

Notice Regarding 2019 Wellness Program

The School District U-46 Wellness Program is a voluntary wellness program available to all employees. The program is administered according to federal rules permitting employer-sponsored wellness programs that seek to improve employee health or prevent disease, including the Americans with Disabilities Act of 1990, the Genetic Information Nondiscrimination Act of 2008, and the Health Insurance Portability and Accountability Act, as applicable, among others. If you choose to participate in the wellness program you will be asked to complete a voluntary health risk assessment or "HRA" that asks a series of questions about your health-related activities and behaviors and whether you have or had certain medical conditions (e.g., cancer, diabetes, or heart disease). You will also be asked to complete a biometric screening, which may include a blood test for blood glucose and cholesterol. You are not required to complete the HRA or to participate in the blood test or other medical examinations. There are alternative wellness activities that you can complete.

However, any benefit eligible employee who earns 100% of their Rally Rewards will be eligible for a wellness incentive of \$260. (Spouses must also be earning 100% to be eligible for an additional wellness incentive of \$260.) Activities are tracked on United Healthcare's Rally portal and can be earned in any combination of activities between January 1, 2019 and December 31, 2019. Although you are not required to complete the HRA or participate in the biometric screening, only employees and spouses who earn 100% of their Rally Rewards, will receive the \$260 wellness incentives.

The information from your HRA and the results from your biometric screening will be used to provide you with information to help you understand your current health and potential risks, and may also be used to offer you services through the wellness program, such as health coaching, disease management, care coordination, weight loss or pregnancy programs. You also are encouraged to share your results or concerns with your own doctor.
