March PAWS Parent/Guardian Tip

Begin helping your child create good habits for life. Good habits include being on time to school and class, prepare your things and have them all ready the night before, get 8-10 hours of sleep each night. If you or a family member finds yourself in a conflict, breathing can help calm you in a tense situation with another individual. Also, removing yourself from the situation and agreeing to talk about it later can help to have a calm conversation.
