- Daily Herald - From publishing house to classrooms: U-46 pursues property for new elementary school

By: Allcia Fabbre

Date: April 23, 2024

Elgin area school District U-46 official plan to purchase the David. C Cook publishing House property at 850 N. Ave. for \$2.4 million.

The more than nine acres that currently make up the David C. Cook Publishing House in Elgin could soon be home to Elgin Area **School District U-46's** newest elementary school.

U-46 school board members on Monday backed an agreement to buy the property, totaling 9.16 acres at 850 N. Grove Ave., for \$2.4 million.

The land is four blocks west of McKinley Elementary School in Elgin, one of the district's oldest schools.

Constructed in 1887, McKinley Elementary sits on 2.4 acres, making reconstruction or expansion at its current site difficult, district officials said. Acquiring the publishing house property would allow the district to build a "state of the art" school to replace McKinley.

"This is a unique property that meets our acreage requirements," U-46 Chief of Staff Brian Lindholm said of the publishing house property. He noted the land had recently become available at a "competitive price."

Lindholm said the district recognizes the "historical and architectural" significance of the publishing house property, which Elgin City Council members once sought to landmark. He said the district would work with the Northeast Neighborhood

Association in Elgin “to understand their perspective” of the property and keep them abreast of the district’s plans.

A new elementary school to replace McKinley could be ready for students as early as the 2027-2028 school year, Lindholm said.

The new school is part of \$380 million in building projects and improvements envisioned for the district over the coming years. Last year, voters approved borrowing \$179 million to help make those building projects a reality.

School board members on Monday also approved seeking bids to sell the former Woodland Heights Middle School building at 900 S. Park Blvd. in Streamwood. The school, built in 1958, was last used by the district during the 2011-2012 school year. After its closure, the district leased the building to Parkland Preparatory Academy. However, Lindholm said the building has sat vacant for several years.

Lindholm said the district recently was approached by a developer wishing to use the former elementary school as a private therapeutic day school. State law requires the district to advertise any property it will sell and seek bids for the sale. Board members set the minimum price for the property at \$1.2 million. Final bids are due to the district on May 13.

U-46 board honors finalists in National Merit Scholarship Program

By: Tara Burghart, Elgin Area School District U-46
Date: April 22, 2024

From left, Raiyan Hasan of Bartlett High, Samantha Havener of Elgin High, Arav Pate of Bartlett High, and (not pictured) Marcy Medendrop of Bartlett High are four National Merit Scholarship finalists from Elgin Area School District U-46.

The Elgin Area **School District U-46** board recently honored four high school seniors who are finalists in the 69th annual National Merit Scholarship Program.

Samantha Havener of Elgin High School and Raiyan Hasan, Macy Medendorp, and Arav Patel of Bartlett High School will compete for one of nearly 7,500 National Merit Scholarships that together are worth nearly \$28 million. The scholarships will be awarded this spring.

The U-46 students placed among the top 1 percent of juniors nationwide who entered the 2024 National Merit Scholarship Program by taking the 2022 PSAT, which served as the initial screening. They advanced to the finals based on their academic record, participation in school and community activities, demonstrated leadership abilities, employment, and honors and awards received. The students received Accent on Achievement certificates from the Board of Education.

Raiyan said he felt his hard work paid off when he learned about being named a National Merit Finalist. He's still deciding on which college to attend, but the University of Illinois at Urbana-Champaign and Georgia Institute of Technology are among his top choices.

"I enjoyed my time at U-46, and one of my favorite parts was the class environment of Bartlett High's STEM Academy," he said. "All of my teachers have been very supportive and helpful, and my classmates motivate me to do my best."

For the last two years, Samantha has been a part of the Dual Credit program, attending school full-time at Elgin Community College and simultaneously earning college and high school credit. She said she's grateful U-46 provided the Dual Credit option.

"This program gave me a much better understanding of how college really works," she said. "In addition, the ability to complete an associate's degree for free, along with obtaining my high school diploma, is an opportunity I would not have had nearly anywhere else."

While she hasn't made her final college decision, she's been accepted to the Massachusetts Institute of Technology (MIT) and considers it her top choice. She will likely major in mechanical engineering with a focus in robotics.

Arav said he was first shocked, and then excited and grateful, when he learned he had been named a National Merit Finalist. He's still deciding on what college to attend, but he plans to major in either engineering or business. As he prepares to graduate from U-46, Arav said he'll remember all the teachers who supported him along the way.

“My U-46 education was highlighted by teachers who care. Each year, I've had a teacher on my side for more than just the 50 minutes allotted per day,” he said. “Whether it be through the struggles of the college process or simply being in high school, I always had at least one teacher I could turn to for guidance.”
