Getting Ready for Kindergarten

A 2019 Calendar of Family Activities
**Help Me Get Ready For Kindergarten!**

**Talk**
- Tell me your stories; listen to mine.
- Sing songs and nursery rhymes.
- Talk about things we are doing.
- Teach me new words.
- Ask me 'how' and 'why' questions.

**Play**
- Build with me.
- Pretend with me.
- Make time for me to play with other kids.
- Be silly with me.
- Teach me the rules.

**Read**
- Read to me; listen to me "read" to you.
- Point out meaningful letters in my world: J is for Jack, D is for Donut.
- Point out the first letter in words and the sound it makes.
- Use rhyming words with me.
- Re-read books I love.

**Do**
- Take me to the library.
- Explore our community with me.
- Count things with me.
- Let me touch, taste and smell new things.
- Play games with me.

**Write**
- Use playdough with me.
- Draw pictures with me.
- Show me how to make letters.
- Write down what I say.
- Make lists with me.
Tips and Tricks to Use Calendar

This Getting Ready for Kindergarten Calendar offers daily activities that enhance developmental skills needed in school. Children develop at their own rate! It’s up to you how to use this calendar; we give suggestions below.

Parents

» Use the daily activities to engage your child in literacy discovery.

» Check out the local resources, including local libraries (pg.30), community agencies (pg.31), and developmental milestones (pg.34).

» Look over the Kindergarten registration page and other school information (pg.29).

» Read the “Children & Technology” page to discover tips and tricks for using media in the home and on the go (pg.33).

Parents and Teachers

» Enjoy the monthly tips and videos in the QR code in the Parent and Teachers’ Corner

» Use daily literacy activities as your question of the day, during transition times, and other times during the day.

» Check out recommended books at the library and use them in the classroom.

» Use the Kindergarten benchmarks and milestones on pg. 28 to guide your teaching and monitor the children’s development.

» Make Talk, Play, Read, Do and Write part of your daily school routines.

“Typical” development varies from child to child. Each month focuses on a different topic based on Illinois Early Learning Standards and strategies developed by experts.

QR Code Download Instructions

» Each month look for the QR Code to learn tips and tricks for interacting with your child.

» To access the QR Code go to the App Store on your mobile phone and download a FREE QR Code Reader.

» After you have downloaded app you will be able to hold your phone over the code each month and the videos or information will come up on your phone.

youtu.be/j393INECNGw

The children are our future. Enjoy the journey!

Recommended Books

Each month, look here for a list of books to read with your child.
Encourage your child to listen and use language to express ideas.

Take time each day to listen and to talk with your child.

While traveling or at home:
- Turn off the radio or CD player in your car and talk about where you are going or have been.
- Talk about what might happen when you get to where you are going.
- Turn off the TV and other electronic devices and talk with your child about things that interest him or her or their day. **Talking is teaching!**

Involve your child in activities which require listening and following directions.

Give your child directions that involve two steps. Here are some examples:
- Take off your shoes and put them in the closet.
- Pick up your plate and put it in the sink.

Monthly Tips

Encourage your child to listen and use language to express ideas.

**Recommended Books**

- *Bear’s House of Books* by Poppy Bishop
- *Rhyme Crime* by Jon Burgerman
- *It Came in the Mail* by Ben Clanton
- *Llama Llama Loves to Read* by Anna Dewdney
- *Idea Jar* by Adam Lehrhaupt
- *The Word Collector* by Peter H. Reynolds
- *Claudia & Moth* by Jennifer Hansen Rolli
- *Did You Hear What I Heard?: Poems About School* by Kay Winters

---

**Parent and Teacher Corner**

Children come to school after many early-morning transitions from home. There is an emotion behind every action and meltdowns can come out of nowhere. By observing children you can translate this behavior and help them transition.

**Small Children Have Big Feelings:** There’s an Emotion Behind Every Action
http://bit.ly/2zMMS9m

**Separation anxiety in young children**
Separation anxiety is normal and eventually most young children will experience it. Tips for making this transition easier.

<tbody>
<tr>
<td>Eye Care Month</td>
<td></td>
<td>New Year’s Day Use newspapers and magazines to make a New Year’s crown or hat.</td>
<td>Brush your teeth and talk about why they are important.</td>
<td>Find things around the house that begin with the letter “C.”</td>
<td>Make a macaroni necklace.</td>
<td>Have your child look at pictures in a book and make up his/her own story.</td>
</tr>
<tr>
<td>Sing your child’s favorite song.</td>
<td></td>
<td>Color Tuesday Look for the color white outside.</td>
<td>Read your favorite children’s book to your child.</td>
<td>Have your child practice writing his/her name using upper and lower case letters.</td>
<td>Ask your child to help set the table and count the items.</td>
<td>Do 15 jumping jacks.</td>
</tr>
<tr>
<td>Cut shapes out of paper to make a picture.</td>
<td>Martin Luther King, Jr. Day Have your child draw a picture of him/her playing in the snow.</td>
<td>Color Tuesday Look for the color white in a book or magazine.</td>
<td>Exercise with your child; hop in place, do jumping jacks and arm circles.</td>
<td>Library Day Ask for a book about winter fun.</td>
<td>Make a grocery list together.</td>
<td>Look outside and ask your child about the weather.</td>
</tr>
<tr>
<td>Play a board game with your child.</td>
<td>Start a nursery rhyme and have your child finish it.</td>
<td>Color Tuesday Look for something white in the kitchen.</td>
<td>Name four things that rhyme with “dog.”</td>
<td>Ask your child to draw a picture of a snowman.</td>
<td></td>
<td>Remember: Check with your school for Kindergarten registration dates.</td>
</tr>
</tbody>
</table>
Play learning games with your child.

**Parent and Teacher Corner**

Sitting down and playing games with children is the way they learn to take turns, learn rules and spend quality time with you. This time also gives you the opportunity to observe skills that need to be worked on. The Dollar Store is a great place to grab matching, shape, color, letter and number games.

**Recommended Books**

- **Triangle** by Mac Barnett
- **Rock-A-Bye Baby** by Jane Cabrera
- **Love** by Matt de la Pena
- **Every Color Soup** by Jorey Hurley
- **Hey-Ho, to Mars We’ll Go!: A Space-Age Version of “the Farmer in the Dell”** by Susan Lendroth
- **Shake the Tree!** by Chiara Vignocchi
- **No Hugs for Porcupine** by Zoe Waring
- **Play This Book** by Jessica Young

**Play matching games.**
- Play “Old Maid” and “Go Fish” cards, the Memory Game, or a deck of playing cards.
- Shuffle the cards and lay them face up on the table.
- Invite your child to find the two cards that match.

**Have fun as you play “I Spy” color games.**
- Play the game by spying different colored objects at home, outdoors, or in the car.
- Say, “I spy something yellow. You peel it and eat it. What is it?” (banana)

**Play “shapes” and “sizes” games.**
- Hide different color and shapes in a room and have a shape hunt.
- Grab shapes out of a bag and name.
- Make bath time a fun learning opportunity with foam letters, numbers and shapes to play with in the tub.

**Play Movement Games**
- Play “Mother May I,” “Red Light, Green Light” and “Simon Says”
- Play “shapes” and “sizes” games.
- How Board Games Boost Kids Cognitive Skills
- Easy Beginner Preschool Board Games
- Check out this website for Play ideas

</tbody>
</table>
Read with your child each day.

Create a reading area for your child.

- Store your child’s books in a special place that is easy to reach such as a basket, drawer, or on a low shelf.
- Place a small rug or pillow in the area to create a cozy and comfortable place for reading.
- Join your child and read together in this special place.
- Hold your child close to you when you read to help develop a bond and a positive attitude toward reading.
- Read your child’s favorite books over and over as this builds strong reading skills.

Let your child participate in book reading with a variety of books.

- Visit your local library with your child and get a library card.
- Let your child look at the picture books in the children’s section of the library and select several books to checkout.
- Attend a story time program at your library.
- While reading a book with your child, talk about the pictures and information on the cover or the book.
- Ask your child to look at the cover and guess what the book is going to be about.
- Show your child how to start at the beginning of the book and how to turn the pages from front to back.
- Ask your child questions throughout the story and to retell the story in his or her own words at the end.

Parent and Teacher Corner

Reading aloud is so important to young children’s learning. One of the most important skills a parent or teacher can teach a child is how to communicate: how to speak, listen and read. Children love hearing a story when you add different accents and make the characters and story come alive.

Building Print Awareness by Sharing a Book

The importance of reading aloud to children.

Let your child use school tools.

Gather and organize materials for coloring, drawing, writing and cutting.

☐ Help your child select a strong container for drawing and writing materials.
☐ Show your child how to use markers and scissors appropriately.
☐ Decide on some simple rules for your child using the drawing and writing materials.
☐ Create fun activities using school tools such as pencils, makers, crayons and scissors.

Encourage your child to explore with drawing materials.

☐ Draw a picture with your child about family events and experiences and talk about the picture.
☐ Praise your child’s efforts by displaying their work in a special spot.

Support your child as he or she practices using scissors.

☐ Be sure that your child knows how to hold the scissors, how to open and close the blades and how to hold the paper. “Chomp the paper like an alligator mouth.”
☐ Snipping playdough snakes, strips of construction paper or paint strips from the hardware store is good practice.

Let your child see that written words are a part of daily life.

☐ Involve your child in making lists together, writing notes and names.

How to Teach a Preschooler to Cut with Scissors

How to teach your child to use scissors correctly

Developing fine motor skills are of important for learning to hold a pencil in the future. You can strengthen your child’s hands by giving them the opportunity to play with playdough as well as using their pincher fingers to pick up little objects like beans, beads or small pasta. Here are some easy tips for teaching a child to cut with scissors.

Enjoy the sounds of language

Read rhymes with your child.
- Read Mother Goose Rhymes with your child. Encourage your child to listen and complete the sentence with the rhyming word such as, “Hickory, Dickory, Dock. The Mouse Ran up the (clock).”
- Read books with rhyming words like Jeep in a Sheep, Chicka Chicka Boom Boom and Wocket in My Pocket

Play with rhyming sounds
- Play a game of naming rhyming words. (Silly, Billy, Sock, Rock)
- Silly, nonsense words count, too.
- Sing, dance and listen to songs with your children that have rhyming words. Many of the children’s CD’s have rhyming songs.

Remember that children grow and develop at different rates, but you may be surprised to see how your child has progressed in the past few months.

Parent and Teacher Corner
- Children need to hear books with rhyming words to develop their language
- Read books with predictable endings to the sentences.
- Did you know you can check out children’s song CD’s from the library?

Recommended Books

</tr>
</tbody>
</table>
Give your child daily opportunities to use large muscles.

Let your child spend time inside and outdoors and have space and freedom to use large muscles. Join your child in active play.

- Have a safe outdoor place for your child to run and play.
- Let your child pedal a tricycle outdoors.
- Take music outside to enjoy and dance to.
- Hang a basketball hoop low enough so your child can successfully “make a basket.”
- Toss bean bags into a basket, or a tape circle on the floor.
- Create an obstacle course in your house. Use words like crawl “over” the chair. Slide “under” the table. Slither like a snake “between” with a door.

**What are gross motor skills?**
Gross motor skills are the abilities required to control the large muscles of the body for walking, jumping, skipping, and more. Gross motor skills help a child gain strength and confidence in his/her body. It also helps them get exercise and physical activity.

**What are fine motor skills?**
Fine motor skills are the abilities required to control the small muscles in the body to develop skills like coloring with a crayon, writing with a pencil, or cutting with scissors.

If you have concerns about your child’s gross or fine motor skills, you can contact the early learners department in your school district for a screening.

Note: Please check the calendar for detailed activities each day.
Introduce your child to numbers and counting.

Use number words and point out written numerals as you and your child do things together.

- “I need you to put 3 forks and 3 plates on the table.”
- “Pick out 4 apples and put them in this bag.”
- “See if you can stack 6 pennies.”
- “Can you put 4 blocks in a row?”

Involve your child in number and counting activities.

- Play “Simon Says.” Say to your child, “Simon says clap your hands 5 times.” “Simon Says take 3 steps forward.”
- “Show me 4 fingers on your hand.”
- “Show me 5 fingers on your hand.” “Take one finger away. How many fingers do you have left?”

Read, tell stories, sing songs and say rhymes about numbers and counting with your child.

- Read or sing Five Little Monkey’s Jumping on the Bed.
- Sing counting songs such as “This Old Man.”

Parent and Teacher Corner

Early math skills are learned through every day play. Children learn these skills through measurement vocabulary like big/small, full/empty, slow/fast, a lot/a little. Children can learn math in multiple opportunities during the day from going to the grocery store or to the laundromat. Make learning fun! Talking is teaching!

Make “going to Kindergarten” plans with your child.

Visit your child’s school and preview school activities.

Attend your school’s family open house, parent night or “meet the teacher day.” Here are some things to do when you visit:

☐ Explore the classroom. Look at the books and materials, find out where the children store backpacks, and hang coats.
☐ Find out about the daily schedule for your child’s class so you can talk about it at home.
☐ Ask when do they have story time, lunch, outdoor play and rest time. Children understanding their schedule helps with transitions.
☐ Locate the restrooms and water fountains.
☐ Look for the cafeteria, the playground, the principal’s office, the nurse’s office, media center and other special features of the school.

Practice going to Kindergarten.

☐ Begin to gather school supplies with your child.
☐ Play school with your child. Take turns being the teacher. Have story time, sing songs, draw pictures, play a game.

Maintain predictable family routines.

☐ Establish a regular bedtime for your child. American Pediatrics recommends 10-13 hours of sleep per night for children ages 3-5.
☐ Be prepared for your morning “before school” times. Getting everyone up and off to school can be hectic. Planning and getting organized the night before can eliminate transition problems for your child and a hassle free morning.
☐ Designate a place for lunch boxes and backpacks that need to go to school so you aren’t scrambling in the morning.

Parent and Teacher Corner

The first days of school are often tough for both young children and parents. When you say goodbye, reassure your child that you will see him or her later. Children don’t understand time so mention a specific time and a concrete activity, for example “I will pick you up after you have had lunch and gone out to play.”

</table>
Help your child learn personal information.

Involve your child in learning personal information about themselves.

☐ My name is __________________________ (includes child’s first and last name.)
☐ I am a _________________________ (girl or boy).
☐ My mother’s name is _________________________________
☐ My father’s name is ___________________________________
☐ My address is ____________________________________________
☐ My phone number is _________________________

Learning personal information is one of the most important lessons you can teach your child in case he or she gets lost or accidentally separated from you.

Ask the questions in different ways because in an emergency you don’t know how your child will be asked.

When I taught this information I asked the questions in different ways. One day I might say, “What is your name?” The next day I might ask, “What’s your full name?”

When asking about an address I would say, “What is your address?” The next day, I would ask, “Where do you live?”

<td>Help your child practice writing his/her last name.</td>
</tr>
</tbody>
</table>
Invite your child to think and solve problems.

Ask questions:
- “Wow that is a tall tower! How many blocks did you use to make that structure? 1, 2, 3, 4. You used four blocks to make that tower.”
- “Do you have your raincoat and umbrella today? How does the raincoat protect you when it is cold and raining?”
- “I noticed how you drew a triangle on top of the square to make a structure with a roof. How are those two shapes different?”
- “I wonder if we can build a tower out of marshmallows or sticks.”
- “What would happen if it started raining on our walk to school?”
- “I wonder why the leaves are turning yellow and brown.”

Play pattern games with your child.
- Create a movement pattern and ask your child to repeat it. For example: -step-step-jump, step-step-jump (take 2 steps forward, then jump)
- Start a pattern using objects and ask your child to, “Make a pattern just like this one.” For example: fork, spoon, fork, spoon

Provide opportunities to experience and resolve challenges cooperatively.
- Give your child lots of time to play with other children. Encourage activities that involve sharing such as blocks, crayons, play dough and dress up clothes.

Provide opportunities that encourage thinking and problem solving.
- Work a puzzle together.
- Play with playdough.
- Measure and pour water or sand.
- Build with LEGO. Compare sizes, shapes and colors.

Parent and Teacher Corner

Following directions is an important skill for being successful in Kindergarten. Give your child opportunities to be in activities where he/she is asked to listen and follow directions for short periods of time like story times. Prior to an activity, talk to your child about the expectations. This helps your child transition easier. After the activity, talk about what he/she enjoyed and praise him/her for sitting, listening and/or participating in the proper manner. “I liked how you sat and listened to the story. You were a good example for other children to understand how to listen with your whole body.”

“Learning to follow directions can be a challenge for young children. This video contains tips for teaching young children to listen and follow directions.” — Sixty Second Parent

</tbody>
</table>
Help your child become aware of letters and words at home and in the community.

Encourage your child to “read” familiar signs.
- Give your child printed materials such as magazines, grocery store ads, and menu from your favorite restaurants to play with.
- Invite your child to “read” road and business signs you as you drive.

Give your child opportunities to recognize and name letters of the alphabet.
- Encourage your child to find letters in his or her name in signs that you see.
- Read alphabet books and allow him or her to name the letters he or she recognizes.

Help your child recognize his or her own first name in print.
- Say each letter in your child’s name out loud when you write his or her name.
- Add alphabet letter magnets that are found in your child’s name on the refrigerator or a cookie sheet for your child to play with.
- Encourage your child to arrange the letters in the correct order using his or her name.
- Place the alphabet letter magnets in a bag and pull out a letter one at a time and name them.

Print awareness is a necessary skill children need to begin to learn to read. To recognize letters and understand that each letter has a meaning will help a child begin to understand how words are formed. As a parent/teacher, you can build print awareness skills at home/school by reading books, making letters, words and print outside of the home a part of every day.

</table>
Make math a “hands on” learning experience for your child.

Use recycled materials such as small boxes, paper towel tubes, and bottle tops to involve your child in addition and subtraction and “more” or “less” activities.

- Pretend you are a zookeeper. Put 3 animals in one cage and 5 animals in another. Say to your child, “Show me the cage that has more animals.”
- Add variety to math games. Use paper towel tubes as tunnels for the counting bears and small boxes as garages for cars.
- How many forks, napkins and spoons do we need to make sure each person gets one?

Include addition and subtraction words as you talk with your child.

- Make a recipe with your child. Use math words like first, second and third to describe the steps.
- Talk about measurements as you use measuring cups and spoons.
- “You have 5 crackers and I have 3. Do you have more crackers or fewer crackers than I do?”
- “You put 4 crayons in a box. Now add 2 more. How many crayons are in the box?”

Explore Measurement

- Measure with straws, sticks, counting bears, shoes, paperclips.
- Are you taller or shorter than your siblings?
- Help your child measure your foot and then measure his or hers.
- Use words like smallest to largest, shortest to longest, tallest to heaviest.

Tell stories and read books that include math ideas, books in which characters are added or subtracted as the story progresses.

- Read number books such as Five Little Ducks. As a duck goes away, ask your child how many ducks are left.

Research shows that the best time to introduce math concepts to young children is between ages of birth to five because this is the time their brain is rapidly developing. Young children learn best with hands-on experiences. The home and classroom are full of opportunities to integrate math into children’s routines and activities through play that involves games, songs, and books that are already a part of the child’s day.

All parents/legal guardians of children who will be five years of age on or before September 1, 2019 are encouraged to register their children for kindergarten.

Early registration begins as early as January 2019 for the 2019-2020 school year. Check with your local school district for your kindergarten registration information.

Paperwork Required

In most cases, the parent/legal guardian will need to bring the following for kindergarten registration:

- Child’s official birth certificate (with raised seal)
- Proof of residency (required for all registrants) – copy of signed mortgage, contract to build or lease agreement showing the owner/resident’s name and address OR TWO of the following items:
  - Utility bills which have the name and address of the resident
  - Valid driver’s license
  - Voter registration card
  - State medical card
- Notarized affidavit of residency from the parent or person with whom the child is residing, affirming that the child eats and sleeps at the residence.

Health Requirements

All students entering kindergarten must provide documentation of a current physical examination and immunizations PRIOR to STARTING school AND proof of an eye AND dental exam. You do not need proof of a physical, eye or dental exam to register your child.

It is recommended that you schedule appointments for your child’s kindergarten physical, eye and dental exam by April! Students who do not have physical, eye and dental exams by the first day of school will NOT be allowed to attend school.
Local Libraries

Library storytimes boost language skills and reading readiness through stories, songs, fingerplays, and rhymes.

Look for your library's storytime schedule on their website or give them a call.

Discover the Path of Early Learning

The Born Learning Trail

The Born Learning Trail is a series of learning activities that any adult can play with young children outdoors in nature’s classroom. The design of Born Learning Trails helps adults interact with children to boost language and literacy development and to help caregivers understand how to best support early learning in everyday moments. A trip to the playground or a stroll through the park is a great time to build your child’s language skills—even when there is not a Born Learning Trail installed.

There are 10 signs on the Born Learning Trail, each including activities such as Imagine! Create! Pretend!, which encourages the caregiver to spur the child’s imagination and storytelling skills and See! Say! Point! Read!, which builds letter and sound recognition through word play and rhymes.

There are four Born Learning Trail Locations in our communities:

» Channing Park - 35 Rugby Trail, Elgin 60120
» Copper Springs Park
380 Copper Springs Lane, Elgin 60124
» Illinois Park Center for Early Learning
1350 Wing Street, Elgin 60123
» Willard Elementary School
370 W Spring Street, South Elgin 60177

To learn more about the Born Learning Trails, visit www.uwelgin.org/bornlearningtrails.

The Elgin Partnership for Early Learning

The Elgin Partnership for Early Learning (EPEL) is a collaboration that partners with the Elgin community to prepare children for success in school and life. EPEL’s website is designed to help Parents and Caregivers find the resources you need to best serve your child in the Elgin community.

You will find:
» Community Resources
» Professional Services
» Confidential Developmental Screenings
» Child Care Opportunities
» Parent/Caregiver Resources

Call our toll-free 844-KID-INFO line to speak to someone in English or Spanish to answer questions about childcare, parenting support and resources. Give us a call!

Children and Technology

From the Experts...

Children Younger Than 18 Months:
Digital media (computers, iPads, & TV) should be limited to video chatting only (FaceTime, Skype).

Children Ages 18-24 Months:
Digital media introduced should be high quality and it should be viewed with a parent or caregiver.

Children Ages 2-5 Years:
Digital media should be high quality, co-viewed, and limited to 1 hour a day.

Tips & Tricks

You are the bridge between the digital and physical world.
Ask questions! Point to pictures, talk about colors and shapes, and sing!

Create a Family Media Plan.
Designate screen-free zones, screen-free times, and place device curfews.

Be your child’s media mentor!
Technology is great when used appropriately. Be a model by reading together, viewing together, and engaging together in any media.

A Few Milestones*

By 3 years of age, children often:
» Feed themselves
» Hold a crayon well
» Use the toilet with some help
» Kick a ball forward
» Pedal a tricycle
» Recognize sounds in the environment
» Remember what happened yesterday
» Know where things usually belong
» Look through a book alone
» Count 2 to 3 objects
» Match circles and squares
» Use 3-5 word sentences
» Ask short questions
» Know first and last name
» Imitate housework or help with tasks

By 4 years of age, children often:
» Hold a pencil
» Try to write their name
» Try to buckle, button and lace with help
» Pour from a small pitcher
» Use the toilet alone
» Catch a bouncing ball
» Like to know what happens next--are inquisitive
» Sort by shape and color
» Follow 3 instructions given at once
Colors
red
green
yellow
purple
blue
orange
black
brown

Numbers
1 one
2 two
3 three
4 four
5 five
6 six
7 seven
8 eight
9 nine

By 4 years of age, children often (continued):
» Identify situations that would lead to happiness, sadness or anger
» Enjoy rhyming and nonsense words
» Want explanations of “why” and “how”
» Enjoy tag, hide-and-seek, and other games with simple rules

By 5 years of age, children often:
» Draw simple figures of things they imagine
» Dress and undress themselves (may need supervision)
» Walk downstairs, alternating feet without using a handrail
» Climb a ladder
» Know the sequence of reading a book, from left to right and top to bottom
» Copy their own name (mostly using large and irregular letters)
» Know front and back of clothes
» Use 6 words in a sentence
» Enjoy riddles and jokes
» Modify language when talking to a younger child
» Protect younger children
» Talk about emotions and preferences
» Invent make-believe games with simple rules

*It is important to remember these are only generalizations to be used to identify developmental milestones for children. Every child develops at different rates, and parents should consult their pediatrician if they are concerned with their child’s development.
