Changing Mailto: options in your browser settings
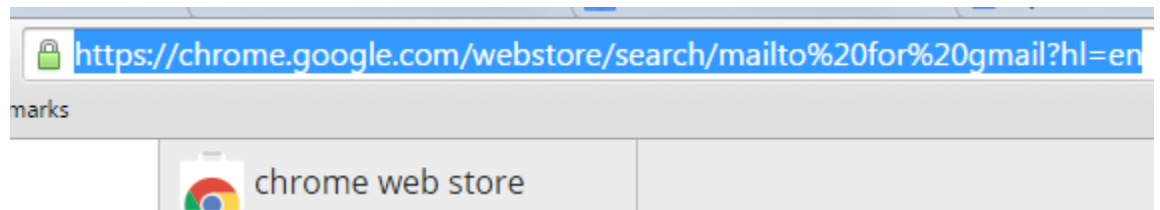

1. Launch a Google Chrome browsing session.

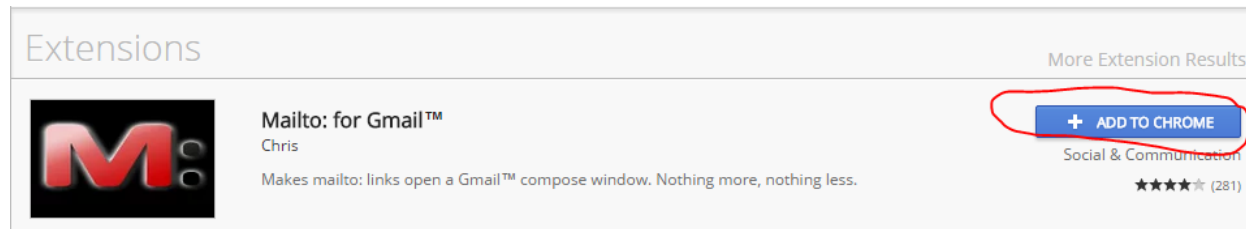

2. Enter the following URL address into your browser:
   https://chrome.google.com/webstore/search/mailto%20for%20gmail?hl=en

3. Click "Add to Chrome" to add this extension to your Chrome browser:

4. Click "Add" to confirm the installation of the extension

5. That's it! At this point, any time you click on a link to compose e-mail (while using Google Chrome as your browser), it will launch a Gmail compose window.
