December 20, 2021

Sue Kerr, President Members of the Board of Education And Community Residents of School District U-46 Elgin, Illinois 60120

We are pleased to submit the Annual Comprehensive Financial Report (ACFR) of School District U-46, Elgin, Illinois, (the District) as of and for the year ended June 30, 2021. The audit was completed and the Independent Auditor's Report was issued on December 20, 2021.

Management Responsibilities

Management of the District is responsible for establishing and maintaining a comprehensive framework of internal control to provide a reasonable basis for asserting that the financial statements are fairly presented and to ensure that adequate accounting data is properly recorded to allow for the preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (GAAP). The information contained in this report is based on the comprehensive framework of internal control that has been established for this purpose. Because the cost of internal control should not exceed anticipated benefits, the objective is to provide reasonable, rather than absolute, assurance that the financial statements are free of any material misstatements.

Responsibility for the accuracy of the presented data and the completeness and fairness of the presentation, including all disclosures, rests with the District. To the best of our knowledge and belief, the enclosed data, as presented, is accurate in all material respects; that it is presented in a manner designed to fairly set forth the financial position and results of operations of the District as shown by the disclosure of all financial activity of its various funds; and that all disclosures, necessary for public understanding of the District's financial status, have been incorporated within this report.

Financial Reporting

The ACFR includes all funds of the District and is presented in three sections: Introductory, Financial, and Statistical. The Introductory Section includes this transmittal letter, the District's organizational chart, and a list of principal officers and elected officials. The Financial Section includes the Independent Auditor's Report on the financial statements and schedules referenced below under the Independent Audit heading. The Management's Discussion and Analysis (MD&A) is immediately following the Independent Auditor's Report and provides a narrative introduction, overview and analysis of the basic financial statements. The MD&A complements this letter of transmittal and should be read in conjunction. The remainder of the Financial Section contains the audited, basic financial statements including notes to the financial statements, required and other supplemental information such as the combining and individual fund financial statements and schedules. The statistical section includes selected financial and demographic information, generally presented on a multi-year basis.

Independent Audit

The School Code of Illinois and the District's adopted policy require an annual audit of the books and accounts of the District by an independent certified public accountant in conformance with prescribed standards and legal requirements. The certified public accountant is selected by the Board of Education. The selected certified public accountants, RSM US LLP, have issued an unmodified ("clean") opinion on the District's financial statements for the year ended June 30, 2021 (pages 1 - 2). The submission of the ACFR is intended to meet these annual requirements.

The District is required to undergo an annual single audit in conformity with the provisions of Title 2 U. S. Code of Federal Regulations (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Information related to this single audit, including a schedule of federal financial assistance and the independent auditor's reports on the internal control structure and on compliance with applicable laws and regulations, is included under separate cover.

DISTRICT PROFILE

Legal Autonomy and Fiscal Independence

School District U-46 is organized under the School Code of the State of Illinois, as amended. The District exists as a legal entity deriving its just powers from the General Assembly of the State of Illinois through the State Board of Education for the purpose of providing a system of free public education. The District constitutes a body politic and corporate with all powers as prescribed by laws including but not limited to the power to sue and be sued, purchase, hold and sell personal property and real estate, and enter into such obligations as are authorized or implied by law. It has the statutory authority to adopt its own budget, levy taxes and issue bonded debt without the approval of another government and it is not considered a component unit of any other entity.

The legal authority of the Board of Education is transmitted through the superintendent or designee along specific paths from person to person as shown in the Board-approved organizational chart of the District. The lines of authority on the organizational chart (page viii) represent direction of authority and responsibility. The Board of Education expects the superintendent/designee to keep the administrative structure up-to-date with the need for supervision and accountability throughout the school district.

Size and Scope

The District is the second-largest school district in Illinois. Covering 90 square miles, the District is located approximately 45 minutes northwest of Chicago. The District serves nearly 37,000 children in grades Pre-K-12 at our 53 school buildings, one alternative high school and two pre-K centers throughout the communities of Bartlett, Elgin, Hanover Park, South Elgin, Streamwood, Wayne, and portions of Carol Stream, Hoffman Estates, St. Charles, Schaumburg, and West Chicago.

The District offers general, special and vocational education and continues to support and expand various programs including Dual Language programs, gifted offerings, social and emotional supports, and services for students with special needs. Community involvement plays a valuable role within the District and the opportunities to engage parents, businesses and community leaders have continued to increase.

Budget Control

All governmental funds of the District adopt annual budgets. A report of actual activity compared to budget is prepared by the Finance Department and reported to the District's Board of Education on a monthly basis. Account balances are compared to the annual budget with accumulation to the cost center, fund and total District levels. Full disclosures are made if extraordinary variances appear during the year. Further budgetary information such as the budget process and legal level of budgetary control are addressed in Notes to Required Supplementary Information – Note 1 (page 65).

ECONOMIC CONDITION

Local Economy and Economic Outlook

The COVID-19 global pandemic has caused varying degrees of uncertainty for all school districts. Due to the pandemic, the state's unemployment rate has remained in a range between 7.0 and 7.7 percent from January 2021 to August 2021. Although local property tax revenue is the district's largest revenue source, the State of Illinois contributes approximately 35% of our funding. Prior to the pandemic the State of Illinois was in financial difficulty and was often slow in paying funds vouchered by the State Board of Education for mandated categorical payments, however the adoption of the Evidence- Based Funding for Student Success Act (EBF) has positively impacted the District with increased funding. Due to the additional Federal funds provided to the state, categorical payments have been paid timely during this past year. The State Teachers Retirement System pension obligation continues to be underfunded and there are proposals to shift that cost to school districts.

Approximately half of the District's revenues are sourced from property taxes. The property tax base is derived from the Equalized Assessed Valuation (EAV) of the property within the District's boundaries. District property values peaked at \$6,112,265,852 in tax year 2009 and have declined each year thereafter until hitting a low of \$4,070,166,849 in tax year 2014. The EAV over the last six tax years has increased and the most recent EAV, 2020 tax year, is \$5,392,991,871 which is an increase over the prior year of 2.37 percent. Property tax revenue growth from year to year closely tracks the Consumer Price Index (CPI) for the related period. Within the past ten years CPI has peaked at 3.0 percent in 2011 and hit a low of 0.7 percent in 2015. In 2020, the CPI was 1.4 percent, between the 10-year average of 1.8 percent and the 3-year average of 1.9 percent.

Long-term financial planning

The District continues to review all expenditures to assure that the district is making efficient and fiscally responsible decisions. With its conservative budgeting, U-46 has weathered both the recession and the recent Illinois budget crisis. School District U-46 has earned the State Board of Education's top financial profile rating called "financial recognition" in fiscal year 2020 for the ninth consecutive year.

During this same time period the District's General Fund balance has increased \$179,737,318 from \$144,935,342 in fiscal year 2012 to \$324,672,660 in fiscal year 2021. Over the next five years management will continue to maintain a minimum balance of 20 percent of annual operating fund expenditures to operating fund balance (Educational, Operations and Maintenance, and Transportation make up the District's Operating Fund).

In 2015 the District refunded several debt issuances originally issued from 1999 to 2009 with the purpose of improving interest rates and smoothing out the debt service payments over the next several years. As of June 30, 2021, the District's net general bonded debt was \$218,531,075, down from \$405,899,465 (46%) a decade ago. Three (3) bonds are set to expire in just over one (1) year (January of 2023) along with debt certificates. Management will continue to identify and recommend solutions for maintaining a responsible level of debt while addressing the District's capital project needs and fully anticipates the outstanding debt to decline over the next few years.

Projected Enrollment

The District's enrollment decreased 3.5 percent from 2020 to 2021 and is projected to decrease approximately 2 percent per year over the next three years. The COVID-19 global pandemic was a factor in the decreased enrollment for 2021. Lower birth rates in the area over the last 5 years is the primary factor for the reduction in the projected enrollments. For further historical enrollment information refer to District Enrollment by school in the Statistical Section (page 116).

Age of School Buildings

In addition to the 53 school buildings, one alternative high school and two Pre-K centers the District operates six other buildings. A majority of the buildings built before 2000 have had additions and/or renovations since they were built. The average age of the 53 school buildings, one alternative high school and two Pre-K centers, not including subsequent renovations, is 53.5 years. For the buildings that had an addition and/or renovation the average age of the last addition and/or renovation is 21 years. The District is in the process of developing an Educational Facility Master Plan to address the adequacy and readiness of the schools.

Relevant Financial Policies

The District's budget serves as the guide to direct and control expenditures and is the spending plan of the ensuing year.

The Board of Education (the Board) adopted the annual budget (September 2020), subsequent to a public hearing and prior to filing the annual tax levy. The Board recognizes the right of the public to be informed about the budgeting of public tax monies and therefore made the budget available for public examination at least thirty days prior to the final adoption as set forth in the Illinois School Code. The Superintendent

or designee has posted the District's final budget, itemized by receipts and expenditures, on the District's official website, and notified parents or guardians of the budget's posting and provide the website's address. The Board may amend the budget by the same procedures that adhere to the original adoption when transfers exceed the ten percent limitations. The Board may authorize the treasurer to make loans, interfund transfers, and transfer within funds from the Operations and Maintenance Fund, Educational Fund, Transportation Fund, and/or Working Cash Fund in accordance with the Illinois School Code.

The District seeks to maintain year-end fund balances no less than 20 percent of the annual expenditures to operating funds.

Major Initiatives/ Strategic Goals

The District's Strategic Plan is the roadmap we will use to improve District operations, student achievement, staffing, and community engagement.

While approved by our Board of Education, this Strategic Plan represents the vision of our community. Hundreds of community members, from employees to local leaders, participated in the development of the plan. Administration and Board members, working with the school consultant firm, District Management Council, led efforts to solicit community feedback through interviews, several District-hosted public meetings and calls for feedback via the District's website, social media sites and newsletters. We carefully and collaboratively wrote and re-wrote drafts to put forth a final vision that represents the shared values and goals of our many partners.

The Strategic Plan aims to guide both Board members and employees for the next five years as they work together and with students, families and our community at large to meet these four aspirational goals and priorities.

AWARDS AND ACKNOWLEDGEMENTS

The Association of School Business Officials (ASBO) International has awarded School District U-46 its Certificate of Excellence in Financial Reporting for having met or exceeded the program's high standards for financial reporting and accountability for the past five fiscal years. The District was recognized for its Annual Comprehensive Financial Report for the fiscal year ending June 30, 2020.

A Certificate of Excellence is valid for a period of one year only. We believe that our current annual comprehensive financial report continues to meet the program's requirements and we are submitting it to the ASBO to determine its eligibility for continued certification.

It is our intention that this Annual Comprehensive Financial Report will provide the District's management, outside investors, interested District residents, and any other stakeholders with a meaningful financial presentation. We hope that all readers of this report will obtain a clear and concise understanding of the District's financial condition as of June 30, 2021.

The preparation of the ACFR on a timely basis was made possible by the dedicated service of the Finance Department staff. Each member of the Finance Department has our sincere appreciation for the contributions made in the preparation of this report.

In closing, without the leadership and support of the School District U-46 Board of Education, preparation of this report would not have been possible.

Respectfully submitted,

Dale Burnidge

Independent Auditor's Report

Members of the Board of Education School District U-46 Elgin, Illinois

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of School District U-46, Elgin, Illinois (the District) as of and for the year ended June 30, 2021, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of School District U-46, Elgin, Illinois as of June 30, 2021, and the respective changes in financial position thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

THE POWER OF BEING UNDERSTOOD AUDIT | TAX | CONSULTING

Emphasis of Matter

As discussed in Note 1 to the financial statements, during the year ended June 30, 2021, the District implemented the provisions of Governmental Accounting Standards Board (GASB) Statement No. 84, *Fiduciary Activities,* which required a restatement to the June 30, 2020 net position and fund balance. Our opinion is not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the required supplementary information, such as management's discussion and analysis (pages 3-12), schedules of net pension and other postemployment benefits (OPEB) liabilities, employer contributions, and budgetary comparison information and related notes (pages 57-67), be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The accompanying supplementary information, such as the combining and individual fund financial statements, schedule of bonded debt and interest requirements, and the other information, such as the introductory and statistical sections are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The accompanying supplementary information as listed in the table of contents is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the accompanying supplementary information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The other information, including the introductory and statistical sections, has not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

Chicago, Illinois December 20, 2021

RSM US LLP

REQUIRED SUPPLEMENTARY INFORMATION - MANAGEMENT'S DISCUSSION AND ANALYSIS

Management's Discussion and Analysis For the Year Ended June 30, 2021

The discussion and analysis of School District U-46's (the District) financial performance provides an overall review of the District's financial activities for the year ended June 30, 2021. The management of the District encourages readers to consider the information presented herein in conjunction with the basic financial statements to enhance their understanding of the District's financial performance. Certain comparative information between the current year and the prior year is required to be presented in the Management's Discussion and Analysis (the MD&A).

Financial Highlights

- The assets and deferred outflows of resources of the District exceeded its assets and deferred outflows
 of resources at the close of the fiscal year by \$208.7 million (net position).
- In total, net position increased by \$77.3 million. This increase was primarily the result of lower than expected actual expenses and higher than expected actual revenues.
- General revenues were \$523.7 million or 63.1 percent of all revenues. Program specific revenues, in the form of charges for services and grants, were \$306.3 million or 36.9 percent of total revenues of \$830.0 million.
- Overall, the combined revenues of the District's governmental funds were \$38.3 million more than
 expenditures. This surplus increased the District's governmental funds' combined fund balance by
 10.6 percent to \$399.7 million from \$361.4 million in the prior year, restated.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the District's basic financial statements. The basic financial statements are comprised of three components:

- Government-wide financial statements.
- Fund financial statements, and
- Notes to basic financial statements

This report also contains other supplementary information in addition to the basic financial statements.

Management's Discussion and Analysis (Continued) For the Year Ended June 30, 2021

Government-wide financial statements

The government-wide financial statements are designed to provide readers with a broad overview of the District's finances, in a manner similar to a private-sector business.

The statement of net position presents information on all of the District's assets, deferred outflows of resources, liabilities, and deferred inflows of resources with the difference reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

The statement of activities presents information showing how the District's net position changed during the fiscal year being reported. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods.

The government-wide financial statements present the functions of the District that are principally supported by taxes and intergovernmental revenues (governmental activities). The governmental activities of the District include instruction (regular education, special education and other), support services, community services, payments to other governments and interest on debt.

Fund financial statements

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the District are considered governmental funds (the District maintains no proprietary or fiduciary funds).

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a school district's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The District maintains six individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures and changes in fund balances for the District's major funds, the General Fund (the General Fund consists of four accounts: Educational Account, Tort Immunity Account, Operations and Maintenance Account and Working Cash Account), and the Debt Service Fund. Management has determined the Debt Service Fund to be major due to public interest. Data from the other four governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these nonmajor governmental funds is provided in the form of combining statements elsewhere in this report.

Management's Discussion and Analysis (Continued) For the Year Ended June 30, 2021

The District adopts an annual budget for each of the funds listed above. A budgetary comparison statement has been provided for each fund to demonstrate compliance with this budget.

Notes to basic financial statements

The notes to basic financial statements provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

Other information

In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning the District's progress in funding its obligation to provide pension benefits to its employees and to provide for the District's retiree's health plan.

District-Wide Financial Analysis

The District's net position increased by \$77.3 million. At year-end, total net position was \$208.7 million (see Table 1).

The District's financial position is the product of many factors. However, a few events of the last year stand out:

- The District retired \$35.2 million of general obligation bonds, debt certificates and related discounts and premiums and accreted interest on long-term debt during the year.
- The District recognized \$284.2 million in property taxes for general purposes, which exceeded the revenue from the prior year by \$6.9 million.
- During the year, the District received \$0.7 million in interest and investment earnings, a decrease of \$5.6 million over last year.

No adjustments were made to the 2020 numbers above for the District's implementation of GASB Statement No. 84.

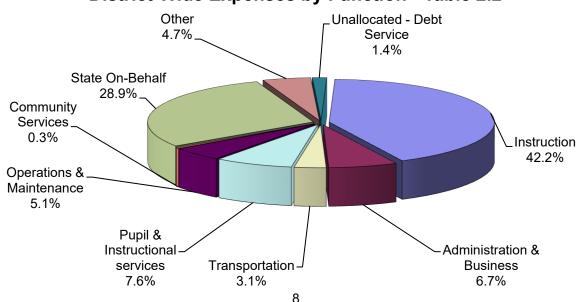

Management's Discussion and Analysis (Continued) For the Year Ended June 30, 2021

The District's total revenues were \$830.0 million. General revenues, including taxes and Evidence Based Funding were 63.1 percent of the total or \$520.0 million. Property and replacement taxes increased \$8.5 million over the prior year or 2.7 percent. Evidence Based Funding brought in \$197.0 million, a decrease of \$0.9 million or 0.5 percent. Grants and contributions for specific programs brought in \$84.2 million, an increase of 6.2 percent over the prior year. The total cost of all programs and services in 2021 was \$752.7 million. The District's expenses are predominantly related to instruction and support services (caring for and transportation of students, etc.), which accounted for 69.3 percent of the total expense (see Table 2.2). The District's remaining activities, unallocated debt service, the State's on-behalf allocations of retirement and other post-employment benefits and community services, were 30.7 percent of total expense. Total revenues on the statement of activities surpassed expenses, increasing net position by \$77.3 million from the prior year.

District-Wide Revenues by Source - Table 2.1

District-Wide Expenses by Function - Table 2.2

Management's Discussion and Analysis (Continued) For the Year Ended June 30, 2021

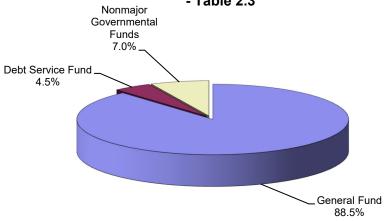

Financial Analysis of the District's Funds

As the District completed the year, its governmental funds reported combined fund balances of \$399.7 million. Revenues for the District's governmental funds were \$728.6 million, while total expenditures were \$690.4 million. Of the revenues and expenditures reported in the governmental funds, \$113.8 million of the revenues and expenditures were attributable to State on-behalf payments. These on-behalf payments include contributions made to Teachers' Retirement System (TRS) and Teachers' Health Insurance Security Fund (THIS) by the State of Illinois on behalf of School District U-46.

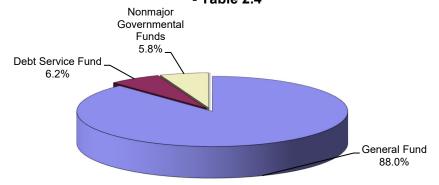

The General Fund experienced a current year surplus of \$37.3 million before other financing sources (uses) and transfers out. This was due to more than expected revenues from state and federal sources. This surplus resulted in an increase in the year-end fund balance to \$324.7 million.

During the year, a portion of the 2020 levy was abated resulting in \$10.4 million being transferred into the Debt Service Fund from the General Fund. This transfer accounted for most of the increase in fund balance after factoring in the deficiency of revenues under expenditures of \$9.8 million. The resulting year-end fund balance in the Debt Service Fund was \$33.2 million.

Revenues by Major Fund and Aggregate Nonmajor Funds - Table 2.3

Expenditures by Major Fund and Aggregate Nonmajor Funds - Table 2.4

Management's Discussion and Analysis (Continued) For the Year Ended June 30, 2021

General Fund Budgetary Highlights

While the District's budget for the General Fund anticipated that revenues would exceed expenditures by \$15.1 million before other financing uses, the actual result for the year was an excess of revenues over expenditures of \$22.2 million. State and federal grants exceeded the budget by \$15.8 million which is attributable to additional funding provided by the CARES Act in response to the COVID-19 pandemic. Regular program expenditures came in under budget by \$20.9 million, offset by an increase in capital outlay expenditures over budget of \$4.6 million. Overall, actual expenditures were below budget by \$16.3 million or 3.2 percent.

Capital Asset and Debt Administration

Capital assets

Table 3 illustrates capital assets, net of depreciation:

Table 3
Capital Assets (Net of Depreciation)
(in millions)

	 2021	2020	Percentage Change
Land	\$ 28.4	\$ 28.4	0.0%
Construction in progress	10.8	28.1	(61.6)%
Buildings	385.3	356.6	8.0%
Transportation equipment	8.0	11.2	(28.6)%
Other equipment	 4.1	5.1	(19.6)%
Total	\$ 436.6	\$ 429.4	1.7%

At June 30, 2021, the District has outstanding commitments relating to construction projects of approximately \$14.0 million.

Additional information about the District's capital assets is included in Note 3 to the basic financial statements.

Long-term Obligations

Table 4 on the following page illustrates the District's outstanding long-term obligations. The District reduced outstanding general obligation bonded debt, debt certificates and related items by \$31.6 million. The pension and postemployment benefit liabilities decreased \$27.2 million primarily due to the prior year IMRF net pension liability which is now in a net asset position and not included in year-end liabilities. Claims incurred but not reported and compensated absences decreased by \$1.5 million. Additional information is available in Note 4 - Long-Term Obligations and Net Pension Asset.

The District is subject to the Illinois School Code, which limits the amount of bond indebtedness to 13.8 percent of the most recent available equalized assessed valuation of the District. As of June 30, 2021, the statutory debt limit for the District was \$744.2 million providing a debt margin of \$573.9 million.

Management's Discussion and Analysis (Continued) For the Year Ended June 30, 2021

The ratio of general bonded debt to assessed valuation and the amount of bonded debt per capita are useful indicators of the District's debt position to District management, residents, and investors. These indicators for the District at the end of fiscal year 2021 were 1.35 percent and \$925, respectively. Due to the increase in taxable property value and the reduction of outstanding bonded debt, the general bonded debt to assessed valuation decreased compared to fiscal year 2020 when the ratio was 1.58 percent. The bonded debt per capita decreased from fiscal year 2020 when it was \$1,059.

Table 4
Outstanding Long-Term Obligations (in millions)

	 2021	2020	Percentage Change
General obligation bonds/debt certificates Other	\$ 252.8 322.0	\$ 284.4 349.2	(11.1)% (7.8)%
Total	\$ 574.8	\$ 633.6	(9.3)%

Factors Impacting the District's Future

At the time these financial statements were prepared and audited, the District was aware of the following existing circumstances that could significantly affect its financial health in the future.

- In 2017, Illinois approved a new law changing the Illinois Pension Code which will shift additional pension costs to the District for the Teachers' Retirement System. At this time, the starting date for the new law has not yet been determined.
- In the future, the District does not plan to issue additional debt to address the improvements needed for its aging facilities. All improvements will be funded using current fund balances. As can be seen in Table 1, at the end of the current fiscal year, the largest portion of the District's net position reflects its investment in capital assets (e.g., land, buildings, and equipment), less any related debts used to acquire those assets that are still outstanding. The District uses these capital assets to provide services to students; consequently, these assets are not available for future spending. Although the District's investment in its capital assets are reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.
- The District is in the process of finalizing an Educational Facility Master Plan (EFMP) to determine the
 future use of buildings, which includes possible decommissioning, repurposing, or demolishing and
 reconstructing of existing buildings.

Management's Discussion and Analysis (Continued) For the Year Ended June 30, 2021

Requests for Information

This financial report is designed to provide the District's residents, taxpayers, and creditors with a general overview of the District's finances and to demonstrate the District's accountability for the money it receives. If you have questions about this report, or need additional financial information, contact the Deputy Superintendent of Operations/CSBO, School District U-46, 355 E. Chicago St., Elgin, IL 60120.

Reconciliation of the Governmental Funds Balance Sheet to the Statement of Net Position June 30, 2021

Total fund balances - governmental funds	9	399,657,196
Amounts reported for governmental activities in the statement of		
net position are different because:		
Capital assets used in governmental activities are not current financial		
resources and therefore are not reported in the funds:		
Capital assets	\$ 803,238,790	
Accumulated depreciation	(366,699,002)	
Net capital assets		436,539,788
Interest on long-term debt is not accrued in governmental funds, but rather is		
recognized when due.		(4,378,221)
Certain revenues that are not recognized in the fund financial statements		
because they are not available are recognized as revenue in the government-		
wide financial statements.		18,409,881
Certain pension-related items are reported in the government-wide financial		
statements but not in the fund statements. These amounts consist of:		
Deferred outflows - pension actuarial adjustments	6,366,557	
Deferred outflows - pension contributions	6,289,515	
Deferred inflows - pension actuarial adjustments	(54,824,698)	
Certain other post employment benefit-related items are reported in the		(42,168,626)
government-wide financial statements but not in the fund statements. These		
amounts consist of:		
Deferred outflows - other post employment benefit actuarial adjustments	21,302,455	
Deferred outflows - other post employment benefit contributions	2,314,359	
Deferred inflows - other post employment benefit actuarial adjustments	(50,917,736)	
		(27,300,922)
Some assets (liabilities) reported in the statement of net position do not require the		
use of current financial resources and therefore are not reported as assets		
(liabilities) in the governmental funds. These assets (liabilities) consist of:		
General obligation bonds	(202,457,389)	
Accreted interest on long-term debt	(33,518,950)	
General obligation debt certificates	(1,048,435)	
Compensated absences	(784,227)	
Other postemployment benefits - District Plan	(28,994,127)	
Other postemployment benefits - THIS	(256,662,793)	
Net pension asset - IMRF	1,518,253	
Net pension liability - TRS	(24,912,130)	
Claims incurred but not reported	(10,624,118)	
Unamortized premiums related to debt issuance	(15,752,302)	
Unamortized discounts related to debt issuance	16,970	
Deferred amount on refunding	1,133,370	(572,085,878)

Reconciliation of the Governmental Funds Statement of Revenues, Expenditures and Changes in Fund Balances to the Statement of Activities Year Ended June 30, 2021

Net change in fund balances — total governmental funds	\$	38,284,144
Amounts reported for governmental activities in the statement of activities are different because:		
Governmental funds report purchases of capital assets as expenditures while governmental activities report depreciation expense to allocate those		
expenditures over the life of the assets.		
·	28,203,792	
Depreciation(2	21,056,947)	
Capital expenditures in excess of depreciation		7,146,845
Some revenues were not collected for several months after the close of the fiscal year and therefore were not considered to be "available" and are not reported as		
revenue in the governmental funds.		(2,345,654)
Repayment of debt principal and accreted interest is an expenditure in the governmental funds, but the repayment reduced long-term obligations in the statement of net position. The following amounts were retired:		
General obligation bonds	15,856,253	
Debt certificates	520,024	
	17,483,753	
Total retired debt		33,860,030
The accretion of interest on long-term debt is not reported as an expenditure in governmental funds but as an addition to principal outstanding in the		
statement of activities.		(3,530,078)
Changes related to pension obligations are reported as deferred inflows and outflows on the government-wide financial statements but not on the fund statements.		
Deferred outflows related to pension expense		(8,994,511)
Deferred inflows related to pension expense		(12,026,771)
Changes related to OPEB obligations are reported as deferred inflows and outflows		
on the government-wide financial statements but not on the fund statements.		0.070.707
Deferred outflows related to other post employment benefit expense		9,970,787
Deferred inflows related to other post employment benefit expense		(15,477,064)
Some revenues and expenses reported in the statement of activities do not provide (use)		
current financial resources and therefore are not reported in the governmental funds.	02 660 754	
	03,660,754	
·	03,660,754)

Amortization of bond premiums	1,328,022	
Amortization of bond discounts	(26,237)	
Amortization of deferred amount on refunding	237,137	20 422 040
		30,423,919
Change in net position of governmental activities	<u>\$</u>	77,311,647

Notes to Basic Financial Statements

Note 1. Summary of Significant Accounting Policies

School District U-46 was incorporated in 1875 and operates as a public school system governed by an elected seven-member board of education. The District is organized under the School Code of the State of Illinois, as amended. The District covers a 90 square mile area extending into three counties, Cook, DuPage and Kane and serves the communities of Bartlett, Elgin, Hanover Park, South Elgin, Streamwood, Wayne and portions of Carol Stream, Hoffman Estates, St. Charles, Schaumburg, and West Chicago.

The accounting policies of the District conform to accounting principles generally accepted in the United States of America (GAAP) as applicable to governments. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The following is a summary of the more significant accounting policies:

Financial Reporting Entity

As defined by generally accepted accounting principles established by the GASB, the financial reporting entity consists of the primary government, as well as component units, which are legally separate organizations for which elected officials of the primary government are financially accountable. Financial accountability is defined as:

- (1) Appointment of a voting majority of the component unit's board, and either a) the ability to impose will by the primary government, or b) the possibility that the component unit will provide a financial benefit to or impose a financial burden on the primary government; or
- (2) Fiscal dependency on the primary government and the possibility that the component unit will provide a financial benefit to or impose a financial burden on the primary government.

Financial benefit or financial burden is created if any one of the following relationships exists:

- (1) The primary government is legally entitled to or has access to the component unit's resources.
- (2) The primary government is legally required or has assumed the obligation to finance the deficits of, provide support to, the component unit.
- (3) The primary government is obligated in some manner for the other component unit's debt.

Based upon the application criteria, no component units have been identified that should be included within the reporting entity.

Government-Wide and Fund Financial Statements

Government-Wide Financial Statements

The government-wide statement of net position and statement of activities report the overall financial activity of the District. Eliminations have been made to minimize the double counting of internal activities of the District. The financial activities of the District consist of governmental activities, which are primarily supported by taxes and intergovernmental revenues.

The statement of net position presents the District's assets and liabilities with the difference reported as net position.

Notes to Basic Financial Statements

Note 1. Summary of Significant Accounting Policies (Continued)

Government-Wide and Fund Financial Statements (Continued)

Government-Wide Financial Statements (Continued)

The statement of activities demonstrates the degree to which the direct expenses of a given function (i.e., instruction, support services, etc.) are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function. Indirect expenses of other functions are not allocated to those functions but are reported separately in the statement of activities. Depreciation expense is specifically identified by function and is included in the direct expense to each function. Interest and other long-term debt related items are considered indirect expenses and are reported separately on the statement of activities. Program revenues include (a) charges paid by the recipients of goods or services offered by the programs (including fees), and (b) grants and contributions that are restricted to meeting the operational requirements of a particular program or are capital in nature. Revenues that are not classified as program revenues, including all taxes, are presented as general revenues.

Fund Financial Statements

Separate financial statements are provided for governmental funds. The fund financial statements provide information about the District's funds. The emphasis of fund financial statements is on major governmental funds, each displayed in a separate column.

The District reports the following major governmental funds:

General Fund

The General Fund is used to account for all financial resources except those required to be accounted for in another fund. The District's General Fund consists of four accounts: the Educational Account, which records direct costs of instruction and administration, including the District's food service operations, the Tort Immunity Account, which records the District's risk financing activities, the Operations and Maintenance Account, which reports all costs of maintaining, improving or repairing school buildings and property and the Working Cash Account, which accounts for financial resources held by the District to be used for temporary interfund loans to other District funds.

Debt Service Fund

The Debt Service Fund (a debt service fund) accounts for the accumulation of resources for, and the payment of, general long-term debt principal, interest and related costs.

The District also reports the following other fund types/funds, aggregated and reported as nonmajor governmental funds:

Special Revenue Funds

The Special Revenue Fund type is used to account for the proceeds of specific revenue sources (other than those accounted for in Debt Service or Capital Projects) that are legally restricted to expenditures for specified purposes. The District's nonmajor special revenue funds are the Transportation Fund, which accounts for all revenues and costs relating to the transportation of pupils and the Municipal Retirement / Social Security Fund, which accounts for the District's share of retirement benefit and social security costs for employees.

Notes to Basic Financial Statements

Note 1. Summary of Significant Accounting Policies (Continued)

Government-Wide and Fund Financial Statements (Continued)

Fund Financial Statements (Continued)

Capital Projects Funds

The Capital Projects Funds are used to account for and report financial resources that are to be used for expenditure for capital outlays, including the acquisition or construction of capital facilities and other capital assets. The District's nonmajor capital projects funds are the Capital Projects Fund, which accounts for financial resources to be used for the acquisition, construction or renovation of major capital facilities, and the Fire Prevention and Safety Fund, which is used to account for the altering, reconstructing and repairing of the existing school buildings of the District.

Measurement Focus and Basis of Accounting and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flow takes place. Nonexchange transactions, in which the District gives (or receives) value without directly receiving (or giving) equal value in exchange, include various taxes, state-shared revenues and various state, federal and local grants. On an accrual basis, revenues from taxes are recognized in the period in which they are intended to finance. Grants, entitlements, state-shared revenues and similar items are recognized in the fiscal year in which all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collected within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the District considers revenues to be available if they are collected within sixty (60) days of the end of the current fiscal period. The District uses 60 days in order to capture reimbursement payments released by the state of Illinois during the month of August. The District also considers property taxes to be available if they are collected within 60 days of the end of the fiscal period and intended to finance the current period.

Significant revenue sources which are susceptible to accrual include property taxes, other taxes, grants, and interest. All other revenue sources are considered to be measurable and available only when cash is received.

Expenditures generally are recorded when the liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences, pension, other postemployment benefits, termination benefits, and claims and judgments, are recorded only when payment is due. General capital asset acquisitions are reported as expenditures in governmental funds.

Notes to Basic Financial Statements

Note 1. Summary of Significant Accounting Policies (Continued)

Real Estate and Other Taxes

Property taxes are levied each year on all taxable real property in the District on or before the last Tuesday in December. The 2020 tax levy was passed by the Board of Education on December 14, 2020, and attached as an enforceable lien on the property as of the preceding January 1. The taxes become due and collectible in March and August 2021 in Cook County and in June and September 2021 in DuPage County and Kane County, and are collected by the County Collector, who in turn returns to the District its respective share. The District typically receives the remittances from the County Treasurer within one month after collection.

The District has recognized as revenue approximately 50 percent of the 2020 tax extension and 50 percent of the 2019 tax extension in the current fiscal year based on estimated collections, as this is the period for which the taxes have been levied (intended to finance). Property taxes are recorded net of estimated allowance for uncollectible accounts. The allowance for uncollectible accounts is based on collection history and is estimated at 1.3 percent of the total levy. As of June 30, 2021, the property tax allowance was as follows:

Fund	Allowance
General Fund	\$ 3,447,371
Debt Service Fund	436,380
Nonmajor Governmental Funds	 356,241
	\$ 4,239,992

The District has recorded a receivable for the uncollected portion of the 2020 taxes extended. The District has recorded a deferred inflow of resources net of any allowance, which approximates 50 percent of the 2020 tax extension which will be recognized as revenue in the following fiscal year, the period for which those taxes were levied.

Revenue from replacement taxes is recognized when collected by the State, prior to disbursement to the District.

Investments

The investments are stated at fair value, based on quoted market prices unless otherwise specified in Note 2, Deposits and Investments.

Prepaid Items

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items. The method used to report prepaid items is the purchase method.

Inventories

Inventories are valued at cost, which approximates market, using the first-in/first-out (FIFO) method. The cost of governmental fund-type inventories are recorded as expenditures when purchased. Year-end balances are recorded as assets. General Fund inventory consists primarily of school supplies.

Notes to Basic Financial Statements

Note 1. Summary of Significant Accounting Policies (Continued)

Capital Assets

Capital assets are recorded at historical cost and depreciated over their estimated useful lives (excluding salvage value). Donated capital assets, donated works of art and similar items, and capital assets received in a service concession arrangement are reported at acquisition value rather than fair value. Estimated useful life is management's estimate of how long the asset is expected to meet service demands.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized. The District maintains a capitalization threshold of \$10,000. All reported capital assets except land and construction in progress are depreciated. Improvements are depreciated over the remaining useful lives of the related capital assets. Depreciation for assets of governmental activities is computed using the straight-line method over the following useful lives:

Buildings 40 years
Transportation equipment 5-10 years
Other equipment 3-10 years

Interfund Transactions

The District has the following types of interfund transactions:

Loans – amounts provided with a requirement for repayment. Interfund loans are reported as interfund receivables (due from or advances to other funds) in lender funds and interfund payables (due to or advances from other funds) in borrower funds.

Transfers – flows of assets (typically cash) without equivalent flows of assets in return and without a requirement for repayment. In governmental funds, transfers are reported as other financing uses in the funds making transfers and as other financing sources in the funds receiving transfers.

Reimbursements – interfund transactions that constitute reimbursement of a fund for expenditures initially made from it that are properly applicable to another fund. Interfund reimbursements are recorded as expenditures in the reimbursing fund and reductions of expenditures in the fund that was originally charged.

Compensated Absences

The District records compensated absences for vacation benefits as a liability in the government-wide financial statements as the benefits are earned if the employees' rights to receive compensation are attributable to services already rendered and it is probable that the District will compensate the employees for the benefits through paid time off or some other means.

Deferred Inflows of Resources, Deferred Outflows of Resources and Unearned Revenue

The District reports deferred inflows of resources, deferred outflows of resources and unearned revenue on its financial statements. Deferred inflows of resources are the acquisition of net position or fund balance that is applicable to future reporting periods. Deferred outflows of resources are the consumption of net position that is applicable to future reporting periods.

Property taxes that are received or recorded as receivables prior to the period the levy is intended to finance are recorded as deferred inflows of resources on both fund financial statements and government-wide financial statements. Potential grant revenue is recorded as deferred inflows of resources on the fund financial statements when it has not yet met both the "measurable" and "available" criteria for recognition in the current period.

Notes to Basic Financial Statements

Note 1. Summary of Significant Accounting Policies (Continued)

Deferred Inflows of Resources, Deferred Outflows of Resources and Unearned Revenue (Continued)

The net difference between projected and actual earnings on pension plan or other post-employment benefit plan investments, changes in benefits, changes in actuarial assumptions used in determining the total liability of the plan and changes in proportion and differences between employer contributions and proportionate share of contributions are reported as deferred outflows or inflows of resources on the government-wide financial statements. The District's payments to the plans made subsequent to the liability measurement date are also considered to be deferred outflows of resources on the government-wide financial statements. See Note 6 and Note 7 for further discussion of the District's deferred outflows and inflows of resources related to pensions and other post-employment benefits, respectively.

Unearned revenue arises when resources are received by the District before it has legal claim to them, as when grant monies are received prior to the incurrence of qualifying expenditures. In subsequent periods, when revenue recognition criteria are met or when the District has a legal claim to the resources, the liability for unearned revenue is removed from the financial statements and revenue is recognized.

Long-Term Obligations

Long-term debt is recognized as a liability of a governmental fund when due or when resources have been accumulated in the debt service fund for payment early in the following year. Other obligations (e.g., compensated absences, claims and judgments, pension and postemployment benefits) are reported as fund liabilities when amounts have matured or are due and payable rather than when the liability is expected to be financed from expendable available financial resources. The remaining portions of such obligations have been reported as liabilities in the statement of net position.

The District has issued two types of general obligation bonds, a conventional type for which interest is paid on the bonds semi-annually and a capital appreciation type, for which no interest is paid, but rather the interest "accretes" to long-term interest semi-annually and is finally paid upon maturity of the bonds.

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the statement of net position.

Debt Premium, Discount and Debt Issuance/Refunding Costs

In the fund financial statements, bond premiums and discounts, as well as issuance costs, are recognized in the period the bonds are issued. Bond, debt certificate, and purchase contract proceeds are reported as "other financing sources" as are applicable premiums or discounts. Issuance costs, even if withheld from the actual net proceeds received, are reported as expenditures.

In the government-wide financial statements, bond premiums and discounts, as well as deferred refunding amounts, are capitalized and amortized over the life of the bonds. Bonds payable are reported net of the applicable bond premium and discount. Deferred refunding amounts are reported as deferred outflows or deferred inflows of resources and amortized over the term of the related debt. All amortization is computed using the straight-line method. Debt issuance costs are expensed when incurred.

Notes to Basic Financial Statements

Note 1. Summary of Significant Accounting Policies (Continued)

Postemployment Benefits Other Than Pensions (OPEB)

The District participates in two OPEB plans, the Teachers' Health Insurance Security Fund (THIS) plan provided by the State and an OPEB plan provided by the District. For purposes of measuring the District's collective OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of the THIS OPEB Plan and additions to/deductions from the THIS Plan's fiduciary net position have been determined on the same basis as they are reported by the THIS Plan. For this purpose, the THIS Plan recognizes benefit payments when due and payable in accordance with the benefit terms.

Fund Balances

Within the governmental fund types, the District's fund balances are reported in one of the following classifications:

Nonspendable – includes amounts that cannot be spent because they are either: a) not in spendable form; or b) legally or contractually required to be maintained intact. At June 30, 2021, the District's nonspendable fund balances in the Governmental Funds related to inventories for \$28,721, and prepaid expenses of \$943,909.

Restricted – includes amounts that are restricted to specific purposes, that is, when constraints placed on the use of resources are either: a) externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments; or b) imposed by law through constitutional provisions or enabling legislation.

Committed – includes amounts that can only be used for specific purposes pursuant to constraints imposed by formal action of the District's highest level of decision-making authority. The highest level of decision-making authority rests with the District's Board of Education. Committed amounts cannot be used for any other purpose unless the District removes or changes the specified use by taking the same action it employed to previously commit those amounts. The District passes formal resolutions to commit their fund balances. There are no committed fund balances as of June 30, 2021.

Assigned – includes amounts that are constrained by the District's *intent* to be used for specific purposes, but that are neither restricted nor committed. Intent is expressed by: a) the District's Board of Education itself; or b) a body or official to which the Board of Education has delegated the authority to assign amounts to be used for specific purposes. The District's Board of Education has not delegated authority to any other body or official to assign amounts for a specific purpose within the General Fund. Within the other governmental fund types (special revenue, debt service, capital projects) resources are assigned in accordance with the established fund purpose and approved budget/appropriation. Residual fund balances in these fund types that are not restricted or committed are reported as assigned. At June 30, 2021, \$6,512,030 was assigned in the Transportation Fund for costs associated with transportation.

Unassigned – includes the residual fund balances that have not been restricted, committed, or assigned within the General Fund and unassigned deficit fund balances of other governmental funds.

It is the District's policy to consider restricted resources to have been spent first when an expenditure is incurred for which both restricted and unrestricted (i.e., committed, assigned or unassigned fund balances) are available, followed by committed and then assigned fund balances. Unassigned amounts are used only after the other resources have been used.

Notes to Basic Financial Statements

Note 1. Summary of Significant Accounting Policies (Continued)

Fund Balances (Continued)

The District seeks to maintain year-end fund balances at no less than 20 percent of the annual expenditures to operating funds. For management purposes, the District considers the Educational Fund, Operations and Maintenance Fund and the Transportation Fund in aggregate to make up the operating funds.

The General Fund includes the Working Cash stabilization account. Under the State of Illinois School Code (School Code), the District is authorized to incur indebtedness and issue bonds and to levy a tax annually on all taxable property of the District in order to enable the District to have in its treasury at all times sufficient money to meet demands thereon. These working cash funds may be lent to other District governmental funds in need, but may only be expended for other purposes upon the passage of a resolution by the Board of Education to abolish the funds to the Educational Account, of the General Fund, or abate the fund to any fund of the District most in need. At June 30, 2021, the District had working cash stabilization fund balances of \$112,662,044 that have been classified as unassigned fund balances in the General Fund.

At June 30, 2021, the District had the following fund balances restricted for various purposes as follows:

Fund	F	und balance	Purpose of restriction
Major Funds:			
General Fund	\$	3 034 993	Student activities
General Fund	Ψ		Risk and insurance
Debt Service Fund		•	Repayment of principal and interest on long-term debt
Nonmajor Funds:		,,	
Fire Prevention and Safety Fund		5,974,802	School construction projects
Capital Projects Fund		4,135,109	School construction projects
Transportation Fund		21,045,156	Student transportation
Municipal Retirement /Social Security Fund		4,136,843	Employee pension and social security
	\$	72,112,106	_

Net Position

Net position consists of the following categories:

Net investment in capital assets – consists of capital assets, net of accumulated depreciation and reduced by outstanding balances for bonds and other debt that are attributable to the acquisition, construction, or improvement of those assets.

Restricted net position – results when constraints placed on net position use are either externally imposed by creditors, grantors, contributors, and the like, or imposed by law through constitutional provisions or enabling legislation.

Unrestricted net position – consists of net position that does not meet the criteria of the two preceding categories.

When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first, then unrestricted resources, as they are needed.

Notes to Basic Financial Statements

Note 1. Summary of Significant Accounting Policies (Continued)

Eliminations

Eliminations have been made in the statement of net position to remove the "grossing-up" effect on assets and liabilities within the governmental activities column for amounts reported in the individual funds as interfund receivables and payables. Similarly, transfers between funds have been eliminated in the statement of activities.

Use of Estimates

The preparation of financial statements in conformity with the modified accrual basis of accounting requires management to make estimates and assumptions that affect the amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amount of revenues and expenditures during the period. Actual results may differ from these estimates.

Restatement

The District's governmental activities net position and fund balance of the General Fund have been restated as of June 30, 2020. The restatement is a result of the implementation of GASB statement No. 84, *Fiduciary Activities*. In accordance with GASB 84, the District now considers its student activity accounts to be part of the General Fund instead of separate fiduciary balances as the District has both control over the assets and administrative involvement in determining how the assets are used.

Governmental

General Fund 294,153,225 3,538,922 297.692,147

The restatement as of June 30, 2020 is as follows:

	Activities	
Net position/Fund balance, June 30, 2020, as previously reported	\$ 127,822,649	9
Addition of student activity funds	3,538,922	
Net position/Fund balance as restated, June 30, 2020	\$ 131,361,571	

Subsequent Event

On October 5, 2021, the District issued the \$18,730,000 General Obligation Limited Refunding School Bonds Series 2021 in order to fully refund General Obligation Limited School Bonds Series 2009 and partially refund General Obligation Limited School Bonds Series 2012B. Series 2021 is payable through January 1, 2026.

Note 2. Deposits and Investments

Permitted Deposits and Investments - State statutes and Board policy authorize the District to invest any available funds in: (1) direct obligations of or obligations guaranteed by the United States or its agencies; (2) commercial paper issued by United States corporations rated within the three highest classifications by at least two standard rating services and maturing within 180 days or less; (3) interest-bearing savings accounts, certificates of deposit, or other time deposits in federally insured and/or state chartered banks and savings and loans associations; (4) the Illinois School District Liquid Asset Fund Plus (ISDLAF+); (5) the Illinois Funds; (6) money market mutual funds; (7) bankers' acceptances of banks whose senior obligations are rated in the top two rating categories by two national rating agencies and maintain that rating during the term of the investment; (8) repurchase agreements of government securities; and (9) interest-bearing bonds of any county, township, city, village incorporated town, municipality, or school district. Shares in the ISDLAF+ and the Illinois Funds represent investments in external investment pools that are regulated by the state of Illinois; the fair value of the position in the pools is the same as the value of the pool shares.

Notes to Basic Financial Statements

Note 2. Deposits and Investments (Continued)

Deposits

As of June 30, 2021, the District had deposits with federally insured financial institutions of \$154,679,138 with the book balances totaling \$153,439,406.

Custodial Credit Risk - Deposits

In the case of deposits, custodial credit risk is the risk that in the event of a bank failure, the District's deposits may not be returned to it. The District's investment policy requires all bank deposits in excess of Federal Deposit Insurance Corporation insurance limits be secured by collateral. As of June 30, 2021, the District was not exposed to custodial credit risk.

Investments

Interest Rate Risk

The District's investment policy does not limit its investment portfolio to specific maturities.

Credit Risk

The District's general investment policy is to apply the prudent-person rule: investments are made as a prudent person would be expected to act, with discretion and intelligence, to seek reasonable income, preserve capital, and, in general, avoid speculative investments. Investment choices are not limited beyond the State statutes.

Concentration of Credit Risk

The District places no limit on the amount it may invest in any one issuer.

Custodial Credit Risk - Investments

For an investment, this is the risk that, in the event of the failure of the counterparty, the District will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The Illinois School District Liquid Asset Fund (ISDLAF), Illinois Funds, and the Government Money Market Funds held by the District are not subject to custodial credit risk.

The following schedule reports the values and maturities (using the segmented time distribution method) for the District's investments and credit ratings by Standard & Poor's at June 30, 2021:

		Investment Ma	turitie	es (in Years)	% of Total	Credit
Investment Type		Less than 1		1 - 5	Investments	Ratings
ISDLAF	\$ 277,163,848	\$ 277,163,848	\$	-	94.21 %	AAAm
Government Money Market Funds	1,363,674	1,363,674		-	0.46	AAAm
Illinois Funds	5,766,407	5,766,407		-	1.96	AAAm
US Treasury Notes	9,928,306	-		9,928,306	3.37	AA+
	\$ 294,222,235	\$ 284,293,929	\$	9,928,306	100.00 %	

The Illinois School District Liquid Asset Fund is shown as maturing in less than one year because the weighted average maturity of the pool is less than one year.

Notes to Basic Financial Statements

Note 2. Deposits and Investments (Continued)

The District categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Investments are classified according to the following hierarchy.

Level 1 – Investments reflect prices quoted in active markets.

Level 2 – Investments reflect prices that are based on similar observable assets either directly or indirectly, which may include inputs in markets that are not considered to be active.

Level 3 – Investments reflect prices based upon unobservable sources.

Fair value of the District's US Treasury Notes are determined by the District from observable market quotations as provided by the District's investment manager and are considered level 1 investments.

The District's other investments measured at the net asset value (NAV) or amortized cost are as follows:

			Redemption	
		Unfunded	Frequency	Redemption
Investment Type		Commitments	(If Currently Eligible)	Notice Period
ISDLAF	\$ 277,163,848	N/A	Daily	One Day
Government Money Market Funds	1,363,674	N/A	Daily	One Day
Illinois Funds	5,766,407	N/A	Daily	One Day
	\$ 284,293,929			·

The Illinois School District Liquid Asset Fund is an unrated, not-for-profit investment trust formed pursuant to the Illinois Municipal Code and managed by a Board of Trustees, elected from the participating members. It is not registered with the Securities Exchange Commission (SEC) as an investment company. The fair value of the pool is the same as the value of the pool shares and is measured at NAV.

The Illinois Public Treasurers' Investment Pool, known as The Illinois Funds, is not registered with the SEC but operates as a 2a7-like pool and thus reports all investments at amortized cost rather than market value. The Illinois Treasurer's investment policies are governed by State statute. In addition, the Treasurer's Office has adopted its own investment practices that supplement the statutory requirement. The fair value of the pool is the same as the value of the pool shares.

The above deposits and investments (plus \$6,000 held by the District as petty cash) are presented in the basic financial statements as cash and investments as follows:

Cash and investments per statement of net position

\$ 447,667,641

Notes to Basic Financial Statements

Note 3. Capital Assets

Capital asset balances and activity for the year ended June 30, 2021, are as follows:

	Balance July 1, 2020		Transfers and Additions	Transfers and Retirements	Balance June 30, 2021	
Capital Assets, not being depreciated: Land Construction in progress	\$ 28,394,912 28,064,556	\$	- 27,154,240	\$ - 44,461,111	\$ 28,394,912 10,757,685

Notes to Basic Financial Statements

Note 4. Long-Term Obligations and Net Pension Asset (Continued)

At June 30, 2021, general obligation bonds consisted of the following:

General Obligation Bonds - Payable by the Debt Service Fund

\$65,999,779, 2003B Capital Appreciation School Bonds due in annual installments of \$960,659 to \$10,591,479 through 2023 with interest due annually in years of maturity at a rate yielding 5.35%. Issued for the purpose of building new schools.

\$ 20,622,389

\$34,405,000, 2009 General Obligation Limited School Bonds due in annual installments of \$1,175,000 to \$1,480,000 through 2023 with interest due semiannually at 4.00% to 5.00%. Issued for the purpose of capital projects and funding the tort fund.

2,885,000

\$25,925,000, 2011A Taxable General Obligation Limited School Bonds due in annual installments of \$1,515,000 to \$3,085,000 through 2022 with interest due semiannually at 4.75% to 6.0%. Issued for the purpose of capital projects and working cash.

1.515.000

\$31,045,000, 2012B Taxable General Obligation Limited School Bonds due in annual installments of \$75,000 to \$5,705,000 beginning in fiscal year 2016 through 2026 with interest due semiannually at 3.0% to 4.5%. Issued for the purpose of working cash and funding the tort fund.

20,770,000

\$44,310,000, 2015A General Obligation Limited School Bonds due in annual installments of \$2,955,000 through \$8,205,000 beginning in fiscal year 2028 through 2034 with interest due semiannually at 5.00%. Issued for the purpose of working cash.

44,310,000

\$10,780,000, 2015B Taxable General Obligation Limited Refunding Bonds due in annual installments of \$2,170,000 through \$6,215,000 beginning in fiscal year 2026 through 2028 with interest due semiannually at 3.7% to 3.95%. Issued for the purpose of refunding capital project related bonds and working cash.

10,780,000

\$101,575,000, 2015D General Obligation Refunding School Bonds due in annual installments of \$6,480,000 through \$10,900,000 beginning in fiscal year 2024 through 2035 with interest due semiannually at 5.00%. Issued for the purpose of refunding capital project related bonds.

101,575,000

Total General Obligation Bonds

\$ 202,457,389

Notes to Basic Financial Statements

Note 4. Long-Term Obligations and Net Pension Asset (Continued)

Debt Service Requirements to Maturity - General Obligation Bonds

Annual debt service requirements to maturity for all bond issues to be paid from property taxes of the Debt Service Fund for each of the next five fiscal years and in five-year increments thereafter are as follows:

Due in	 General	_	Total	
Fiscal Year	Principal	Interest	Debt Service	
				_
2022	\$ 15,576,479	\$ 26,706,309	\$	42,282,788
2023	15,255,910	26,978,128		42,234,038
2024	11,940,000	8,268,913		20,208,913
2025	12,400,000	7,808,813		20,208,813
2026	12,995,000	7,217,338		20,212,338
2027 - 2031	74,720,000	26,328,625		101,048,625
2032 - 2035	59,570,000	6,852,250		66,422,250
	\$ 202,457,389	\$ 110,160,376	\$	312,617,765

Interest maturities include \$33,518,950 of accreted interest on capital appreciation bonds.

Accreted Interest on Long-term Debt - Capital Appreciation Bonds

The District has two outstanding capital appreciation bond issues. Interest on the capital appreciation bonds is paid only when principal payments are made, not semi-annually like conventional bond issues. The District records the accretion of interest as long-term debt in the statement of net position as if the interest had been paid semi-annually.

Debt Certificates

The District has two outstanding debt certificates. Payments are expected to be made from the Debt Service Fund through transfers from the General Fund. Descriptions of the District's debt certificates are as follows:

\$6,200,000, 2007 Debt Certificates (Qualified Zone Academy Bonds) due in annual installments of \$418,578 to \$432,360 through 2023 with interest due annually at 0.65%. Issued for the purpose of capital projects.	\$ 861,927
\$466,270, 2017 Debt Certificates (Qualified Zone Academy Bonds) due in annual installments of \$93,254 through 2023 with interest due semiannually at 0.25%. Issued for the purpose of capital projects.	186,508
Total Debt Certificates	\$ 1,048,435

Notes to Basic Financial Statements

Note 4. Long-Term Obligations and Net Pension Asset (Continued)

Debt Service Requirements to Maturity - Debt Certificates and Purchase Contracts

Annual debt service requirements to maturity for debt certificates and purchase contracts to be paid from the Transportation Fund and the Debt Service Fund through transfers from the General Fund are as follows:

Due in	Debt Certificates					
Fiscal Year	Principal	Interest				
2022	\$ 522,821	\$ 5,952				
2023	525,614	2,927				
Total	\$ 1,048,435	5 \$ 8,879				

Legal Debt Margin

As of June 30, 2021, the legal debt limit of the District was \$744,232,878, based upon 13.8 percent of its 2020 equalized assessed valuation of \$5,392,991,871. The debt limit less outstanding debt subject to the debt limit of \$203,505,824 plus amounts held in the Debt Service Fund of \$33,180,596, results in a legal debt margin of \$573,907,650 as of June 30, 2021.

Compensated Absences

The District offers sick, personal and in some cases vacation days to its employees. Depending on the union status of the District's employees the number of sick, personal and vacation days provided each year may differ.

The District provides up to 20 vacation days per year, most of which must be used by August 31st of the following year. Some vacation days may be used up until October 31st of the following year depending on the employee union. The District provides up to four personal days per year to its employees. Personal balances left over at the end of the year are carried forward into the sick day balance for the next year. The District also offers up to 14 sick days per year. Accumulated personal and sick days are not paid out upon termination. If an employee is vested in the Teachers' Retirement System (TRS) or the Illinois Municipal Retirement Fund (IMRF), the employee is allowed extra service credit based on unused sick days. Since accrued personal and sick days are not paid out upon termination, the District does not accrue a payable for these days at year-end. Based on accumulated vacation days as of year-end, the District's maximum liability for accumulated vacation days to be paid upon its employees' termination was calculated to be \$784,227 at June 30, 2021. The amounts will be paid from the General Fund within the next year.

Net Pension Asset and Collective Net Pension Liability

The District had a net pension asset of \$1,518,253 and a collective net pension liability of \$24,912,130 at June 30, 2021 which represent the District's share of pension asset/liability to plan members for benefits provided through defined benefit pension plans (see Note 6). The \$1,518,253 asset relates to IMRF. Payments to IMRF in future fiscal years will be paid from the Municipal Retirement/Social Security Fund. The \$24,912,130 liability relates to TRS and will be paid from the General Fund.

Notes to Basic Financial Statements

Note 4. Long-Term Obligations and Net Pension Asset (Continued)

Other Postemployment Benefits Liability

The other postemployment benefits (OPEB) liability represents the long-term actuarially determined liability for healthcare insurance for eligible retirees and their dependents through the District's group health insurance plan and the District's share of the Teachers' Health Insurance Security Fund (THIS) plan (see Note 7). The District's OPEB liability at June 30, 2021 related to its own plan was \$28,994,127 and \$256,662,793 for its share of THIS; both amounts will be paid from the General Fund.

Debt Refunding

As of June 30, 2021, the outstanding balance of all defeased bonds totaled \$49,400,000.

Note 5. Risk Management

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The District is self-insured for the above risks. For property-related risks, the District maintains excess insurance coverage to cover claims in excess of \$100,000 per occurrence to a maximum of \$250,000,000. The amount of coverage has not decreased nor have the amount of settlements exceeded coverage in any of the past three fiscal years. For workers' compensation risks, the District maintains excess insurance coverage to cover claims in excess of \$400,000 per occurrence to a maximum of \$1,000,000. The amount of coverage has not decreased nor have the amount of settlements exceeded coverage in any of the past three fiscal years.

The District is also self-insured for medical claims to cover its employees and their qualifying dependents. The District funds a self-insurance account and has engaged an outside agency to administer its medical claims. The District does not assume unlimited liability for medical claims. As of June 30, 2021, the District had purchased (stop-loss) insurance to cover claims in excess of \$500,000 per person per year and \$2,000,000 lifetime.

Estimated claims incurred but not yet submitted by insurers were estimated based on historical trends as provided by the District's third-party administrator. Estimated insurance claims incurred but not reported (IBNR) liabilities at June 30, 2021, total \$10,624,118. Settled claims have not exceeded coverage in any of the past three fiscal years. Claim liabilities are calculated considering the effects of inflation, recent claim settlement trends including frequency and amount of payouts, and other economic and societal factors. Changes in the balances of claims liabilities during the past two fiscal years are as follows:

	Fiscal Year Ended June 30,		
	Total 2021	Total 2020	
Claims liability - beginning Incurred claims Claim payments and reductions	\$ 11,374,902 61,018,794 (61,769,578	61,403,282	
Claims liability - ending	\$ 10,624,118	\$ 11,374,902	

Notes to Basic Financial Statements

Note 6. Employee Retirement Systems and Plans

The following is a summary of all pension related items presented in the governmental activities. Details related to these plans are presented separately on the following pages.

	Net Pension ability (Asset)	Deferred Outflows	Deferred Inflows	Pension Expense
Teachers' Retirement System (TRS)	\$ 24,912,130	\$ 4,642,507	\$ 19,587,439	\$ 208,260,094
Illinois Municipal Retirement Fund (IMRF)	(1,518,253)	8,013,565	35,237,259	469,233
Total	\$ 23,393,877	\$ 12,656,072	\$ 54,824,698	\$ 208,729,327

Teachers' Retirement System

Plan Description

The District participates in the Teachers' Retirement System of the state of Illinois (TRS). TRS is a cost-sharing multiple-employer defined benefit pension plan that was created by the Illinois legislature for the benefit of Illinois public school teachers employed outside the city of Chicago. TRS members include all active nonannuitants who are employed by a TRS-covered employer to provide services for which teacher licensure is required. The Illinois Pension Code outlines the benefit provisions of TRS, and amendments to the plan can be made only by legislative action with the Governor's approval. The TRS Board of Trustees is responsible for the System's administration.

TRS issues a publicly available financial report that can be obtained at https://www.trsil.org/financial/cafrs; by writing to TRS at 2815 W. Washington, PO Box 19253, Springfield, IL 62794; or by calling (888) 678-3675, option 2.

Benefits Provided

TRS provides retirement, disability, and death benefits. Tier I members have TRS or reciprocal system service prior to January 1, 2011. Tier I members qualify for retirement benefits at age 62 with five years of service, at age 60 with 10 years, or age 55 with 20 years. The benefit is determined by the average of the four highest consecutive years of creditable earnings within the last 10 years of creditable service and the percentage of average salary to which the member is entitled. Most members retire under a formula that provides 2.2 percent of final average salary up to a maximum of 75 percent with 34 years of service. Disability and death benefits are also provided.

Tier II members qualify for retirement benefits at age 67 with 10 years of service, or a discounted annuity can be paid at age 62 with 10 years of service. Creditable earnings for retirement purposes are capped and the final average salary is based on the highest consecutive eight years of creditable service rather than the highest four. Disability provisions for Tier II are identical to those of Tier I. Death benefits are payable under a formula that is different from Tier I.

Essentially all Tier I retirees receive an annual 3 percent increase in the current retirement benefit beginning January 1 following the attainment of age 61 or on January 1 following the member's first anniversary in retirement, whichever is later. Tier II annual increases will be the lesser of three percent of the original benefit or one-half percent of the rate of inflation beginning January 1 following attainment of age 67 or on January 1 following the member's first anniversary in retirement, whichever is later.

Notes to Basic Financial Statements

Note 6. Employee Retirement Systems and Plans (Continued)

Teachers' Retirement System (Continued)

Public Act 100-0023, enacted in 2017, creates an optional Tier 3 hybrid retirement plan, but it has not yet gone into effect. Public Act 100-0587, enacted in 2018, requires TRS to offer two temporary benefit buyout programs that expire on June 30, 2024. One program allows retiring Tier 1 members to receive a partial lump-sum payment in exchange for accepting a lower, delayed annual increase. The other allows inactive vested Tier 1 and 2 members to receive a partial lump-sum payment in lieu of a retirement annuity. Both programs began in 2019 and are funded by bonds issued by the state of Illinois.

Contributions

The state of Illinois maintains the primary responsibility for funding TRS. The Illinois Pension Code, as amended by Public Act 88-0593 and subsequent acts, provides that for years 2010 through 2045, the minimum contribution to the System for each fiscal year shall be an amount determined to be sufficient to bring the total assets of the System up to 90 percent of the total actuarial liabilities of the System by the end of fiscal year 2045.

Contributions from active members and TRS contributing employers are also required by the Illinois Pension Code. The contribution rates are specified in the pension code. The active member contribution rate for the year ended June 30, 2020, was 9.0 percent of creditable earnings. The member contribution, which may be paid on behalf of employees by the employer, is submitted to TRS by the employer.

On-behalf contributions to TRS

The state of Illinois makes employer pension contributions on behalf of the District. For the year ended June 30, 2021, state of Illinois contributions recognized by the District were based on the state's proportionate share of the collective net pension liability associated with the District, and the District recognized revenue and expenses of \$207,809,120 in the governmental activities based on the economic resources measurement basis and revenues and expenditures of \$110,720,642 in the General Fund based on the current financial resources measurement basis.

2.2 formula contributions

Employers contribute 0.58 percent of total creditable earnings for the 2.2 formula change. The contribution rate is specified by statute. Required contributions for the year ended June 30, 2021, were \$1,459,053. Actual contributions were \$1,453,283 and reported as deferred outflows of resources on the statement of net position because they were paid after the June 30, 2020 measurement date. As of June 30, 2021, \$5,770 was due and payable to TRS.

Federal and special trust fund contributions

When TRS members are paid from federal and special trust funds administered by the District, there is a statutory requirement for the District to pay an employer pension contribution from those funds. Under Public Act 100-0340, the federal and special trust fund contribution rate is the total employer normal cost.

For the year ended June 30, 2021, the employer pension contribution was 10.41 percent of salaries paid from federal and special trust funds. For the year ended June 30, 2021, salaries totaling \$5,297,111 were paid from federal and special trust funds that required District contributions of \$551,429. Actual contributions were \$598,575 and reported as deferred outflows of resources on the statement of net position because they were paid after the June 30, 2020 measurement date. As of June 30, 2021, \$47,146 was due from TRS.

Notes to Basic Financial Statements

Note 6. Employee Retirement Systems and Plans (Continued)

Teachers' Retirement System (Continued)

Employer retirement cost contributions

Under GASB Statement No. 68, contributions that an employer is required to pay because of a TRS member retiring are categorized as specific liability payments. The employer is required to make a one-time contribution to TRS for members granted salary increases over 6 percent if those salaries are used to calculate a retiree's final average salary. A one-time contribution is also required for members granted sick leave days in excess of the normal annual allotment if those days are used as TRS service credit. Additionally PA 100-0023 requires school districts to pay for a portion of the cost of a member's pension if that member's salary, determined on a full-time equivalent basis, is greater that the governor's statutory salary (currently \$181,600). The amount charged to the employer is the employer normal cost, or 10.41 percent.

For the year ended June 30, 2021, the District paid \$451,460 to TRS for employer contributions due on salary increases in excess of the statutory limit and \$18,042 for member salaries in excess of the governor's statutory salary. The District made no payments for sick leave days granted in excess of the normal annual allotment.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2021, the District reported a liability for its proportionate share of the collective net pension liability (first amount shown below) that reflected a reduction for state pension support provided to the District. The state's support and total are for disclosure purposes only. The amount recognized by the District as its proportionate share of the collective net pension liability, the related state support, and the total portion of the collective net pension liability that was associated with the District were as follows:

District's proportionate share of the collective net pension liability	\$ 24,912,130
State's proportionate share of the collective	
net pension liability associated with the District	 1,951,247,392
Total	\$ 1,976,159,522

The net pension liability was measured as of June 30, 2020, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2019, and rolled forward to June 30, 2020. The District's proportion of the net pension liability was based on the District's share of contributions to TRS for the measurement year ended June 30, 2020, relative to the contributions of all participating TRS employers and the state during that period. At June 30, 2020, the District's proportion was 0.0289 percent, which was a decrease of 0.0003 from its proportion measured as of June 30, 2019.

For the year ended June 30, 2021, the District recognized the following pension expense/expenditures and revenue pertaining to the District's employees:

	 Governmental <u>Activities</u>		General Fund
State on-behalf contributions - revenue			
and expense/expenditure	\$ 207,809,120	\$	110,720,642
District TRS pension (benefit) expense	 450,974		2,010,482
Total TRS expense/expenditure	\$ 208,260,094	\$	112,731,124

Notes to Basic Financial Statements

Note 6. Employee Retirement Systems and Plans (Continued)

Teachers' Retirement System (Continued)

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions (Continued)

At June 30, 2021, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources		Deferred Inflows of Resources	
Differences between expected and actual experience Net difference between projected and actual earnings	\$	241,427	\$ 6,649	
on pension plan investments		743,839	-	
Changes of assumptions		102,078	261,388	
Changes in proportion and differences between District				
contributions and proportionate share of contributions		1,503,305	19,319,402	
Total deferred pension actuarial adjustments		2,590,649	19,587,439	
District contributions subsequent to the measurement date		2,051,858		
Total deferred amounts related to pensions	\$	4,642,507	\$ 19,587,439	

Of the amounts reported as deferred outflows of resources related to pensions resulting from District's contributions subsequent to the measurement date, \$2,051,858 will be recognized as a reduction of the collective net pension liability in the reporting year ending June 30, 2022. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year	en	din	a l	lur	9	$30 \cdot$
ı caı		ulli	u J	uı	ı	JU.

2022	\$ (6,244,820)
2023	(7,429,015)
2024	(3,391,162)
2025	90,034
2026	(21,827)
	\$ (16,996,790)

Actuarial Assumptions

The total pension liability in the June 30, 2020 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation 2.50 percent

Salary increases varies by amount of service credit

Investment rate of return 7.00 percent, net of pension plan investment expense, including inflation

Notes to Basic Financial Statements

Note 6. Employee Retirement Systems and Plans (Continued)

Teachers' Retirement System (Continued)

Actuarial Assumptions

In the June 30, 2020 and 2019 actuarial valuation, mortality rates were based on the RP-2014 White Collar Table with adjustments as appropriate for TRS experience. The rates are used on a fully-generational basis using projection tables MP-2017 and MP-2014 for 2020 and 2019, respectively.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class that were used by the actuary are summarized in the following table:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
U.S. equities large cap	16.5 %	6.1 %
U.S. equities small/mid cap	2.3	7.2
International equities developed	12.2	7.0
Emerging market equities	3.0	9.4
U.S. bonds core	7.0	2.2
U.S. bonds high yield	2.5	4.1
International debt developed	3.1	1.5
Emerging international debt	3.2	4.5
Real estate	16.0	5.7
Private debt	5.2	6.3
Hedge funds	10.0	4.3
Private equity	15.0	10.5
Infrastructure	4.0	6.2
Total	100.0 %	

Discount Rate

At June 30, 2020, the discount rate used to measure the total pension liability was 7.00 percent, which was the same as the June 30, 2019 rate. The projection of cash flows used to determine the discount rate assumed that employee contributions, employer contributions, and state contributions will be made at the current statutorily-required rates.

Based on those assumptions, TRS's fiduciary net position at June 30, 2020 was projected to be available to make all projected future benefit payments of current active and inactive members and all benefit recipients. Tier I's liability is partially funded by Tier II members, as the Tier II member contribution is higher than the cost of Tier II benefits. Due to this subsidy, contributions from future members in excess of the service cost are also included in the determination of the discount rate. All projected future payments were projected to be available to make all benefit payments, so a long-term expected rate of return on TRS investments was applied to all periods of projected benefit payments to determine the total pension liability.

Notes to Basic Financial Statements

Note 6. Employee Retirement Systems and Plans (Continued)

Teachers' Retirement System (Continued)

Sensitivity of the District's Proportionate Share of the Collective Net Pension Liability to Changes in the Discount Rate

The following presents the District's proportionate share of the collective net pension liability calculated using the discount rate of 7.00 percent, as well as what the District's proportionate share of the collective net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower or 1-percentage-point higher than the current rate.

		Current			
	1% Decrease	Discount Rate	1% Increase		
	6.00%	7.00%	8.00%		
District's proportionate share of the					
collective net pension liability	\$ 30,238,788	\$ 24,912,130	\$ 20,526,749		

TRS Fiduciary Net Position

Detailed information about the TRS's fiduciary net position as of June 30, 2020 is available in the separately issued TRS *Annual Comprehensive Financial Report*.

Illinois Municipal Retirement Fund

Plan Description

The District's defined benefit pension plan for regular employees provides retirement and disability benefits, post-retirement increases, and death benefits to plan members and beneficiaries. The District's plan is managed by the Illinois Municipal Retirement Fund (IMRF), the administrator of an agent multi-employer public pension fund. A summary of IMRF's pension benefits is provided in the "Benefits Provided" section below. Details of all benefits are available from IMRF. Benefit provisions are established by statute and may only be changed by the Illinois General Assembly. IMRF issues a publicly available Annual Comprehensive Financial Report that includes financial statements, detailed information about the pension plan's fiduciary net position, and required supplementary information. The report is available for download at www.imrf.org.

Benefits Provided

The District participates in the Regular Plan (RP). Employees hired *before* January 1, 2011, are eligible for Tier 1 benefits. Tier 1 employees are vested for pension benefits when they have at least eight years of qualifying service credit. Tier 1 employees who retire at age 55 (at reduced benefits) or after age 60 (at full benefits) with eight years of service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1-2/3 percent of the final rate of earnings for the first 15 years of service credit, plus 2 percent for each year of service credit after 15 years to a maximum of 75 percent of their final rate of earnings. Final rate of earnings is the highest total earnings during any consecutive 48 months within the last 10 years of service, divided by 48. Under Tier 1, the pension is increased by 3 percent of the original amount on January 1 every year after retirement.

Notes to Basic Financial Statements

Note 6. Employee Retirement Systems and Plans (Continued)

Illinois Municipal Retirement Fund (Continued)

Employees hired *on or after* January 1, 2011, are eligible for Tier 2 benefits. For Tier 2 employees, pension benefits vest after ten years of service. Participating employees who retire at age 62 (at reduced benefits) or after age 67 (at full benefits) with ten years of service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1-2/3 percent of the final rate of earnings for the first 15 years of service credit, plus 2 percent for each year of service credit after 15 years to a maximum of 75 percent of their final rate of earnings. Final rate of earnings is the highest total earnings during any 96 consecutive months within the last 10 years of service, divided by 96. Under Tier 2, the pension is increased on January 1 every year after retirement, upon reaching age 67, by the *lesser* of:

- 3 percent of the original pension amount, or
- 1/2 of the increase in the Consumer Price Index of the original pension amount.

Employees Covered by Benefit Terms

As of December 31, 2020, the following employees were covered by the benefit terms:

Retirees and Beneficiaries currently receiving benefits	1,523
Inactive Plan Members entitled to but not yet receiving benefits	2,097
Active Plan Members	2,073
Total	5,693

Contributions

As set by statute, the District's Regular Plan Members are required to contribute 4.5 percent of their annual covered salary. The statute requires employers to contribute the amount necessary, in addition to member contributions, to finance the retirement coverage of their own employees. The District's annual contribution rates for calendar years 2021 and 2020 were 10.93 percent and 11.31 percent, respectively. For the fiscal year ended June 30, 2021, the District contributed \$7,852,268 to the plan. The District also contributes for disability benefits, death benefits, and supplemental retirement benefits, all of which are pooled at the IMRF level. Contribution rates for disability and death benefits are set by IMRF's Board of Trustees, while the supplemental retirement benefits rate is set by statute.

Net Pension Asset

The District's net pension asset was measured as of December 31, 2020. The total pension liability used to calculate the net pension asset was determined by an actuarial valuation as of that date.

Actuarial Assumptions

The following are the methods and assumptions used to determine total pension liability at December 31, 2020:

- The Actuarial Cost Method used was Entry Age Normal.
- The **Asset Valuation Method** used was Market Value of Assets.
- The **Inflation Rate** was assumed to be 2.25 percent.
- Salary Increases were expected to be 2.85 percent to 13.75 percent, including inflation.
- The Investment Rate of Return was assumed to be 7.25 percent.

Note 6. Employee Retirement Systems and Plans (Continued)

Illinois Municipal Retirement Fund (Continued)

Actuarial Assumptions (Continued)

- Projected Retirement Age was from the Experience-based Table of Rates, specific to the type
 of eligibility condition, last updated for the 2020 valuation according to an experience study from
 years 2017-2019.
- For Non-disabled Retirees, the Pub-2010, Amount-Weighted, below-median income, General, Retiree, Male (adjusted 106 percent) and Female (adjusted 105 percent) tables, and future mortality improvements projected using scale MP-2000.
- For **Disabled Retirees**, the Pub 2010, amount-Weighted, below-median income, General, Disabled Retiree, Male and Female (both unadjusted) tables, and future mortality improvements projected using scale MP-2020.
- For **Active Members**, the Pub-2010, Amount-Weighted, below-median income, General, Employee, Male and Female (both unadjusted) tables, and future mortality improvements projected using scale MP-2020.
- The **long-term expected rate of return** on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense, and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return to the target asset allocation percentage and adding expected inflation. The target allocation and best estimates of geometric real rates of return for each major asset class are summarized in the following table:

		Projected Returns / Risk				
	Target	One Year	Ten Year			
Asset Class	Allocation	Arithmetic	Geometric			
Domestic equity	37.0 %	6.35 %	5.00 %			
International equity	18.0	7.65	6.00			
Fixed income	28.0	1.40	1.30			
Real estate	9.0	7.10	6.20			
Alternative investments	7.0					
Private equity		10.35	6.95			
Commodities		3.90	2.85			
Cash equivalents	1.0	0.70	0.70			
Total	100.0 %					

Note 6. Employee Retirement Systems and Plans (Continued)

Illinois Municipal Retirement Fund (Continued)

Actuarial Assumptions (Continued)

Single Discount Rate

A Single Discount Rate of 7.25 percent was used to measure the total pension liability. The projection of cash flow used to determine this Single Discount Rate assumed that the plan members' contributions will be made at the current contribution rate, and that employer contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. The Single Discount Rate reflects:

- The long-term expected rate of return on pension plan investments (7.25 percent) during the period in which the fiduciary net position is projected to be sufficient to pay benefits, and
- The tax-exempt municipal bond rate (2.00 percent) based on an index of 20-year general obligation bonds with an average AA credit rating (which is published by the Federal Reserve) as of the measurement date to the extent that the contributions for use with the long-term expected rate of return are not met.

Based on those assumptions, IMRF's fiduciary net position at December 31, 2020, was projected to be available to make all projected future benefit payments of current active and inactive members and all benefit recipients. For the purpose of the most recent valuation, the expected rate of return on plan investments is 7.25 percent and the municipal bond rate was not used.

Changes in the Net Pension Liability (Asset)

The following table shows the components of the District's annual pension liability and related plan fiduciary net position for the calendar year ended December 31, 2020:

	Total		
	Pension	Plan Fiduciary	Net Pension
	Liability	Net Position	Liability (Asset)
Balance at beginning of year	\$ 356,064,513	\$ 325,708,051	\$ 30,356,462
Changes for the year:			
Service cost	7,705,149	-	7,705,149
Interest on the total pension liability	25,418,742	-	25,418,742
Changes of benefit terms	-	-	-
Differences between expected and actual			
experience of the total pension liability	(6,808,476)	-	(6,808,476)
Changes of assumptions	(3,116,072)	-	(3,116,072)
Contributions - employer	-	8,043,625	(8,043,625)
Contributions - employees	-	3,203,606	(3,203,606)
Net investment income	-	46,383,666	(46,383,666)
Benefit payments, including refunds			
of employee contributions	(18,627,500)	(18,627,500)	-
Other (net transfer)	_	(2,556,839)	2,556,839
Net changes	4,571,843	36,446,558	(31,874,715)
Balance at end of year	\$ 360,636,356	\$ 362,154,609	\$ (1,518,253)

Notes to Basic Financial Statements

Note 6. Employee Retirement Systems and Plans (Continued)

Illinois Municipal Retirement Fund (Continued)

Sensitivity of the Net Pension Liability to Changes in the Discount Rate

The following presents the District's net pension asset, calculated using a Single Discount Rate of 7.25 percent, as well as what the District's net pension liability (asset) would be if it were calculated using a Single Discount Rate that is 1 percent lower or 1 percent higher:

		Current Single	
	1% Decrease	Discount Rate	1% Increase
	6.25%	7.25%	8.25%
Total Pension Liability	\$ 401,370,203	\$ 360,636,356	\$ 328,551,316
Plan Fiduciary Net Pension	362,154,609	362,154,609	362,154,609
Net Pension Liability (Asset)	\$ 39,215,594	\$ (1,518,253)	\$ (33,603,293)

Pension Expense, Deferred Outflows of Resources, and Deferred Inflows of Resources Related to Pensions

For the year ended June 30, 2021, the District recognized pension expense of \$469,233. At June 30, 2021, the District reported deferred outflows or resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows Deferred Inflows of Resources of Resources			
Differences between expected and actual experience Net difference between projected and actual earnings	\$	2,031,793	\$	4,952,446
on pension plan investments		-		28,018,200
Changes of assumptions		1,744,115		2,266,613
Total deferred pension actuarial adjustments		3,775,908		35,237,259
District contributions subsequent to the measurement date		4,237,657		
Total deferred amounts related to pensions	\$	8,013,565	\$	35,237,259

Of the amounts reported as deferred outflows of resources related to pensions resulting from District contributions subsequent to the measurement date, \$4,237,657 will be recognized as an increase to the net pension asset in the reporting year ended June 30, 2022. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year ending June 30:	
2022	\$ (8,255,579)
2023	(5,629,383)
2024	(12,950,377)
2025	(4,626,012)
	\$ (31,461,351)

Notes to Basic Financial Statements

Note 7. Post-Employment Plans Other Than Pensions

The following is a summary of all other post-employment benefits (OPEB) other than pension related items presented in the governmental activities. Details related to these plans are presented separately in the following pages.

	Total OPEB Liability	Deferred Outflows	Deferred Inflows	OPEB Expense
Retiree Healthcare Plan - District Plan	\$ 28,994,127	\$ 3,911,178	\$ 924,637	\$ 2,406,027
Teachers' Health Insurance Security Fund (THIS)	256,662,793	19,705,636	49,993,099	20,260,202
Total	\$ 285,656,920	\$ 23,616,814	\$ 50,917,736	\$ 22,666,229

Retiree Healthcare Plan

Plan Description

The District administers a single employer defined benefit healthcare plan, the "Retiree Healthcare Plan" or "the Plan." The Plan provides healthcare insurance for eligible retirees and their dependents through the District's group health insurance plan, which covers both active and retired members. The Plan does not issue a stand-alone financial report.

Benefits Provided

Benefit provisions are established through negotiations between the District and the unions representing District employees and are renegotiated each bargaining period. Certain retirees are eligible until the first month of Medicare eligibility and others are eligible for their lifetime. Certified retirees receive coverage under the TRS health plan and non-certified retirees receive coverage under the District's health plan. The District's contributions vary based on the union to which the employee belongs, the employees' years of service, and the year in which the employee retired.

Employees Covered by Benefit Terms

At June 30, 2021, the following employees were covered by the benefit terms:

Inactive Plan Members currently receiving benefits	206
Active Plan Members	3,549
	3,755

Notes to Basic Financial Statements

Note 7. Post-Employment Plans Other Than Pensions (Continued)

Retiree Healthcare Plan (Continued)

Total OPEB Liability

The District's total OPEB liability was measured as of June 30, 2021, and was determined by an actuarial valuation as of that date.

	Total OPEB
	Liability
Balances at July 1, 2020	\$ 27,898,844
Changes for the year:	
Service cost	1,148,731
Interest on the total OPEB liability	749,319
Changes of assumptions	964,209
Benefit payments	(1,766,976)_
Net changes	1,095,283
Balances at June 30, 2021	\$ 28,994,127

Actuarial Assumptions

The following are the methods and assumptions used to determine total OPEB liability at June 30, 2021:

- The Actuarial Cost Method used was the Entry Age Normal.
- **Salary Increases** was assumed to be 2.75 percent, including inflation.
- For **Healthcare Cost Trend Rates**, in the 2022 fiscal year, a rate of 6.75 percent was used, with that rate gradually decreasing to an ultimate trend of 4.50 percent by fiscal year 2031.
- For IMRF employees the Mortality Rates used are from the PUB-2010 Healthy Mortality Tables below-median income, general employee and retiree, projected generationally with Scale MP -2020. For post-commencement, male rates were multiplied by 106 percent for all ages and female rates were multiplied by 105 percent for all ages.
- For TRS employees the **Mortality Rates** used are from the RP-2014 Healthy Mortality Tables with White Collar Adjustments, projected generationally with Scale MP-2017. Pre- and post-commencement rates were further adjusted. Specifically, for pre-commencement, rates were multiplied by 104 percent for all ages. For post-commencement, male rates were multiplied by 94% for ages under 81 and 110 percent for ages 81-114, and female rates were multiplied by 70 percent for ages under 78 and 110 percent for ages 78-114.

Notes to Basic Financial Statements

Note 7. Post-Employment Plans Other Than Pensions (Continued)

Retiree Healthcare Plan (Continued)

The following assumptions were changed since the prior valuation:

- The discount rate was changed from 2.66 percent to 2.18 percent based on the change in the S&P Municipal Bond 20 Year High Grade Rate Index from the prior year.
- The salary scale was updated to 2.75 percent to reflect the most recent TRS and IMRF experience studies.
- The mortality, termination and retirement rates for IMRF participants were updated to reflect the 2020 IMRF experience study.

Discount Rate

Since the Plan is financed on a pay-as-you-go basis, a long-term rate of return was not used and the discount rate used to measure the total OPEB liability was the 20-year municipal bond yield, (source was the S&P Municipal Bond 20 Year High Grade Rate Index as of June 30, 2021). The projection of cash flows used to determine the discount rate assumed the employee and employer contributions would be made at the current rates. Based on those assumptions, the Plan's fiduciary net position was not projected to be sufficient to make projected OPEB payments for current active and inactive employees beyond the current year.

Sensitivity of the District's Total OPEB Liability to Changes in the Discount Rate

The following presents the District's total OPEB liability, calculated using a Discount Rate of 2.18 percent, as well as what the District's total OPEB liability would be if it were calculated using a Discount Rate that is one percentage point higher or lower than the current rate:

	Current						
	1	% Decrease	С	iscount Rate	•	1% Increase	
		1.18%		2.18%		3.18%	
Total OPEB liability	\$	30,613,241	\$	28,994,127	\$	27,428,777	

Sensitivity of Total OPEB Liability to Changes in the Healthcare Cost Trend Rate

The following presents the District's total OPEB liability, calculated using the healthcare cost trend rates as well as what the District's total OPEB liability would be if it were calculated using a healthcare cost trend rate that is one percentage point higher or lower, than the current healthcare cost trend rates.

	Healthcare Co Trend Rate					st .		
	1	% Decrease	Assumptions		1% Increase			
Total OPEB liability	\$	27,884,936	\$	28,994,127	\$	30,223,136		

Notes to Basic Financial Statements

OPEB Expense, Deferred Outflows of Resources, and Deferred Inflows of Resources Related to OPEB

For the year ended June 30, 2021, the District recognized OPEB expense of \$2,406,027. At June 30, 2021, the District reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	Defe	Deferred Outflows Deferred Inflows				
	of Resources of Reso			Resources		
Differences between expected and actual experience Changes of assumptions	\$	- 3,911,178	\$	924,637 -		
Total deferred amounts related to OPEB	\$	3,911,178	\$	924,637		

Amounts reported as deferred outflows of resources and deferred outflows of resources related to OPEB will be recognized in OPEB expense in future periods as follows:

Year	ending	June	30:
------	--------	------	-----

2022	\$ (507,977)
2023	(507,977)
2024	(507,977)
2025	(507,977)
2026	(479,920)
Thereafter	 (474,713)
	\$ (2,986,541)

Teachers' Health Insurance Security Fund

Plan Description

The District participates in the Teachers' Health Insurance Security Fund (THIS) of the State of Illinois. THIS is a cost-sharing multiple-employer defined benefit post-employment healthcare plan (OPEB) established by the Illinois legislature for the benefit of eligible retired Illinois public school teachers employed outside the City of Chicago (members). All District employees receiving monthly benefits from the Teachers' Retirement System (TRS) who have at least eight years of creditable service with TRS, the survivor of an annuitant or benefit recipient who had at least eight years of creditable service or a recipient of a monthly disability benefit are eligible to enroll in THIS.

The State Employees Group Insurance Act of 1971 (5 ILCS 375) outlines the benefit provisions of the THIS Plan and amendments to the Plan can be made only by legislative action with the Governor's approval. The Plan is administered by the Illinois Department of Central Management Services. The publicly available financial report of the Plan may be found on the website of the Illinois Auditor General. The current reports are listed under "Central Management Services" (http://www.auditor.illinois.gov/Audit-Reports/CMS-THISF.asp).

Notes to Basic Financial Statements

Note 7. **Post-Employment Plans Other Than Pensions (Continued)**

Teachers' Health Insurance Security Fund (Continued)

Benefits Provided

THIS provides medical, prescription, and behavioral health benefits for eligible retirees and their dependents, but it does not provide vision, dental, or life insurance benefits to annuitants of the Teachers' Retirement System (TRS). Annuitants not enrolled in Medicare may participate in the state-administered participating provider option plan or choose from several managed care options. Annuitants who are enrolled in Medicare Parts A and B may be eligible to enroll in a Medicare Advantage plan. The premiums charged reflect approximately a 75 percent subsidy for members that elect a managed care plan or elect the Teachers' Choice Health Plan (TCHP) plan if a managed care plan is either not available or only partially available. Members receive approximately a 50 percent subsidy if they elect the TCHP when a managed care plan is available. Medicare primary dependent beneficiaries enrolled in a managed care plan or in the TCHP when no managed care plan is available receive a premium subsidy.

Contributions

The State Employees Group Insurance Act of 1971 (5 ILCS 375/6) specifies the contribution requirements of the participating school districts and covered employees. For the year ended June 30, 2021, required contributions are as follows:

Active members contribute 1.24 percent of covered payroll.

- Employers contribute 0.92 percent of covered payroll. The percentage of employer required contributions in the future will not exceed 105 percent of the percentage of salary actually required to be paid in the previous fiscal year. For the year ended June 30, 2021, the District paid \$2,314,359 to the THIS Fund, which was 100 percent of the required contribution. These contributions are deferred because they were paid after the June 30, 2020 measurement date.
- The State of Illinois makes contributions on behalf of the District. State contributions are intended to match contributions to the THIS Fund from active members. The State contributed 1.24 percent of covered payroll. For the year ended June 30, 2021, State of Illinois contributions on behalf of the District's employees were \$3,119,354 and the District recognized revenue and expenditures for this onbehalf contribution amount during the year in the General Fund.
- Retired members contribute through premium payments based on the coverage elected, Medicare eligibility, and the age of the member and dependents. The premium for retired members is not permitted to increase by more than 5.0 percent per year by statute. The Federal Government provides a Medicare Part D subsidy.

OPEB Liabilities, Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources At June 30, 2021, the District reported a liability for its proportionate share of the collective total OPEB liability that reflected a reduction for state pension support provided for the District. The state's support and total are for disclosure purposes only. The OPEB proportionate shares are as follows:

Employer's proportionate share of the collective total OPEB liability	\$ 256,662,793
The State's proportionate share of the collective total OPEB liability associated with the employer	347,708,201
Total THIS total collective OPEB liability associated with the employer	\$ 604,370,994

Notes to Basic Financial Statements

Note 7. Post-Employment Plans Other Than Pensions (Continued)

Teachers' Health Insurance Security Fund (Continued)

The collective total OPEB liability was measured as of June 30, 2020, and the total OPEB liability used to calculate the collective total OPEB liability was determined by an actuarial valuation as of June 30, 2019, and rolled forward to June 30, 2020. The District's proportionate share of the total OPEB liability was based on the District's share of contributions to THIS for the measurement year ended June 30, 2020, relative to the contributions of all participating employers and the State during that period. At June 30, 2020, the District's proportion was 0.96 percent, which was an increase of 0.41 percent from its proportion measured as of June 30, 2019.

For the year ended June 30, 2021, the District recognized the following for OPEB expense/expenditure and revenue pertaining to the District's employees:

	Governmental Activities		General Fund
State on-behalf contributions - OPEB revenue			
and expense/expenditure	\$	9,691,630	\$ 3,119,354
District OPEB expense		10,568,572	 2,314,359
Total OPEB expense/expenditure	\$	20,260,202	\$ 5,433,713

At June 30, 2021, the District reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	Deferred Outflows Deferred Inflows of Resources of Resources		s	
		i Resources	of Resources	_
Differences between expected and actual experience Net difference between projected and actual earnings	\$	-	\$ 6,819,263	
on OPEB investments		-	7,307	
Changes of assumptions		86,912	42,336,209	
Changes in proportion and differences between employer				
contributions and proportionate share of contributions		17,304,365	830,320	
Total deferred OPEB actuarial adjustments		17,391,277	49,993,099	
Employer contribution subsequent to the measurement date		2,314,359	-	_
Total deferred amounts related to OPEB	\$	19,705,636	\$ 49,993,099	_

Notes to Basic Financial Statements

Note 7. Post-Employment Plans Other Than Pensions (Continued)

Teachers' Health Insurance Security Fund (Continued)

The District reported \$2,314,359 as deferred outflows of resources resulting from District contributions subsequent to the measurement date that will be recognized as a reduction of the collective total OPEB liability in the year ending June 30, 2022. Other amounts reported as deferred outflows of resources and deferred inflows of resources will be recognized in expense as follows:

Year ending June 30:

2022	\$ (6,838,048)
2023	(6,837,362)
2024	(6,835,936)
2025	(5,329,011)
2026	(2,795,286)
Thereafter	 (3,966,179)
	\$ (32,601,822)

Actuarial Assumptions

The total OPEB liability was determined by an actuarial valuation as of June 30, 2019, and rolled forward to June 30, 2020 based on the entry age normal cost method and using the following actuarial assumptions:

Discount rate Inflation	2.45% at June 30, 2020 2.50%
Salary increases	Depends on service and ranges from 9.50 percent at 1 year of service to 4.00 percent at 20 or more years of service. Salary increase includes a 3.25 percent wage inflation assumption.
Investment rate of return	0 percent, net of OPEB plan investment expense, including inflation
Healthcare cost trend rates	Actual trend used for fiscal year 2020. For fiscal years after 2021, trend starts at 8.25 percent for non-Medicare costs and post-Medicare costs, respectively, and gradually decreases to an ultimate trend of 4.25 percent in 2037. There is no additional trend rate adjustment due to the repeal of the Excise Tax.
Mortality	Mortality rates for retirement and beneficiary annuitants were based on the RP-2014 White Collar Annuitant Mortality Table, adjusted for TRS experience. For disabled annuitants, mortality rates were based on the RP-2014

reflect future mortality improvements using Projection Scale MP-2017.

Disable Annuitant Table. Mortality rates for pre-retirement were based on the RP-2014 White Collar Table. All tables

Notes to Basic Financial Statements

Note 7. Post-Employment Plans Other Than Pensions (Continued)

Teachers' Health Insurance Security Fund (Continued)

Eighty percent of future retirees that are currently active are assumed to elect healthcare coverage, with 80 percent electing single coverage and 20 percent electing two-person coverage. Seventy percent of current deferred vested participants with at least seven years of service and younger than 70 as of June 30, 2019, are assumed to elect healthcare coverage, with 80 percent electing single coverage and 20 percent electing two-person coverage. Thirty-five percent of current deferred vested participants with five to seven years of service and younger than age 70 as of June 30, 2019, are assumed to be eligible under State Employees' Group Insurance Program (SEGIP) or Teachers' Retirement Insurance Program (TRIP) before retirement and elect healthcare coverage, with 80 percent electing single coverage and 20 percent electing two-person coverage. The liability for this group is allocated equally to TRIP and SEGIP.

The pension-related assumptions disclosed in the TRS experience study for the period July 1, 2014 through June 30, 2017, were applied to the THIS actuarial valuation as of June 30, 2019.

The following OPEB-related assumption changes were made since the June 30, 2018, OPEB actuarial valuation date:

- The discount rate was changed from 3.13 percent at June 30, 2019 to 2.45 percent at June 30, 2020;
- The healthcare trend assumption was updated based on claim and enrollment experience through June 30, 2019, projected plan cost for plan year end June 30, 2020, premium changes through plan year end 2021, and expectation of future trend increases after June 30, 2020;
- Since the Excise Tax was repealed, the Excise Tax trend rate adjustment was removed;
- Per capita claim costs for plan year end June 30, 2020, were updated based on projected claims and enrollment experience through June 30, 2020, and updated premium rates through plan year 2021; and
- Healthcare plan participation rates by plan were updated based on observed experience.

The long-term expected rate of return assumption was set to zero. As such, ranges of expected future real rates of return by asset class were not developed.

Discount Rate

Since THIS is financed on a pay-as-you-go basis, a long-term rate of return was not used and the discount rate used to measure the total OPEB liability was the 20-year general obligation bond index rate (source was Fidelity Index's 20-year municipal GO AA Index). The discount rate as of June 30, 2020 was 2.45 percent which was an decrease from the June 30, 2019 rate of 3.13 percent. The projection of cash flows used to determine the discount rate assumed that employee, employer, and State contributions would be made at the current statutorily required rates. Based on those assumptions, THIS's fiduciary net position was not projected to be sufficient to make projected OPEB payments for current active and inactive employees beyond the current year.

Notes to Basic Financial Statements

Sensitivity of the Employer's Proportionate Share of the Total OPEB Liability to Changes in the Single Discount Rate

The following presents the plan's total OPEB liability, calculated using a Single Discount Rate of 2.45 percent, as well as what the plan's total OPEB liability would be if it were calculated using a Single Discount rate that is one percentage point higher or lower than the current rate:

	Current		
	1% Decrease	Discount Rate	1% Increase
	1.45%	2.45%	3.45%
Employer's proportionate share of the			
collective total OPEB liability	\$ 308,472,450	\$ 256,662,793	\$ 215,616,678

Sensitivity of Total OPEB Liability to Changes in the Healthcare Cost Trend Rate

The following presents the plan's total OPEB liability, calculated using the healthcare cost trend rates as well as what the plan's total OPEB liability would be if it were calculated using a healthcare cost trend rate that is one percentage point higher or lower, than the current healthcare cost trend rates.

		Healthcare Cost Trend Rate	
	1% Decrease (a)	Assumptions	1% Increase (b)
Employer's proportionate share of the			
collective total OPEB liability	\$ 206,435,146	\$ 256,662,793	\$ 324,561,343

- (a) One percentage point decrease in healthcare trend rates are 7.25 percent in 2021 decreasing to an ultimate trend rate of 3.25 percent in 2037, for non-Medicare and post-Medicare coverage.
- (b) One percentage point increase in healthcare trend rates are 9.25 percent in 2021 decreasing to an ultimate trend rate of 5.25 percent in 2037, for non-Medicare and post-Medicare coverage.

OPEB Plan Fiduciary Net Position

Detailed information about the THIS plan fiduciary net position is available in the separately issued THIS financial report.

Payable to the OPEB Plan

The District had no outstanding amount of contributions to the THIS plan for the year ended June 30, 2021.

Notes to Basic Financial Statements

Note 8. Other Financial Disclosures

Expenditures Exceeding Budgets

The District adopts annual budgets for all funds. The funds with annually adopted budgets and excesses of expenditures over budgeted expenditures during fiscal year 2021 are as follows:

	Final	Actual	Amount
Fund	Budget	Expenditures	Over Budget
Major Funds:			
General Fund			
Operations and Maintenance Account	\$ 56,172,132	\$ 58,306,436	\$ 2,134,304
Nonmajor Funds:			
Capital Projects Fund	300,000	1,352,972	1,052,972

Interfund Transfers

During fiscal year 2021, the District transferred \$10,365,690 from the General Fund to the Debt Service Fund to provide resources to pay principal and interest on debt certificates and purchase contracts and to abate a portion of the 2020 property tax levy.

Note 9. Contingent Liabilities

Litigation

The District is a defendant in various lawsuits wherein substantial amounts are claimed. In the opinion of the District's legal counsel, these suits are without substantial merit and should not result in judgments, which in aggregate would have a material adverse effect on the District's financial statements.

Grants

Amounts received or receivable from grantor agencies are subject to audit and adjustment by grantor agencies, principally the federal government and the Illinois State Board of Education. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures which may be disallowed by the grantor cannot be determined at this time. However, in the opinion of management, any such disallowed claims will not have a material adverse effect on the overall financial position of the District at June 30, 2021.

Note 10. Commitments

At June 30, 2021, the District had approximately \$14,000,000 in outstanding construction project commitments. The projects were comprised of work to be done at various school buildings and to be paid from the Operations and Maintenance Account of the General Fund, and the Fire Prevention and Safety Fund.

Note 11. Authoritative Pronouncements Issued But Not Yet Adopted

The following is a description of GASB authoritative pronouncements which have been issued but not yet adopted by the District:

Statement No. 87, *Leases*, will be effective for the District beginning with its year ending June 30, 2022. This Statement is intended to better meet the information needs of financial statement users by improving accounting and financial reporting for leases by governments.

Notes to Basic Financial Statements

Note 11. Authoritative Pronouncements Issued But Not Yet Adopted (Continued)

Statement No. 89, Accounting for Interest Cost Incurred before the End of Construction Period, will be effective for the District beginning with its year ending June 30, 2022. This Statement establishes accounting requirements for interest cost incurred before the end of a construction period and requires that interest cost incurred before the end of a construction period be recognized as an expense in the period in which the cost is incurred for financial statements prepared using the economic resources measurement focus. As a result, interest cost incurred before the end of a construction period will not be included in the historical cost of a capital asset on the statement of net position.

GASB Statement No. 91, *Conduit Debt Obligations*, will be effective for the District beginning with its year ending June 30, 2023. This Statement establishes a single method of reporting conduit debt obligations by issuers and eliminates diversity in practice. Under Statement 91 a government entity no longer reports a liability for any conduit debt that it has issued; however, the issuer should recognize a liability for any additional commitments or voluntary commitments to support the debt service.

GASB Statement No. 92, *Omnibus 2020*, addresses practice issues that have been identified during implementation and application of certain GASB statements and other technical pronouncements. The Statement addresses a variety of topics. The Statement will enhance comparability in the application of accounting and financial reporting requirements and will improve the consistency of authoritative literature. The Statement will be effective for the District with its year ending June 30, 2022.

GASB No. 93, *Replacement of Interbank Offered Rates*, establishes how the District will report the change of any of its variable payment debt that are tied to the London Interbank Offered Rate (LIBOR) when the LIBOR standard is no longer used after December 31, 2021. This Statement will be effective for the District with its year ending June 30, 2022.

GASB Statement No. 94, *Public-Private and Public-Public Partnerships and Availability Payment Arrangements*, will improve financial reporting by addressing issues related to public-private and public-public partnerships and provides guidance for accounting and reporting for availability payment arrangements. This Statement will be effective for the District with its year ending June 30, 2023.

GASB Statement No. 96, Subscription-Based Information Technology Arrangements (SBITA), will improve financial reporting by establishing a definition for SBITAs and providing uniform guidance for accounting and financial reporting for transactions that meet that definition. The Statement will be effective for the District with its year ending June 30, 2023.

GASB Statement No. 97, Certain Component Unit Criteria, and Accounting and Financial Reporting for Internal Revenue Code Section 457 Deferred Compensation Plans, will result in more consistent financial reporting of defined contribution pension plans, defined contribution OPEB plans, and other employee benefit plans, while mitigating the costs associated with reporting those plans. The requirements also will enhance the relevance, consistency, and comparability of (1) the information related to Section 457 plans that meet the definition of a pension plan and the benefits provided through those plans and (2) investment information for all Section 457 plans. The Statement will be effective for the District with its year ending June 30, 2022.

Management has not currently determined what impact, if any, these Statements may have on its financial statements.

Notes to Schedules

Changes of Assumptions

For the 2020 through 2016 measurement years, the assumed investment rate of return was 7.0 percent, including an inflation rate of 2.5 percent and a real return of 4.5 percent. Salary increases were assumed to vary by service credit and were consistent in 2020 and 2019. These actuarial assumptions were based on an experience study dated September 18, 2018.

For the 2015 measurement year, the assumed investment rate of return was 7.5 percent, including an inflation rate of 3.0 percent and a real return of 4.5 percent. Salary increases were assumed to vary by service credit. Various other changes in assumptions were adopted based on the experience analysis for the three-year period ending June 30, 2014.

Notes to schedule

Changes of benefit assumptions. Changes of assumptions are as follows:

- The following are discount rates used in each period.

2021 - 2.45%

2020 - 3.13%

2019 - 3.62%

2018 - 3.56%

- The healthcare trend assumption was updated each year based on claim and enrollment experience, projected plan
 cost for the applicable plan year, premium changes through the applicable plan year, and expectation of future trend
 increases.
- The excise trend rate adjustment was updated based on available premium and enrollment information for the applicable plan year.
- Per capita claim costs were updated based on projected claims and enrollment experience for the applicable plan year and updated premium rates for the applicable plan year.
- Healthcare plan participation rates by plan were updated based on observed experience.

This schedule is presented to illustrate the requirement to show information for 10 years. However, until a full 10-year trend is compiled, information is presented for those years for which information is available.

GENERAL FUND

The General Fund is used to account for resources traditionally associated with government operations which are not required to be accounted for in another fund. The District's General Fund consists of four accounts: the *Educational Account*, which records direct costs of instruction and administration; the *Tort Immunity Account*, which is used for the purpose of recording risk financing activities of the District; the *Operations and Maintenance Account*, which reports all costs of maintaining, improving or repairing school buildings and property; and the *Working Cash Account*, which accounts for financial resources held by the District to be used for temporary interfund loans to the Educational Account, the Operations and Maintenance Account, and the Transportation Fund.

Notes to Required Supplementary Information (RSI)

Note 1. Budgets and Budgetary Accounting

The annual budgets are adopted on the modified accrual basis of accounting at the fund level. All budgets lapse at fiscal year-end. The District maintains a system to measure the uncommitted budget amount available for expenditures at any time during the year. For budgetary purposes, appropriations lapse at June 30, 2021, and outstanding encumbrances are canceled at that date.

On or before July 1 of each year, the Superintendent is to submit for review by the Board of Education a proposed budget for the school year commencing on that date. After reviewing the proposed budget, the Board of Education holds public hearings and a final budget must be prepared and adopted no later than September 30. The 2020-21 budget was adopted September 20, 2020.

The appropriated budget is prepared by fund, by object and by function. The Board of Education may make transfers between functions within a fund not exceeding in the aggregate 10 percent of the total of such fund, and may amend the total budget following the same procedures required to adopt the original budget. The legal level of budgetary control is at the fund level.

The budget amounts shown are as originally adopted because there were no amendments during the past fiscal year.

For budgetary purposes, the District does not recognize as revenues the retirement contributions made by the State to the Teachers' Retirement System of the State of Illinois (TRS) and Teachers' Health Insurance Security Fund of the State of Illinois (THIS) on behalf of the District as well as the related expenditures.

The following schedule reconciles the revenues and expenditures on the budgetary basis with the amounts presented in accordance with accounting principles generally accepted in the United States of America for the District's General Fund only.

Revenues - budgetary basis	\$ 530,881,946
Unbudgeted retirement/OPEB contributions made by the State	113,839,996
Revenues - GAAP basis	\$ 644,721,942
Expenditures - budgetary basis	\$ 493,566,954
Unbudgeted retirement/OPEB contributions made by the State	 113,839,996
Expenditures - GAAP basis	\$ 607,406,950

Notes to Required Supplementary Information (RSI)

Note 2. Notes to Schedule of Contributions - IMRF

Valuation Date Actuarial determined contribution rates are calculated as of

December 31 each year, which are 12 months prior to the beginning of the fiscal year in which contributions are reported.

Methods and assumptions used to determine 2020 contribution rate*:

Actuarial Cost Method: Aggregate entry age normal

Amortization Method: Level percentage of payroll, closed

Remaining Amortization Period: 23-year closed period

Asset Valuation Method: 5-year smoothed market; 20 percent corridor

Wage Growth: 3.25 percent Price Inflation: 2.50 percent

Salary Increases: 3.35 percent to 14.25 percent, including inflation

Investment Rate of Return: 7.25 percent

Retirement Age: Experienced-based table of rates that are specific to the type of

eligibility condition; last updated for the 2017 valuation pursuant

to an experience study of the period 2014 to 2016.

Mortality: For non-disabled retirees, an IMRF specific mortality table was

used with fully generational projection scale MP-2017 (base year 2015). The IMRF specific rates were developed from the RP-2014 Blue Collar Health Annuitant Mortality Table, adjusted to match current IMRF experience. For disabled lives, an IMRF specific mortality table was used with fully generational projection scale MP-2017 (based year 2015). The IMRF specific rates were developed from the RP-2014 Disabled Retirees Mortality Table, applying the same adjustments that were applied for non-disabled lives. For active members, an IMRF-specific mortality table was used with fully generational projection scale MP-2017 (based year 2015). Employee Mortality Table with adjustments to match

current IMRF experience.

Other Information

Notes There were no benefit changes during the year.

^{*}Based on Valuation Assumptions used in the December 31, 2018 actuarial valuation.

Notes to Required Supplementary Information (RSI)

Note 3. Notes to Schedule of Contributions - Teachers' Health Insurance Security Fund

Valuation Date June 30, 2019 Measurement Date June 30, 2020 Fiscal Year-End June 30, 2021

Methods and assumptions used to determine contribution rates:

Actuarial Cost Method Entry Age Normal, used to measure the Total OPEB Liability

Contribution Policy Benefits are financed on a pay-as-you go basis. Contribution rates are

defined by statute. For fiscal year-end June 30, 2020, contribution rates are 1.24% of pay for active members, 0.92% of pay for school districts and 1.24% of pay for the State. Retired members contribute a percentage of premium rates. The goal of the policy is to finance current year costs plus a margin for incurred but not paid plan

costs.

Asset Valuation Method Market value

Investment Rate of Return 0%, net of OPEB plan investment expense, including inflation

Inflation 2.50%

Salary Increases Depends on service and ranges from 9.50% at less than 1 year of

service to 4.00% at 20 or more years of service. Salary increase

incudes a 3.25% wage inflation assumption.

Retirement Age Experience-based table of rates that are specific to the type of

eligibility condition. Last updated for the June 30, 2018, actuarial

valuation.

Mortality Retirement and Beneficiary Annuitants: RP-2014 White Collar

Annuitant Mortality Table. Disabled Annuitants: RP-2014 Disabled Annuitant Table. Pre-Retirement: RP-2014 White Collar Table. All tables reflect future mortality improvements using Projection Scale

MP-2017.

Healthcare Cost Trend Rates Trend for fiscal year 2020 based on expected increases used to develop

average costs. For fiscal years on or after 2021, trend starts at 8.25% for non-Medicare costs and Medicare costs and gradually decreases to an ultimate trend of 4.25%. There is no additional trend rate adjustment due

to the repeal of the Excise tax.

Aging Factors Based on the 2013 SOA Study "Health Care Costs – From Birth to

Death"

Expenses Health administrative expenses are included in the development of the

per capita claims costs. Operating expenses are included as a

component of the Annual OPEB Expense.

DEBT SERVICE FUND

Debt service funds are used to account for monies accumulated to retire general long-term debt. The Debt Service Fund maintained by the District is as follows:

Debt Service Fund - To account for the periodic payment of principal and interest on the general obligation bond issues and other long-term debt of the District. Sources of funds consist primarily of local property tax revenues and transfers from other funds of the District.

NONMAJOR GOVERNMENTAL FUNDS

SPECIAL REVENUE FUND

Special revenue funds are used to account for revenues from specific taxes or other earmarked revenue sources which by law are designated to finance particular functions or activities of government and which cannot be diverted to other uses. The special revenue funds maintained by the District are as follows:

Transportation Fund – To account for the revenue and expenditures related to student transportation, both to and from school. Revenue is derived primarily from local property taxes and state reimbursement grants.

Municipal Retirement Fund - To account for the District's portion of the pension contributions to the Illinois Municipal Retirement Fund for classified employees and social security contributions for applicable certified and classified employees. Revenue to finance the contributions is derived primarily from local property taxes.

CAPITAL PROJECTS FUNDS

Capital projects funds account for the resources used by the District for the acquisition and/or construction of capital facilities. The Capital Projects Funds maintained by the District are as follows:

Capital Projects Fund - To account for school construction projects financed through serial bond issues and government grants.

Fire Prevention and Safety Fund - To account for resources to be used for the purpose of altering, reconstructing and repairing the existing school buildings of the District.

STUDENT ACTIVITY ACCOUNTS

Student activity accounts are resources in the control of the District to be used for student related activities. These resources are generated by specific fees for the activities and the District has rules in place that dictate how the resources may be spent. These accounts are considered part of the activity of the District's General Fund and the total year-end balances and activity by school summarized on the following pages are included in the General Fund's balance sheet and statement of revenues, expenditures, and changes in fund balance.

STATISTICAL SECTION

This part of the District's Annual Comprehensive Financial Report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the District's overall financial health.

Financial Trends

These schedules contain trend information to help the reader understand how the District's financial performance and well-being have changed over time.

Revenue Capacity

These schedules contain information to help the reader assess the District's most significant local revenue source, property tax.

Debt Capacity

These schedules present information to help the reader assess the affordability of the District's current levels of outstanding debt and the District's ability to issue additional debt in the future.

Demographic and Economic Information

These schedules offer demographic and economic indicators to help the reader understand the environment within which the District's financial activities take place.

Operating Information

These schedules contain service and infrastructure data to help the reader understand how the information in the District's financial report relates to the services the District provides and the activities it performs.

Sources:

Unless otherwise noted, the information in these schedules is derived from the Annual Financial Reports and Annual Comprehensive Financial Reports for the relevant year.

Source: Annual Financial Statements 2012-2021.

¹ Effective July 1, 2013, the District adopted provisions of Governmental Accounting Standards Board Statement No. 65 (GASB 65), Items Previously Recorded as Assets and Liabilities. Pursuant to GASB 65 debt issuance costs should be recognized in the period incurred as an expense. Therefore, the District retrospectively restated the Net Position of the Governmental Activities for the year 2013. For the year 2012 and prior, the Net Position has not been restated and is shown as originally reported.

² Effective July 1, 2014, the District adopted provisions of Governmental Accounting Standards Board Statement No. 68 (GASB 68), Accounting and Financial Reporting for Pensions. Pursuant to GASB 68 the District recognized their long-term pension obligations and retrospectively restated the Net Position of the Governmental Activities for the year 2014. For the year 2013 and prior, the Net Position has not been restated for purposes related to GASB 68 and is shown as originally reported or restated as a result of a past GASB implementation.

³ Effective July 1, 2017, the District adopted provisions of Governmental Accounting Standards Board Statement No. 75 (GASB 75), Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions. Pursuant to GASB 75 the District recognized their long-term obligations for other post employment benefits and retrospectively restated the Net Position of the Governmental Activities for the year 2017. For the year 2016 and prior, the Net Position has not been restated for purposes related to GASB 75 and is shown as originally reported or restated as a result of a past GASB implementation.

⁴ Effective July 1, 2020, the District adopted provisions of Governmental Accounting Standards Board Statement No. 84 (GASB 84), Fiduciary Activities. Pursuant to GASB 84, the District recognized additional funds as part of governmental activities. Prior to the adoption of GASB 84, these funds had been considered Agency Funds and reported as Fiduciary Funds in the District's financial statements. For the year 2020 and prior, the Net Position has not been restated for purposes related to GASB 84 and is shown as originally reported or restated as a result of a past GASB implementation.

Notes: Beginning in fiscal year 2011, payments to other governments and State on-behalf payments were allocated between instruction and support service expenses and shown accordingly. In fiscal year 2018, State on-behalf payments were reported separately again to more clearly present the change in expenses due to outside factors. Beginning in fiscal year 2016, Operations and Maintenance expense was reported on its own row, whereas fiscal years 2015 and prior were included in Business expense.

Source: Annual Financial Statements 2012-2021.

Beginning in fiscal year 2016, Operations and Maintenance expenditures was reported on a separate row, whereas fiscal years 2015 and prior were included in Business expenditures.

Beginning in fiscal year 2016, State on-behalf payments were allocated to the different functions. This stopped in fiscal year 2018 to more clearly present the changes in revenues and expenses that are due to outside factors. The amounts shown above were reclassified to remove the allocation of the on-behalf payments to the different functions.

^{**} The District restated fiscal year 2016 ending fund balance in the Non-Major Governmental Funds in the amount of \$970,017 to adjust for the Illinois Municipal Retirement Fund (IMRF) payable in the Municipal Retirement/Social Security Fund. The amounts are shown above as restated.

Source: Kane, Cook and DuPage County Clerk Tax Extension Offices

Notes: The 2020 levy year is the current levy year for the District as the property tax levy is on a calendar year in the State of Illinois. DuPage and Kane counties assess property as approximately 33.33 percent of actual value. Cook County assesses property as approximately 10 percent of actual value for residential properties and 25 percent of actual value for commercial and industrial property. Estimated actual taxable value is calculated by dividing taxable value by percentage. Tax rates are per \$100 of assessed value.

Industrial Property Railroad Property Value Tax Rate Taxable Value \$ 146,357,393 \$ 2,167,873 \$ 2,009,983,413 5.7275 \$ 6,029,950,239 \$ 153,766,439 \$ 2,077,858 \$ 2,168,943,299 6.5746 6,506,829,897 \$ 2,162,836 \$ 1,829,869 \$ 1,214,065,159 \$ 5.6366 3,642,195,477 \$ 302,286,668 \$ 6,075,600 \$ 5,392,991,871 \$ 16,178,975,613 \$ 140,553,322 \$ 1,941,130 \$ 1,919,270,477 \$ 5.7890 \$ 5,757,811,431 \$ 140,124,904 \$ 1,789,381 \$ 2,175,591,835 \$ 6.4390 \$ 6,526,775,505 \$ 1,994,269 \$ 1,767,533 \$ 1,173,238,653 \$ 5.7783 \$ 3,519,715,959 \$ 282,672,495 \$ 5,498,044 \$ 5,268,100,965 \$ 15,804,302,895 \$ 129,812,092 \$ 1,820,868 \$ 1,790,268,416 \$ 6.1237 \$ 5,370,805,248 \$ 113,037,065 \$ 1,775,595 \$ 1,889,647,692 \$ 7.1200 \$ 5,668,943,076 \$ 1,963,259 \$ 1,766,536 \$ 1,131,623,935 \$ 5.9746 \$ 3,394,871,805 \$ 244,812,416 \$ 5,	33.33% 33.33% 33.33% 33.33% 33.33% 33.33% 33.33% 33.33% 33.33% 33.33%

Total Direct and Overlapping General Obligation Bonded Debt			<u>\$ 497,002,628</u>

⁽¹⁾ Excludes principal amounts of outstanding General Obligation Alternate Revenue Source Bonds which are expected to be paid from sources other than general taxation. Excludes Illinois EPA Revolving Loan Fund Bonds.

Note: The percentage of overlapping debt applicable is estimated using taxable assessed property values. Applicable percentages were estimated by determining the portion of the District's taxable assessed value that is within the government's boundaries and dividing it by the District's total taxable assessed value.

Source: Offices of the County Clerks of Cook, DuPage and Kane Counties, Illinois

⁽²⁾ Includes original principal amounts of outstanding General Obligation Capital Appreciation Bonds.

⁽³⁾ Excludes outstanding Debt Certificates.

⁽⁴⁾ Includes Illinois EPA Revolving Loan Fund Bonds.

⁽⁵⁾ Excludes self-supporting bonds for which abatements are filed annually.
