financial statements since April of this year and have been ignored by the Treasurer, Dan Lewis. Former principal Suzanne Colombe refused to intervene on our behalf when we requested her assistance. I have also made multiple requests to the main booster club president also with requests from our club Treasurer Nancy Harris.

It is my belief that there are issues with financial records which is the primary reason for the Treasurer refusing to provide account balances. I also allege that the former President of the Basketball Booster Club used the 501c3 tax exempt status of the club for personal purchases. Receipts for all purchases made using the clubs tax exempt account at Sam's have also gone without response. Dan Lewis has ignored all requests from the girls program while still corresponding with and on behalf of other booster clubs. I allege that his actions are intended to harm the girls basketball program and therefore should be reviewed for Title IX compliance.

I look forward to receiving the requested documents in a timely manner.

Thank You

Ken Pavell
